PLATE-TO-OWNER INFORMATION: New Mexico uses a Plate-to-Owner procedure for transferring ownership of vehicles. Under this procedure plates are assigned to you the owner (seller) rather than the vehicle. When disposing of a vehicle the license plate must be removed by the seller before delivery is made to the purchaser or new owner. The seller then has 30 days in which to register the removed plate with another vehicle of the same class or return it to a local MVD field office for cancellation.

NOTE: THE DIVISION IS NOT RESPONSIBLE FOR FALSE OR FRAUDULENT STATEMENTS MADE IN CONNECTION WITH THIS TRANSFER OF OWNERSHIP OR HELD LIABLE FOR RECORDING ERRORS.

DRUG AND ALCOHOL ABUSE
AWARENESS ACKNOWLEDGEMENT FORM

I David P. Ray, acknowledge I have received drug and alcohol abuse/awareness information as required by State Personnel Board Rule 11.

In this drug awareness session:

I have been given information on the State of New Mexico's Personnel Board and Energy, Minerals and Natural Resources Department's policy on a drug and alcohol-free workplace and I understand it.

I have been given information on the State of New Mexico's Personnel Board and Energy, Minerals and Natural Resources Department's discipline policy on illegal drug and alcohol activity in the workplace.

I understand that if I test positive when required to test for drug or alcohol abuse, a penalty up to and including termination can be imposed on me.

I have been made aware that illegal drug and alcohol use is dangerous.

I have been given information about resources for drug and alcohol abuse counseling, rehabilitation and employee assistance programs.

I understand that this Department intends to have a drug-free and alcohol-free workplace and wants to provide assistance to any employee who has a problem. The number to call for assistance is:

MEMORANDUM

To: All Employees of EMNRD

From: Jennifer A. Salisbury, Cabinet Secretary

Subject: Governor's Code of Conduct
EMNRD Separate Agency Code of Conduct

Attached is a copy of the Governor's Code of Conduct adopted March 29, 1995 and the EMNRD Separate Agency Code of Conduct adopted August 23, 1995. Please include these in your policy handbooks and remove the previous codes of conduct which are no longer effective. Carefully review both the Governor's Code of Conduct and the EMNRD Code of Conduct and contact the Personnel and Training Bureau if you have any questions. Please sign this document stating that you have received and reviewed the Governor's Code of Conduct and the EMNRD Code of Conduct and return it to the Personnel and Training Bureau to be placed in your personnel file.

I, DAVID P. RAY, have received and reviewed the Governor's Code of Conduct and the EMNRD Code of Conduct.

ACKNOWLEDGMENT

I, David P. Ray, an employee of EMNRD (PARKS)

Hereby certify that I have received a copy of the State of New Mexico's policy regarding the maintenance of a drug-free workplace. I realize that the unlawful manufacture, distribution, dispensation, possession or use of controlled substance is prohibited on the premises of the state agency for which I work and violation of this policy can subject me to discipline up to and including dismissal. I realize that as a condition of employment of such federal grant or contract, I must abide by the terms of this policy and will notify the employer of any criminal drug conviction for a violation occurring in the workplace no later than five (5) days after such conviction. I further realize that federal law mandates that the employer communicate this conviction to the federal agency.

If there is any kind of contribution for which you haven't made an investment direction, we will apply those contributions according to your investment direction for employee contributions, until you specify otherwise.

You must understand that this form creates a legally binding contract. The accompanying disclosure language explains the terms of this contract, certain rules for your investment Contract(s), and the provisions of your Tax Deferred Savings Program, including important information about Tax Deferred Savings Program withdrawal restrictions and investment options. YOU MUST READ THE ACCOMPANYING DISCLOSURE LANGUAGE BEFORE YOU SIGN ANYTHING. If anything on this form makes you unsure about your decision to buy this Tax Deferred Savings Program ask your Copeland Representative to explain it again.

Deductions and Adjustments Worksheet

Note: Use this worksheet only if you plan to itemize deductions or claim adjustments to income on your 1992 tax return.

1 Enter an estimate of your 1992 itemized deductions. These include: qualifying home mortgage interest, charitable contributions, state and local taxes (but not sales taxes), medical expenses in excess of 7.5% of your income, and miscellaneous deductions. (For 1992 you may have to reduce your itemized deductions if your income is over \$105,250 (\$52,625 if married filing separately). Get Pub. 919 for details.)

2 Enter: \$6,000 if married filing jointly or qualifying widow(er)
\$5,250 if head of household
\$3,600 if single
\$3,000 if married filing separately

3 Subtract line 2 from line 1. If line 2 is greater than line 1, enter -0-

4 Enter an estimate of your 1992 adjustments to income. These include alimony paid and deductible IRA contributions

5 Add lines 3 and 4 and enter the total

6 Enter an estimate of your 1992 nonwage income (such as dividends or interest income)

7 Subtract line 6 from line 5. Enter the result, but not less than -0-

8 Divide the amount on line 7 by \$2,500 and enter the result here. Drop any fraction

9 Enter the number from Personal Allowances Worksheet, line G, on page 1

10 Add lines 8 and 9 and enter the total here. If you plan to use the Two-Earner/Two-Job Worksheet, also enter the total on line 1, below. Otherwise, stop here and enter this total on Form W-4, line 5, on page 1.

Two-Earner/Two-Job Worksheet

Note: Use this worksheet only if the instructions for line G on page 1 direct you here.

1 Enter the number from line 10 above if you used the Deductions and Adjustments Worksheet

2 Enter the number from line 10 above if you used the Deductions and Adjustments Worksheet

3 If line 1 is GREATER THAN line 2, enter -0- on Form W-4, line 5, on page 1. DO NOT use line 3 to calculate

Note: If line 1 is LESS THAN line 2, enter -0- on Form W-4, line 5, on page 1. Complete lines 4-9 to calculate the additional dollar withholding necessary to avoid a year-end tax bill.

4 Enter the number from line 2 of this worksheet

5 Enter the number from line 1 of this worksheet

6 Subtract line 5 from line 4

7 Find the amount in Table 2 below that applies to the HIGHEST paying job and enter it here

8 Multiply line 7 by line 6 and enter the result here. This is the additional annual withholding amount needed

9 Divide line 8 by the number of pay periods remaining in 1992. (For example, divide by 26 if you are paid every other week and you complete this form in December of 1991.) Enter the result here and on Form W-4, line 6, page 1. This is the additional amount to be withheld from each paycheck

Privacy Act and Paperwork Reduction Act Notice.—We ask for the information on this form to carry out the Internal Revenue laws of the United States. The Internal Revenue Code requires this information under sections 3402(d)(2)(A) and 6109 and their regulations. Failure to provide a completed form will result in your being treated as a single person who claims no withholding allowances. Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation and to cities, states, and the District of Columbia for use in administering their tax laws.

The time needed to complete this form will vary depending on individual circumstances. The estimated average time is: Recordkeeping 45 min., Learning about the law or the form 10 min., Preparing the form 70 min. If you have comments concerning the accuracy of these time estimates or suggestions for making this form more simple, we would be happy to hear from you. You can write to both the Internal Revenue Service, Washington, DC 20224, Attention: IRS Reports Clearance Officer, TFP; and the Office of Management and Budget, Paperwork Reduction Project (1545-0010), Washington, DC 20503. DO NOT send the tax form to either of these offices. Instead, give it to your employer.

P

EMPLOYMENT RECORD - A resume will not be accepted in lieu of the employment record.

Begin with current or most recent job or volunteer experience and work back. If more than one position has been held with the same organization, list each separately. Describe each different assignment in military service. Under "DUTIES" describe your job in sufficient detail so that we can fairly determine not only your tasks, but the level of responsibilities. If more space is needed for additional jobs attach SPB Form 300 Supplement or additional sheets in the same format as below.

Volunteer experience will be evaluated in the same manner as paid employment only if proper documentation accompanies this application. Proper documentation consists of a letter from each employer giving a brief description of duties performed as well as beginning and ending dates and the average number of hours worked per week.

1	Employer's name SIERRA VALLEY CONST. Co.	Kind of business CONSTRUCTION	From (Mo., Yr.) 12 1993	To (Mo., Yr.) 4 1994

VETERAN/NATIONAL GUARD PREFERENCE POINTS

Preference points will be granted to those eligible veterans who pass an entrance test.

An eligible veteran is any person who served in the United States Armed Forces and was honorably discharged or any person currently serving in the National Guard.

Veterans must attach a copy of Form DD214, Member #4. Members of the National Guard must submit a copy of their latest Leave and Earnings Statement in lieu of Form DD214.

If the documents verifying military service or percentage of disability are not submitted with the application, veteran's preference or disabled veteran's preference will not be granted for this application.

IMPORTANT INSTRUCTIONS FOR COMPLETING THIS APPLICATION

The completion of this application represents your ability to provide written communication and follow directions. It is a primary source of information for managers making selection decisions.

Incomplete or illegible applications will not be processed. Applications are accepted only for the job titles and locations for which recruitment is currently being conducted.

such as transcripts, licenses, DL-214 and Supplemental Application Questionnaires. DO NOT submit a resumé for this application or any part of it.

Copies are acceptable if each is clear, has an original signature, correct job title, contains required attachments and is the same size as the original application.

This application form and its attachments are official property of the State and cannot be returned, reused or copied after being submitted. You should retain a copy of this application for future use or reference.

If more space is needed to give full answers or explanations, attach additional sheets referencing the item number, your name, social security number and job title applied for, using the same format as the application form.

For each position list at least one (1) New Mexico location where you are willing to accept work.
NOTE: "Anywhere" is not an acceptable answer. You will only be considered for the locations which you have listed.

• Received

THRU: *J. Salisbury*
Joan "Jody" G. Hooper, State Personnel Director
Gin Brown, Agency Services Director

AUG - 1 1995

FROM: *J. Salisbury*, Compensation Administrator

DATE: July 25, 1995

SUBJECT: Government Cost Savings Incentive Award - Mr. David P. Ray

This is to formally advise you that the State Personnel Board at its meeting on July 14, 1995, approved your request for a Government Cost Savings Incentive Award for Mr. David P. Ray, in the amount of \$1,182.70 as prescribed in NMSA 1978 § 10-7-12 and SPB Rule 6.13.

As prescribed in the statute, please ensure that the cash award is paid to Mr. Ray promptly and that it is produced from the actual cost savings as indicated in the attached correspondence from the Department of Finance and Administration.

The State Personnel Board and our office extend our sincere appreciation and congratulations to Mr. Ray for his exemplary work and dedication! Please present the attached certificate from the State Personnel Board to Mr. Ray in recognition of his initiative and accomplishment.

In addition, the Board recognized the efforts of your Department, in particular, Mr. Charles Mullings, Mr. Tommy Mutz, and Ms. Juanita Rosales in providing the opportunity for Mr. Ray's initiative, and encourage more opportunities like this in the future from all state agencies.

NARRATIVE

On Tuesday, March 30, 1999, Lieutenant Mark Weaver, Criminal Investigations Section, New Mexico State Police, assigned Agent Joe Schiel, Criminal Investigations Section (Española), New Mexico State Police, and myself to process a vehicle on March 31, 1999, in Santa Fe, New Mexico. Lieutenant Weaver provided me with a copy of the Affidavit and Search Warrant for the vehicle. A copy of the Affidavit and Search Warrant are attached to this report. (Refer to Attachment #1).

On Wednesday, March 31, 1999, I arrived at the New Mexico State Police garage in Santa Fe, New Mexico and met with Agent Joe Schiel. The vehicle had been sealed with red evidence tape and secured in the garage. The vehicle is a 1978 Toyota, Royal, motor home bearing New Mexico license plate 1807-RVP. Suspect, David Parker Ray, owns the vehicle.

Agent Schiel and I met with Evidence Custodian David Bangs and he had us sign a crime scene sign-in sheet. A copy of the crime scene sign-in sheet is attached to this report. (Refer to Attachment #2). David Bangs then relinquished custody of the vehicle to me. A copy of the New Mexico State Police Receipt for Property or Evidence is attached to this report. (Refer to Attachment #3.)

Agent Joe Schiel and I formulated a plan to process the vehicle. Agent Schiel would document the evidence with an 8mm-videotape camera and I would utilize a 35mm camera for still photographs. We began to process the vehicle at approximately 2:30 p.m. The doors of the vehicle were sealed with red evidence tape, which depicted that they had not been tampered with the exception of the evidence seal on the driver's door, which was broken by David Bangs while the vehicle was placed in the garage, prior to our arrival. The exterior of the vehicle and the evidence seals on the doors were documented as depicted in photographs R1-1 through R1-8. Copies of the photographs and photograph logs are attached to this report. (Refer to Attachment #4).

Agent Joe Schiel and I wore Tyvek suits, shoe covers, and rubber gloves while processing the vehicle. Agent Schiel utilized the video camera and documented the evidence where it was found. He then removed the evidence from the vehicle and placed it on white butcher paper that had been rolled out. I photographed the evidence and then listed it on a New Mexico State Police Receipt for Property or Evidence. Refer to the New Mexico State Police Receipt for Property or Evidence, which depicts the evidence that was collected. A copy is attached to this report. (Refer to Attachment #5). After the evidence was collected from the cab of the vehicle, we began to process the camper section. I took several photographs of the interior of the camper, which included the evidence we located. The evidence was placed on the white butcher paper and photographed. Refer to the photograph logs and photographs, which are attached to this report (Attachment #4). Four rolls of film were utilized to document the evidence on Wednesday afternoon, March 31, 1999.

Refer to Agent Joe Schiel's report for further details on where the evidence was located in the vehicle.

The evidence collected was wrapped in brown paper bags and sealed. I relinquished the evidence to David Bangs, Evidence Custodian. We resealed the vehicle with blue evidence tape at approximately 5:45 p.m., and it was secured in the garage.

On Thursday, April 1, 1999, Agent Schiel and I resumed the processing of the vehicle at approximately 8:00 a.m. The evidence seals on the vehicle had not been tampered with. The seals were broken at approximately 8:25 a.m.

We collected the curtains and rugs from the camper and wrapped them in paper. While removing the curtains above the kitchen sink, a black hair tie was exposed, as depicted in photograph R5-2. After it was photographed, it was collected as evidence. We then processed the camper for latent fingerprints utilizing a Superglue fuming wand. Latent prints were located on mirrors that were attached to the bathroom and closet doors. The latent fingerprints were photographed. Refer to photograph log and photographs, which are attached to this report. (Refer to Attachment #6).

After processing the vehicle, I relinquished custody of the vehicle back to David Bangs, Evidence Custodian, along with the additional evidence collected. The vehicle was placed in the fenced impound lot behind the garage and the doors were resealed with

PAGE 3 OF 3

evidence tape at approximately 11:45 a.m. A copy of the New Mexico State Police Receipt for Property or Evidence depicting the evidence collected was faxed to Agent Wesley R. LaCuesta, New Mexico State Police, in T or C, New Mexico. I then returned to Albuquerque, New Mexico.

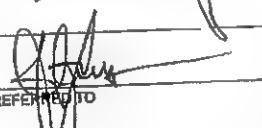

On April 5, 1999, I traveled to T or C, New Mexico and assisted New Mexico State Police Criminal Agents and agents of the FBI with the investigation of David Parker Ray. I was assigned to locate the owners of a small black and white Shiatsu dog named "Pepper". They reportedly reside in Elephant Butte, New Mexico. I was informed that the owner of this dog reportedly bought a .380 caliber Baretta handgun from suspect David Parker Ray. The weapon was reportedly used in a homicide.

I proceeded to the Sierra Animal Shelter in T or C, New Mexico and met with Peggy Ryan. She allowed me to view the records and I obtained names of persons in Elephant Butte that own dogs named "Pepper". I then met with New Mexico State Police Agent Ed Apodaca and provided him with the names. We then contacted these persons regarding the dog and inquired about a weapon. Refer to Agent Ed Apodaca's report for further details.

On April 6, 1999, I was assigned to escort suspect Cindy Hendy to court in Socorro, New Mexico for her arraignment. I then proceeded to Albuquerque, New Mexico.

On Thursday, April 15, 1999, I testified at the Sierra County District Court regarding a preliminary hearing on suspect David Parker Ray. I testified about the processing and collection of evidence found in David Parker Ray's Toyota motor home.

This concludes my involvement in this investigation.

SEARCH WARRANT

THE STATE OF NEW MEXICO TO ANY OFFICER AUTHORIZED TO EXECUTE THIS WARRANT:

Proof by affidavit for search warrant, having been submitted to me, I am satisfied that there is probable cause that the person named or property described in the affidavit is located where alleged in the affidavit and I find the ground exist for the issuance of the search warrant. A copy of the affidavit is attached and made a part of this warrant.

YOU ARE HEREBY COMMANDED to search forthwith the person or place described in the affidavit between the hours of 6:00 a.m. and 10:00 p.m., unless I have specifically authorized a nighttime search, for the person or property described in the affidavit, serving this Warrant together with a copy of the affidavit, and making the search and if the person or property be found there, to seize the person or the property and hold for safekeeping until further order of the court.

You are further directed to prepare a written inventory of any person or property seized. You are further directed to file the return and written inventory with the court promptly after its execution.

Affidavit For Search Warrant

Affiant, being duly sworn, upon his oath, states that I have reason to believe that on the following described premises of person of; David Ray Parker and the premises to be described in this Search Warrant as a white and brown Mobile Home reflecting the address of 513 Bass Rd., lot #8, block K, Hot Springs Landing in the Elephant Butte Lake area, Sierra County New Mexico. ~~Attached is a copy of a Plat Survey, which is made part of this Affidavit.~~ *h*

Said mobile home is positioned in length in a general direction of North to South with the front door on the West side. A chain-linked fence encircles the mobile home with gate on the south end near Bass road. In front of the mobile home, is a carport with a white Dodge Ram utility vehicle underneath of it with New Mexico License plate 705 GLN displayed. On above described property are two boats, two travel trailers, and one red metal storage shed. Attached to the mobile home are a main body addition and a garage addition.

Also to be searched is a white, 1978, Toyota, Royal, motor home, displaying New Mexico license plate, 1807RBP. Said vehicle is secured at the New Mexico State Police, in Truth or Consequences, New Mexico.

The above described above premises to be searched to be included, all surrounding grounds and out structures and any and all curtilage thereof.

in the city or county designated above there is now being concealed; dildos and any suspected objects or devices used for sexual acts, whips, leather belts, photographs, videos, audio-recordings, chains, ropes, restraining devices including leg restraints, shocking devices; including wires and clamps, any and all firearms, metal collars, pulleys, victims clothing, described as being a white shirt with blue lettering "BUM", blue button up jeans with pockets on front side only, a brown and black pullover jacket and a white and black checkered boxer type shorts. Any table suspected for use of sexual activity such as a gynecologist table.

Biological standards to be seized; any and all type of hair fibers, blood, saliva, semen and suspected bodily secretions.

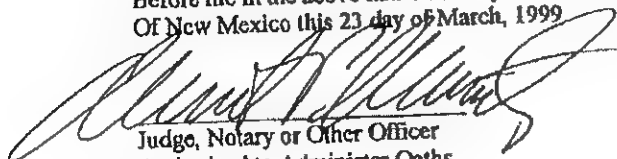

Additional evidence to be collected by photographs of premises and all curtilage and vehicles, collection of latent prints, any and all trace evidence, diagrams of the premises and vehicles.

and the facts tending to establish the foregoing grounds for issuance of a Search Warrant are as follows:

AFFIDAVIT FOR SEARCH WARRANT-RAY, DAVID P.

PAGE: #2

Deputy Elston advised David Ray and Cindy Hendy were detained and taken to the Richard R. Cooper Boat Safety Center in Truth or Consequences as the investigation continued. This building is located off highway 95, at Box 13 Elephant Butte, New Mexico. The 1978 Toyota Royal RV was impounded and towed from the scene under the direction of Sheriff Terry Byers and secured inside the Richard R. Cooper Safety Center building. The vehicle was transferred to New Mexico State Police Criminal Investigator Rudy Ramirez and taken by wrecker to the New Mexico State Police office in Truth or Consequences, New Mexico, where it was secured.

Affiant was advised the naked woman had been identified as Cynthia Vigil. Ms. Vigil claimed to be a victim of the crimes of Sexual Assault and Kidnapping. Deputy Lucas Alvarez took Ms. Vigil to the Sierra Vista Hospital in Truth or Consequences for medical treatment.

At approximately 8:30 p.m., Affiant met with Deputy Alvarez at the hospital. Deputy Alvarez stated he had met with the victim at 301 Springland Road. Deputy Alvarez advised the victim, Cynthia Vigil, from Albuquerque, New Mexico. Deputy Alvarez said she was found wearing a pink robe, and had a metal type collar around her neck secured by a lock.

Deputy Alvarez stated Ms. Vigil was screaming hysterically when he first arrived. Ms. Vigil said she had been kidnapped and locked up for three (3) days. She further claimed the person who had detained her is currently employed by the New Mexico State Parks, and she identified him by the name, "David." Deputy Alvarez advised Ms. Vigil had minor cuts and bruises on her body and was complaining about an injury on her head.

At approximately 8:50 p.m., Affiant interviewed Cynthia Vigil. Affiant observed small cuts on both of her legs, bruising on her right arm, bruising and abrasions on both of her wrists. Affiant also observed welt-type marks on Ms. Vigil's back. In addition, the Affiant observed a small puncture wounds and light bruising on her aureoles.

Cynthia Vigil stated on Saturday, March 20, 1999, between the hours of 10:00 a.m. and 11:00 a.m., she was on Central Avenue in Albuquerque, New Mexico. Ms. Vigil advised an acquaintance introduced her to David Ray and Cindy Hendy, who were in their recreational vehicle. She said David Ray showed her a small badge and told her she was under arrest for solicitation and was placed in handcuffs by Cindy Hendy.

Ms. Vigil said she was then restrained to a fixture inside the camper, then both David Ray and Cindy Hendy stripped her of her clothes and threatened to shock her with an electrical type device. She stated she was taken to an unknown residential location, where she was restrained. She stated she had been assaulted with dildos, which were inserted to her vagina and rectum. In addition, Ms. Vigil said she had been subjected to "shock therapy", to her breasts, while Cindy Hendy watched.

Ms. Vigil did state that a audio tape recording was played to her detailing what David Ray was going to do to her. She was shown photographs of naked women who were also in restraints. Ms. Vigil also stated to Affiant that photographs were taken of her, while she was restrained from the ceiling in one of the rooms. She referred to this room as being the dirty room, where she observed whips, chains, dildos, pulleys, belts, and the electrical devices used to shock her breasts and body. Cynthia Vigil stated that David Ray told her he would later take her outside to the "playbox", referring to an outer building where he claimed was an gynecology table.

AFFIDAVIT FOR SEARCH WARRANT

Affiant is a full time salaried New Mexico State Police Officer for approximately five (5) years, nine (9) months and is currently assigned to the Criminal Investigation Section Bureau, Zone 5, Las Cruces, New Mexico and is certified by the New Mexico Law Enforcement Academy.

On March 22, 1999, Affiant was assigned to conduct a criminal investigation of an alleged Kidnapping and Criminal Sexual Penetration that occurred in Truth or Consequences, New Mexico in Sierra County. It is alleged that on this day, at approximately 5:55 p.m., Affiant arrived at the Cooper Training Center in Truth or Consequences, New Mexico, and was briefed by Sierra County Deputy David Elston of the following.

Deputy Elston related he, and Deputy Lucas Alvarez, were dispatched to a 911 hang-up call from a residence at 513 Bass Road in Elephant Butte, New Mexico. The dispatcher informed him he heard a commotion in the background, then the 911 call was terminated. While enroute to the location, he was further advised by the dispatcher of another report of a naked woman seen running on the road and was at that time seen around the residence of 301 Springland Road, in the same neighborhood.

Deputy Elston advised he dropped off Deputy Alvarez at 301 Springland Road to follow-up on the reported naked woman, and he proceeded to 513 Bass Road. Upon arriving at 513 Bass Road, the mobile home, where the 911 hang up occurred. Deputy Elston found no one outside. Deputy Elston advised he was met by two State Park Rangers, from the Elephant Butte State Park Recreational Office, and with their assistance approached the rear of the residence. Deputy Elston advised he observed a white, Dodge Ram, pickup parked at the mobile home, 513 Bass Road. As he and the Park Officers approached the trailer, he found a rear sliding glass door unlocked. Deputy Elston said entry was made through this glass door, and a welfare check was conducted for any person or persons found inside.

Deputy Elston said he and the assisting Park Rangers knew who lived at the residence. He said the Park Rangers knew David Ray as being a fellow employee, who is currently employed with them at New Mexico State Parks as a mechanic. Mr. Ray's girlfriend is known to be a Cindy Hendy. Deputy Elston said upon entering the mobile home, they did a "walk through" of each room and found no person injured or inside the mobile home.

Deputy Elston and the Park Rangers advised during the welfare check, they observed various devices including, dildos, whips, restraints, and chains with restraints hanging from the ceiling in one room. They said in another room containing a bed, they observed what was believed to be stains of dried blood on the bed sheets. There was some contention by the officers that a struggle had ensued on the bed, by the pieces of a broken lamp found on and around the bed. This bed in question also contained restraints on the headboard.

Deputy Elston said a State Park Ranger advised him that David Ray and Cindy Hendy were located together in a camper vehicle being driven by Mr. Ray. The officers making contact with Mr. Ray and Ms. Hendy advised they observed dried blood on the back of Cindy Hendy's head and on the back of her shirt. This vehicle is identified to be a 1978 Toyota Recreational Vehicle displaying a New Mexico license plate of 1807-RVP.

AFFIDAVIT FOR SEARCH WARRANT

PAGE: #3

Affiant requests that a search warrant on the 1978 Toyota Royal with identification RH28140120, displaying a New Mexico license plate of 1807-RVP, and under the registration name of Tina Severns with an address of box 503 Truth or Consequences, New Mexico. This warrant would assist in the identification and collection of trace, serology, fingerprints and restraining devices. Cynthia Vigil did state she had been disrobed by David Ray and Cindy Hendy, while inside the camper.

Affiant believes that certain evidence, such as personal restraints, could be concealed in a Dodge Ram utility vehicle located on the property. Affiant believes that a search warrant should be issued for the above-described residence, any and all curtilage thereof and for the above described vehicle, located at 513 Bass Road Elephant Butte, New Mexico. This mobile home is white in color, has a chain link fence gate, and contained within the property is a white, Dodge pickup bearing New Mexico license plates of 705-GLN.

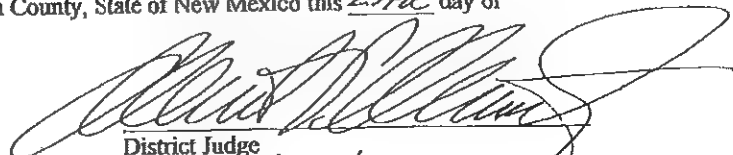

This search warrant should include the search of any other vehicles, vessels, trailers, storage sheds and any other residential or non-residential buildings located at 513 Bass Road. This search warrant is to locate and seize any sexually explicit objects, items, sexual explicit documents, whips, chains, restraints, photographs, video and audio recordings, victims clothing, and revolver found in or around this residence for the prosecution of David Ray and Cindy Hendy, which was supplied by the corroborating parts of Cynthia Vigil statement.

Affiant believes that Cynthia Vigil is a reliable person, because she has detailed information about details to her kidnapping and detention in this vehicle driven by David Ray and the passenger Cindy Hendy. Affiant feel there is sufficient probable cause to warrant a search of the 1978 Toyota Royal RV, for hair, fiber, cloths, electrical device, sexually explicit photographs or other pornographic photographs, a handgun, shackles or handcuffs, a small badge, any explicit sexual devices and or hand and feet restraints.

RETURN AND INVENTORY

I received the attached Search Warrant on 3-31, 19 99,
and executed it on 3-31, 19 99, at 2:30 o'clock (a.m.) (p.m.).

I searched the person or premises described in the Warrant and I left a copy of a Warrant with _____

VEHICLE

(name the person searched or owner at the place of the search)

together with a copy of the inventory for the items seized.

The following is an inventory of property taken pursuant to the Warrant: (Attach separate inventory if necessary.)

SEE ATTACHED PAGES

This inventory was made in the presence of AGENT ART ORTIZ
(name of applicant for the search warrant)

and AGENT JOE SCHIEL
(name of owner of premises or property. If not available, name of other credible

person witnessing the inventory.)

This inventory is a true and detailed account of all the property taken pursuant to the Warrant.

NEW MEXICO SUPPLEMENTAL REPORT	ORI NO. NMNSP2115	INCIDENT NO. 99-4587	PAGE 2	OF 5
--------------------------------	----------------------	-------------------------	-----------	---------

NARRATIVE

This supplemental report is a continuation to supplemental report #17 and continues with the investigation of the abduction and sexual torture of Cynthia Vigil by David Ray and Cindy Hendy.

On April 20, 1999, FBI Supervisory Special Agents Mary Ellen O'Toole, Thomas Neer and Mark Safarik briefed me, via telephone conference. These Agents are assigned to the FBI's National Center for the Analysis of Violent Crime (NCAVC) and assist in the identification of behavioral aspects of criminal behavior. Agent O'Toole was assigned specifically to the investigation of David Ray and provided on site support in T or C, New Mexico. She was assisted by Agent Sneer also in T or C.

Together these agents analyzed items seized per search warrants from David Ray's residence to establish and identify the criminal aspect of Mr. Ray's deviant sexual behavior. Items reviewed included photographs of sexual devices, the white utility trailer (toybox), drawings, writings, interviews, audiotapes and investigative briefings. Agents O'Toole and Sneer were also afforded the opportunity to visually inspect the toybox.

During the telephone conference, Agent O'Toole stated David Ray exhibits the characteristics of being a "true sexual sadist." Behavior elements considered were:

- Long-term persistent pattern of behavior
- Specific sexual interests
- Well-developed techniques
- Fantasy-driven behavior

A descriptive term developed by the NCAVC refers to David Ray as a preferential sex offender or paraphiliac. As defined by the NCAVC; Paraphiliacs are characterized by recurrent, intense sexual urges, fantasies, or behaviors that involve unusual objects, activities, or situations and cause clinically significant distress or impairment in social, occupational, or other important areas of functioning.

Sexual Sadism involves acts (real, not simulated) in which the individual derives sexual excitement from the psychological or physical suffering (including humiliation) of the victim.

Agent O'Toole stated paraphiliacs are repetitive and predictable in their behavior. They are organized and continue to improve their methods of operation over time. Because of their continued need to be sexually aroused or gratified, the risk of being apprehended is increased. This kind of behavior also characterizes the need for the offender to collect keepsakes or objects from his victims.

This also includes body parts, jewelry, clothing articles, photographs, video and audiotapes. Paraphiliacs will keep objects from victims hidden in hiding places in close proximity to allow them access at anytime they want to relive their fantasy. She related examples from past cases. Agent O'Toole summed up the briefing indicating she would fax a list of possible hiding places to include in a Search Warrant.

On April 21, 1999, I received documents, via fax, from FBI Agent Mary Ellen O'Toole. These documents were provided by the NCAVC Agents who analyzed this case. They included definitive terms and a list of possible hiding places. Copies of the documents were provided to ADA Jim Yontz and are attached to this report. (REFER TO ATTACHMENT 1)

On April 27, 1999 I filed a Search Warrant at the District Courthouse in T or C. The warrant was for a detailed search of the premises belonging to David Ray, including the boats, vehicles and the excavation of his property. In essence, for evidentiary items that could possibly identifying more victims.

On April 28, 1999, Agent Frank Jacoby executed the Search Warrant along with the assistance from one of the FBI's Emergency Response Team. A Ground Penetrating Radar (GPR) was used in the search of the grounds. Details of the search are documented in supplemental reports attached to this investigative report file. A copy of the Search Warrant and related documents are attached to this report. (REFER TO ATTACHMENT 2).

NEW MEXICO SUPPLEMENTAL REPORT	ORI NO. NMNSP2115	INCIDENT NO. 99-4587	PAGE 3	OF 5
--------------------------------	----------------------	-------------------------	-----------	---------

On May 4, 1999, personnel from the FBI's Laboratory began the process of identifying evidence from the white utility trailer (toybox). FBI Agents Larry Houpt and I were present for the processing, which took place in a storage facility at the National Guard Armory in Santa Fe, New Mexico. FBI Agent Margaret Russin oversaw the processing and completed a report. A copy of her report is attached to this report. (REFER TO ATTACHMENT 3)

The processing of the toybox entailed the identification and collection of items that possibly contained DNA from the subjects of this case. This also included the diagramming, photographing and latent print processing of items from the toybox. Items selected for DNA analysis were packaged and Agent Houpt took custody of them for shipment to the laboratory in Quantico, Virginia. Copies of photographs depicting the toybox during the processing are attached to this report. (REFER TO ATTACHMENT 4)

On July 13, 1999, FBI Agent Larry Houpt and I reviewed documents seized from David Ray's residence. The review was conducted at the FBI Regional Headquarters in Albuquerque, New Mexico. I observed typewritten and handwritten notes, poems and instructions related to the sexual torture of women. Sex related periodicals, to include pornography, bondage, sadomasochism (S&M), pornographic video catalogs and photographs from periodicals were also observed.

Typewritten and handwritten notes were analyzed, which were formatted and scripted the same as heard on David Ray's advisory tapes. Numerous drawings of women being subjected to sexual torture were observed. I photocopied a series of drawings apparently depicting the abduction of a girl from a school bus stop. She is bound, gagged and taken by a motor vehicle to a dwelling where she is then subjected to sexual torture. (REFER TO ATTACHMENT 5)

Another set of drawings depicts a woman being assaulted and then abducted. She is placed in the trunk of a vehicle. The drawings then show her being subjected to sexual torture by being restrained in contraptions and subjected to sexual devices. Copies of the drawings are attached to this report. (REFER TO ATTACHMENT 6)

Copies of a series of drawings and typewritten script are also attached to this report depicting the sexual torture of a woman. The drawings gradually show a woman first with her clothing on but restrained. It continues with her being restrained with her legs and arms spread apart and then being subjected to a variety of dildos, a shocking device and awkward body positions. (REFER TO ATTACHMENT 7)

Rough draft drawings of rooms fitted with sexual devices were found among the documents. It appeared David Ray designed tables and chairs for the purpose of restraining women in submissive positions and subjection of sexual torture. He went to the extent of identifying his devices by model-types and elicit advisory warnings of their uses. Copies of the drawings and typewritten instructions are attached to this report. (REFER TO ATTACHMENT 8)

A typewritten poem titled, "The Slave" depicts the sexual torture of a woman, which is referred to at the end of the poem as a slave. A handwritten note showing the word, rohypnol, and notes on dose amounts were located. Rohypnol is a controlled drug commonly used as a date-rape drug. Drawings located with the notes depict a woman who apparently passed out after consuming a liquid while sitting at a table.

A typewritten document titled, "M-CITY CLUB- Female Slave Survey and Registration Form" was found among the documents. It appeared to be a formatted informational document requiring data such as: date of acquisition, menstrual cycle, pubic hair, breast size, vagina size, pain tolerance scale, devices used and methods used. Copies of these documents are attached to this report. (REFER TO ATTACHMENT 9)

I photocopied a typewritten scripted telephone conversation that entailed the abduction and sexual torture of a twelve-year-old girl. (REFER TO ATTACHMENT 10) The script depicts the conversing subjects as to their enjoyment of subjecting girls to anal intercourse and dildos. Female anatomical pictures from magazines were found among the drawings and writings. The pictures specifically depict the anatomy of females' internal organs and sex organs. Copies of these pictures are attached to this report. (REFER TO ATTACHMENT 11)

NEW MEXICO SUPPLEMENTAL REPORT	ORI NO. NMNSP2115	INCIDENT NO. 99-4587	PAGE 4	OF 5
--------------------------------	----------------------	-------------------------	-----------	---------

Typewritten story scripts were found, which also detailed the abduction and sexual torture of women. The scripts were written in first and second person. These writings also had the same type of explicit details as found in the periodicals owned by Mr. Ray. Copies of these scripts are attached to this report. (REFER TO ATTACHMENT 12)

A Polaroid photograph was observed which depicted a table that had been modified for the use of subjecting women to sexual torture. The photograph shows the table as having restraints connected to it and a mechanical device with a dildo attached to it. A copy of the photograph is attached to this report. (REFER TO ATTACHMENT 13)

Numerous amounts of drawings depicting women being subjected to sexual torture were analyzed. The drawings emphasized women being subjected to awkward, restrained positions, contraptions and sexual devices such as a spiked dildo mounted on a stand. A few such drawings were photocopied and attached to this report. (REFER TO ATTACHMENT 14)

On September 27, 1999, FBI Agent Houpt provided a copy of his report that entailed the items selected for analysis at the FBI Laboratory. The report showed the request for specific analysis to be conducted on key pieces of evidence. A copy of his report is made a part of and attached to this report. (REFER TO ATTACHMENT 15)

On December 1, 1999, I obtained copies of the Order Allowing Taking of Elimination Standards and Taking of Major Case Prints from the District Courthouse in T or C. The Orders were for both David Ray and Glenda Ray. ADA Jim Yontz had filed the Orders on November 8, 1999. Copies of the Orders are attached to this report. (REFER TO ATTACHMENTS 16&17)

On December 7, 1999, FBI Agent Houpt and I transported Glenda Ray from the Dona Ana County Detention Facility to the Memorial Hospital Prompt Care Clinic. At approximately 1:30 p.m., Sexual Assault Nurse Examiners Bette Waters and Deonn Arnold completed a Suspected Sex Offender Evidence Collection Kit on Glenda Ray. A Property Control Receipt was completed relinquishing the kit to Agent Houpt for forwarding to the FBI Laboratory. A copy of the kit checklist is attached to this report. (REFER TO ATTACHMENT 18)

On the same date, at approximately 2:00 p.m., Agent Houpt obtained major case prints from Glenda Ray at the State Police Office. Agent Houpt maintained possession of the prints to be forwarded to the FBI Laboratory. Copies of the major case prints from Glenda Ray are attached to this report. (REFER TO ATTACHMENT 19) After obtaining the major case prints, Glenda Ray was transported back to the detention facility.

On December 12, 1999, Agent Houpt and I transported David Ray to the Sierra Vista Hospital. Detention Officer Greg Bentley was assigned to maintain security of David Ray and was transported with us. At approximately 11:00 a.m., Registered Nurses Michelle Elston and Vickie Colbert conducted the collection of elimination standards utilizing a Suspected Sex Offenders Evidence Collection Kit.

Attorney Jeff Rein was present in the examination room during the collection and ADA Jim Yontz was also present but stood by on the hospital grounds. A Property Control Receipt was completed giving Agent Houpt custody of the kit for forwarding to the FBI Laboratory. A copy of the collection checklist is attached to this report. (REFER TO ATTACHMENT 20)

At approximately 12:05 p.m., Agent Houpt obtained major case prints from David Ray at the State Police Office in T or C. Attorney Jeff Rein and ADA Jim Yontz were also present for this collection. Agent Houpt maintained custody of the prints for submission to the FBI Laboratory. Copies of the major case prints are attached to this report. (REFER TO ATTACHMENT 21) Following the collection of the prints, David Ray was then transported back to the Sierra County Detention Facility.

On December 8, 1999, Agent Houpt and I reviewed FBI reports completed by Agents documenting their involvement in the investigation of David Ray. On December 9, 1999, Agent Houpt provided copies of the reports. These reports entailed the follow-up of leads and interviews in reference to the investigation of David Ray. Copies of the reports have been made a part of and attached to this report. (REFER TO ATTACHMENT 22)

NEW MEXICO SUPPLEMENTAL REPORT		ORI NO. NMNSP1100	INCIDENT NO. 99-4587	PAGE 5	OF 5
--------------------------------	--	----------------------	-------------------------	-----------	---------

A copy of this supplemental report will be provided to ADA Jim Yontz. Supplemental reports will continued to be submitted documenting any developments in this criminal investigation.

COPIES OF FBI NCAVC DOCUMENTS

Recommended format and wording to use in search warrant:

I have personally spoken over the telephone with Supervisory Special Agents (SSA) Mary Ellen O'Toole, Thomas M. Neer and Mark Safarik of the Federal Bureau of Investigation, who have been assigned to the FBI's National Center for the Analysis of Violent Crime (NCAVC) since April, 1995. Each of these agents has over 22 years of law enforcement experience. SSA O'Toole has been an FBI agent for 18 years, and SSA Neer and SSA Safarik have each been FBI agents for over 15 years. The majority of their careers have been devoted to the investigation and analysis of violent crime and criminals.

The NCAVC is a law enforcement-oriented behavioral science and resource center which offers on-site investigative support, research and training to law enforcement agencies throughout the world who are confronted with unusual, bizarre or violent criminal behavior. Among the hundreds of cases analyzed annually are ones involving murder, including serial and mass murder, child murders, serial rape and sexual offenses, child molestation and abuse, arson and bombings, stalking, workplace violence, extortion, kidnaping, and product tampering. Analyses prepared by NCAVC members are based on investigative experience, research, personal knowledge, educational background and a wealth of information from the analysis of thousands of cases by the NCAVC since 1978.

SSA's O'Toole, Neer and Safarik have investigated and been consultants in the assessment and analysis of murder, sexual offenses and other crimes throughout the world and have lectured extensively to both national and international law enforcement audiences on the behavioral aspects of criminal behavior. In connection with this case, they have also consulted with another member of the NCAVC, SSA Kenneth V. Lanning, who has devoted 25 of his 29 years with the FBI studying criminal aspects of deviant sexual behavior.

Information developed in this investigation has been provided to SSA's O'Toole, Neer and Safarik. This information has included a crime scene video, audio tapes, witness and victim interviews, an interview of David Ray Parker, and photographs, drawings and various documents discovered in subject David Ray Parker's trailer. In addition, SSA's O'Toole and Neer have personally visited and examined the contents of this trailer and adjoining property of David Ray Parker, and they have maintained regular contact with the investigative agents and state troopers. Based on the above information, their own experience, knowledge and training, and a review of cases of a similar nature, SSA's O'Toole, Neer and Safarik advised that a review of David Ray Parker's activities including the extensive collection of materials maintained by him, suggests that he exhibits

characteristics of a preferential sex offender, and more specifically a sexual sadist.**

The term preferential sex offender is one developed by the NCAVC as a descriptive term in reference to individuals who can usually be identified by the following behaviors:

1. Long-Term and Persistent Pattern of Behavior
 - A) Begins pattern in early adolescence
 - B) Is willing to commit time, money and energy
 - C) Commits multiple offenses
 - D) makes ritual or need-driven mistakes
2. Specific Sexual Interests
 - A) Manifests paraphiliac* preferences (may be multiple)
 - B) Focuses on defined sexual interests and victim characteristics
 - C) Centers life around preferences
 - D) Rationalizes sexual interests
3. Well-developed Techniques
 - A) Evaluates experience
 - B) Lies and manipulates, often skillfully
 - C) Has method of access to victims
 - D) Is quick to use modern technology (eg.computer, video) for sexual needs and purposes
4. Fantasy-Driven Behavior
 - A) Collects pornography
 - B) Collects paraphernalia, souvenirs, video tapes
 - C) Records fantasies
 - D) Acts to turn fantasy into reality

*Paraphilias are characterized by recurrent, intense sexual urges, fantasies, or behaviors that involve unusual objects, activities, or situations and cause clinically significant distress or impairment in social, occupational, or other important areas of functioning.

** Sexual sadism involves acts (real, not simulated) in which the individual derives sexual excitement from the psychological or physical suffering (including humiliation) of the victim. Some individuals with this Paraphilia are bothered by their sadistic fantasies, which may be invoked during sexual activity but not otherwise acted on; in such cases the sadistic fantasies usually involve having complete control over the victim, who is terrified by anticipation of the impending sadistic act. Others act on the sadistic sexual urges with a consenting partner (who may have

Sexual Masochism) who willingly suffers pain or humiliation. Still others with Sexual Sadism act on their sadistic sexual urges with nonconsenting victims. In all of these cases, it is the suffering of the victim that is sexually arousing. Sadistic fantasies or acts may involve activities that indicate the dominance of the person over the victim (e.g., forcing the victim to crawl or keeping the victim in a cage). They may also involve restraint, blindfolding, paddling, spanking, whipping, pinching, beating, burning, electrical shocks, rape, cutting, stabbing, strangulation, torture, mutilation, or killing. Sadistic sexual fantasies are likely to have been present in childhood. The age at onset of sadistic activities is variable, but is commonly by early adulthood. Sexual Sadism is usually chronic. When Sexual Sadism is practiced with nonconsenting partners, the activity is likely to be repeated until the person with Sexual Sadism is apprehended. Some individuals with Sexual Sadism may engage in sadistic acts for many years without a need to increase the potential for inflicting serious physical damage. Usually, however, the severity of the sadistic acts increases over time. When Sexual Sadism is severe, and especially when it is associated with Antisocial Personality Disorder, individuals with Sexual Sadism may seriously injure or kill their victims.

On an investigative level, the presence of paraphilias often means highly repetitive and predictable behavior focused on specific interests that goes well beyond a "Method of Operation" (MO). The concept of MO - something done by an offender because it works and it will help him get away with the crime is well-known to most investigators. An MO is fueled by thought and deliberation. Most offenders change and improve their MO over time and with experience.

The repetitive patterns of behavior of preferential sex offenders involve some MO, but are more likely to also involve the less-known concept of sexual ritual. Sexual ritual is the repeated engaging in an act or series of acts in a certain manner because of sexual need; that is, in order to become aroused and/or gratified, a person must engage in an act in a certain way. Unlike MO, ritual is necessary to the offender but not to the successful commission of the crime. In fact, instead of facilitating the crime, it often increases the risk of identification, apprehension, and conviction because it causes the offender to make need-driven mistakes. Understanding sexual ritual (i.e., need-driven behavior) is the key to investigating preferential sex offenders.

Individuals who engage in need-driven behavior will collect and save materials related to their fantasies and activities in locations over which they have access and control. They will also preserve materials which could directly implicate them in specific criminal activities. However, these materials are likely to be carefully hidden. The longer an offender has had

access to a particular location, the more likely he has found or created places within that environment in which to secrete the more incriminating materials and evidence. These materials can include, but are not limited to, journals, videos, photographs, audio recordings, ligatures, weapons, electrical equipment, restraint equipment and/or human bodies or body parts.

In cases analyzed by the NCAVC, sexual sadists have concealed these aforementioned materials in locations such as within walls and false ceilings, under floor boards, behind light fixtures and other locations to include burials in locations which are under the control of the offender. These locations are not normally included within the scope of traditional search warrants.

4/21/99

To: Wes LaQuesta and Jim Yontz

From:  Supervisory Special Agent Thomas M. Neer (FBI)

Subject: Search Warrant considerations regarding the property of
David Ray Parker

In our experience, it may be better if your affidavit for a search warrant is based primarily on case-specific materials, ie, witness and victim information (Parker's own statement back in 1985) and on items observed and/or seized pursuant to the first warrant including equipment, photos, drawings, writings, videos, audio recordings, etc.

However, if you do not believe this will be enough to obtain the warrant, perhaps your affidavit could be bolstered by the attached information. Even if you choose not to use this information for obtaining your search warrant, you may find it useful for further investigation and eventual prosecution. We hope to be returning to Elephant Butte soon.

In any event, after you have read this material, please beep me at 1-(800)306-1345 so we can discuss it further. Thanks.

HIDING PLACES

The following is a list of hiding places in the home, in automobiles and on a person for gambling, drug and other contraband evidence. This list was compiled from various sources and is intended as an aid to investigations and searches.

Homes

Living areas

Behind walls
Behind baseboards & molding
Built inside room dividers
Behind electrical wall outlets and switches
Wall & ceiling light fixtures

Inside hollow doors (removable top)
Inside transom over doorway
Door knobs

Behind picture frames
Behind mirrors
Behind posters
Hem of drapes and curtains
Hung behind curtains
Inside hollow curtain rods
Rolled up in window shades

Behind acoustical ceiling tile
Above false ceiling
Under carpets
Under throw rugs

Electric baseboard heaters
Removable air conditioning and heat registers
False bottom on radiator covers
Inside heating and air conditioning ducts
Spring-loaded shelving inside vertical ventilation ducts

Inside chimneys
Chimney clean out

Furniture Articles

Furniture upholstery
Hidden drawers in tables
Under or inside the cushion of a hassock

Base of lamp

Miniature chess board

Inside transistor radio
Inside TV & radio sets
Inside TV tube
Inside color TV antenna
Base of rabbit ear antenna

Inside telephone base and handle
Under number plate of phone
Pay telephone coin return

Clock
Flower pots and window box

Holy Bible (hollow cover)
Magazines and books
Inside door chimes & door bell
Inside stairway posts

Inside & behind vacuum cleaner bags
Inside handle of vacuum cleaners

Ironing board cover
Ironing board legs
Clothes pin bag
Inside string mop

Flashlights - rolled round batteries
Hollowed out flashlight batteries

Shoe polish container & equipment

Musical instruments & cases
Art kits

Typewriters & covers
Inside letters
Hollowed out pad of paper
35 mm film cans

Mixed with tobacco
Sealed cigarette package

Dog collars
Pet box
Bottom of dog food bag
In bird cage
Inside rabbit hutch

Attic and Basement areas

Attic insulation

Furnace . .
Fuel of oil heaters

Conduit from fuse box

Inside abandoned plumbing

In tool box

Seams of field cots & hollow cap of cot legs
Inside hollow legs of outdoor aluminum furniture

Inside tube & barrel of air rifle
Inside patch trap of antique rifle

Inside Christmas decorations
In surfboards

Bedroom areas

Mattresses
Hidden box in mattress frame
Bed posts
Pillow cases
False bottom baby carriage & cribs

False floors of closets
Inside closet hanging rods
Closet clothing - waistbands, pens, sleeves, hatbands, shoe, gloves

Taped to hat boxes
Inside & under wigs
Foot lockers
Hollow cane
Dolls
Jewelry box

Bathroom

Under tub
Behind leg of bath tub
Shower nozzle head
Inside shower curtain rod
Behind plumbing inspection doors

Under washbowl, sink
Rolled inside cardboard tube of toilet paper or behind the paper sheets
Inside toilet tank
Inside hollow handle of toilet bowl brush

Clothes hamper

Behind & inside medicine cabinets
Razor blade slot disposal
Razor blade dispenser
Shaving brush handle
In tooth paste tubes
In electric tooth brush holders
Hair dryer
Talcum & cold cream containers
In prescription bottles
Bromo Seltzer
Within sanitary napkins & in bow
Douche bags

Kitchen

Range hoods & filters
Stove pipes
Under burning element on stove top
Bottom half of double broiler
In stove insulation & stove exhausts & drip pans

Behind kick plates of kitchen cabinets

Underneath sink
Sink traps
Inside garbage disposal
Under lip ring of plastic trash cans
Garbage bags

Behind wall phones

Rolled inside the cardboard tube of paper towels or rolled between the paper sheets

Toaster crumb tray
Inside knife handles
Inside plastic rolling pin
Inside deep well fryers

All kitchen canisters & containers
Pots, pans & bowls with false bottoms while containing food
Inside fake beer or soda cans
Fruit containers in refrigerator

Baked bread, cookies, brownies & candy bars
In eggs
Tea bags

Refrigerator underneath fruits, vegetables, meat, taped under door, motor compartment, ice tray

Outside

Mail box
Under corner mail box

Tree
Hollowed out tree

Under fence post tops

Rain gutters & drain spouts

Under tile steps of backyard
In clothesline pipe
Dog houses
Hanging out window

Rice paper
Flash paper

AutomobilesDashboard area

In and over sun visors
Ornamented objects on dashboard
Instrument panel
Inside dash knobs
Cigarette lighters
Ashtrays - in and under
Fuse box

False radio
Radio speaker grill
Glove compartments - top of compartment or trap

Heater
Vents (air & heater)

Interior

Under brake & gas pedals
Shift knobs
Inside console between bucket seats

Upholstery
Inside seats
Under seats
Back seat

Under rugs
Floorboard

Dome lights

Inside light sockets

Inside or behind arm rests
Taped to rolled down window

Compartment under floor of older Volkswagen cars
Behind Volkswagen battery box

Trunk area

Trunk
Inside truck lids
False bottom of trunk beds

Spare tire - treads & well
Service station travel kits
Picnic jug in trunk
Inside flashlight

Engine area

Insulation under hood
Air filter
Carburetor
Hollow batteries
Hollow voltage regulator
False heater hoses-heater
Inside oil cap
Windshield washer bag
Inside horn

Exterior

Taped behind bumper
Behind license plate
Under chrome
Inside & behind headlights & taillights

Antenna base

Hub caps
Under tire air valve caps

Inside tubing on roof rack
Inside auto surfboard rack

Convertible tops

Underside

Rocker panels
Underside of fender
Attached to frame
Tied to axle

False dual muffler
Tail pipe
On top of gas tank (suspended or concealed in compartment)
Magnetic key case (Hide-A-Key)

Miscellaneous

Taxicab roof light

Motorcycle taillights
Inside motorcycle handle bar tubing

On Person

Head

Processed hair, hair buns & wigs
Ears
Battery box of hearing aid
Taped behind ears
Hearing aid glasses
Inside artificial eye
Nose
Mouth
False caps on teeth
Under false teeth
Swallowed with string to teeth

Torso and Limbs

Under bandaids & bandages
False limbs
Casts
Taped under breast
Foreskin of penis
Vagina
Rectum
Cheeks of buttocks
Between toes & taped to feet

Underclothing

Brassiere
Jock straps
Pinned to shorts
In corsets
In male girdle
Money belts
In swimming trunks

Outerclathing

Women's hair barrette
Hat band

Hat band
Lapel of jackets & coats
Behind collar & collar stays
Tied knot of tie
Tie pins, clasps & cuff links
Lining of clothing
False buttons
Military cap insignia, lapel & should patches
Behind campaign ribbon & uniform brass
Under insulation in motorcycle helmet

Belt buckles
Slit belts or zippered belts
Waistbands
Inside fly trap of trousers
Pockets
Handkerchiefs
Pant cuffs
Socks & shoes

Jewelry

Earrings
Inside neck & wrist lockets, bracelets & charms
Inside & back of watch & other jewelry
Inside identification bracelets
Rings

Handbag and Pocket articles

Inside pens
Fountain pens
Cigarette lighter
Cigarette packs
Cigarette filters
Tobacco tins & pouches
In stem of pipe

Eye glasses case
Contact lens case
Lipstick tube
Compact
Inhalers
Pill vials
In addressed envelopes
In gum sticks
35 mm film cans
Wallet
Lining of change purse

Miscellaneous

Inside sanitary napkins or tampons
Inside feces bag

SEARCH WARRANT

THE STATE OF NEW MEXICO TO ANY OFFICER AUTHORIZED TO
EXECUTE THIS WARRANT:

Proof by affiant for search warrant, having been submitted to me, I am satisfied that there is probable cause that the property described in the affidavit is located where alleged in the affidavit and I find grounds exist for the issuance of a search warrant.

YOU ARE HEREBY COMMANDED to search forthwith the person or property described in the affidavit between the hours of 6:00 a.m. and 10:00 p.m., unless I have specifically authorized a nighttime search; for the person or property described in the affidavit, serving this warrant together with a copy of the affidavit, and making the search and if the person or property is found there, to seize the person or property and hold for safekeeping until further order of the Court.

YOU ARE HEREBY DIRECTED to prepare a written inventory of any person or property seized. You are further directed to file the return and written inventory with the court promptly after the execution.

Date

RETURN AND INVENTOR

I received the attached Search Warrant on April 28, 1999, and executed it on April 28, 1999, at 10:00 o'clock (a.m., p.m.)

I searched the person or premises described in the Warrant and I left a copy of the Warrant with SEALED
(Name the person searched or owner at the place of the search)
together with a copy of the inventory for the items seized.

The following is an inventory of property taken pursuant to the Warrant: (Attach separate inventory if necessary)

Endorsed Copy

PREPARED BY ASSISTANTS SA Margaret J. Russo

MODE OF NARRATIVE
PREPARATION

~ 30 foot long white trailer with rear door open. Entered by rear door. Interior
to left of doorway is a counter with a TV. The counter carries no other items and
contains a shelf. Along the wall are photographs, drawings, a blue book and
instructions. The back wall consists of cabinets. The right wall contains a coat rack
and instructions. Behind a mirror cabinet. There is a speaking area table in the
middle of the room towards the rear. The table contains stacks and papers on the
surface. A mirror and stairs. The ceiling appears to have fluorescent lighting.

Statute 21-3424: Criminal restraint.(a) Criminal restraint is knowingly and without legal authority restraining another person so as to interfere substantially with such person's liberty.

(b) This section shall not apply to acts done in the performance of duty by any law enforcement officer of the state of Kansas or any political subdivision thereof.

(c) Any merchant, or a merchant's agent or employee, who has probable cause to believe that a person has actual possession of and has wrongfully taken, or is about to wrongfully take merchandise from a mercantile establishment, may detain such person on the premises or in the immediate vicinity thereof, in a reasonable manner and for a reasonable period of time for the purpose of investigating the circumstances of such possession. Such reasonable detention shall not constitute an arrest nor criminal restraint.

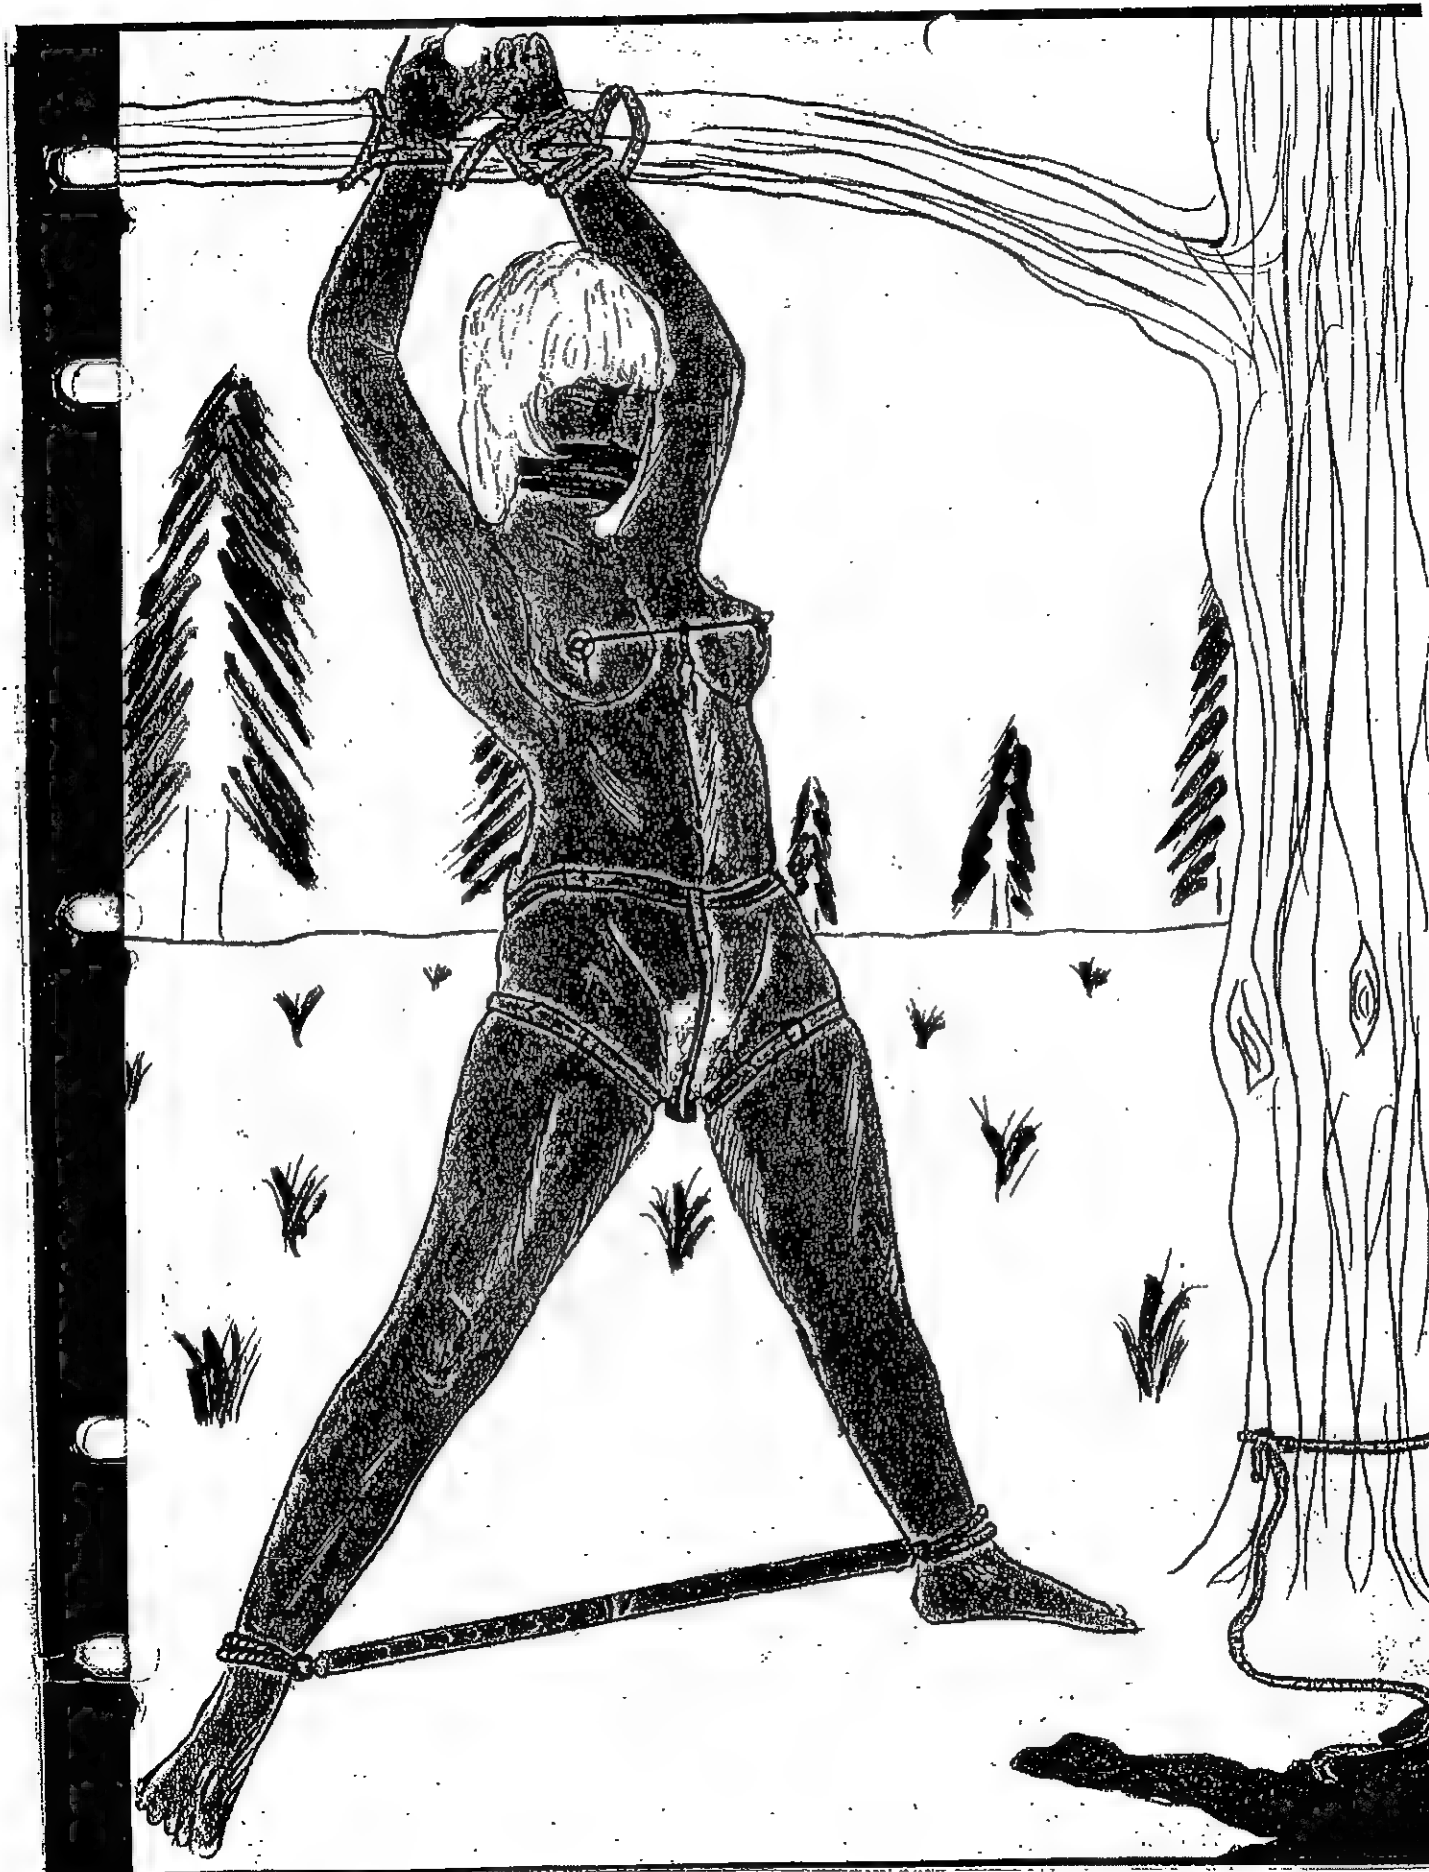

Criminal restraint is a class A person misdemeanor.

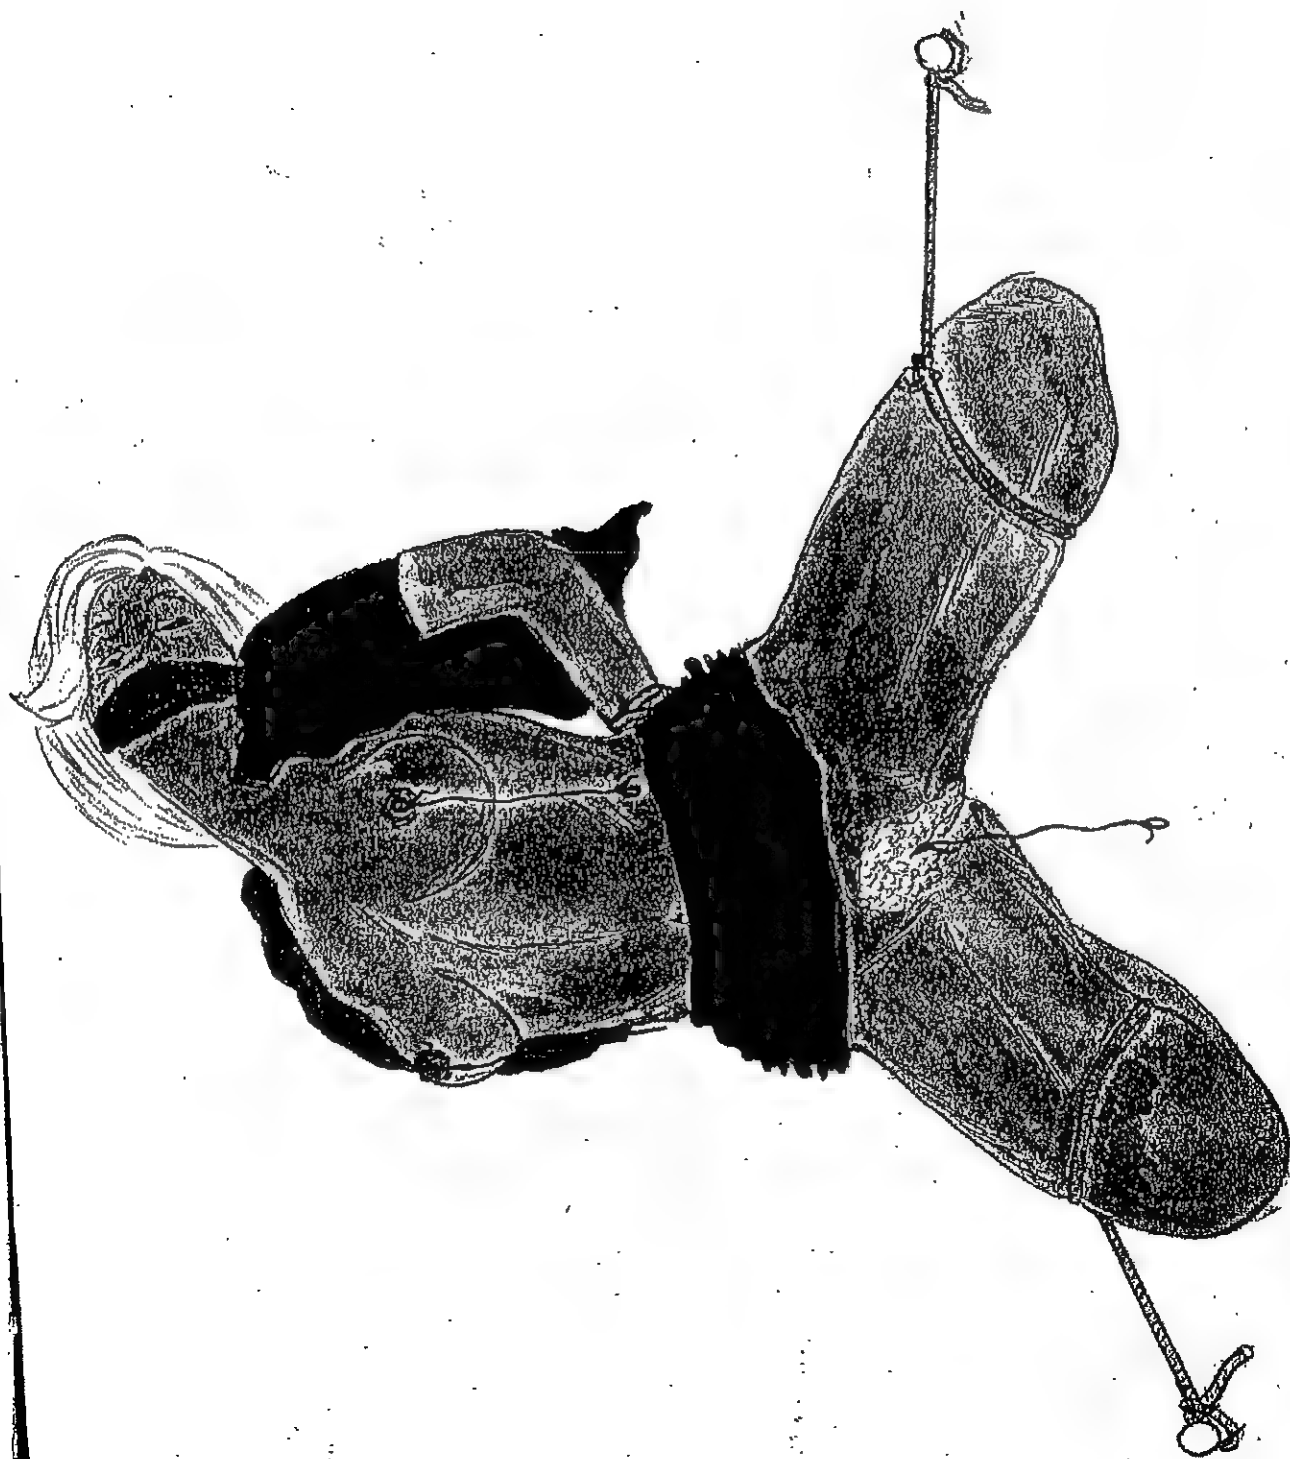

is in vac
-aa. Lips c

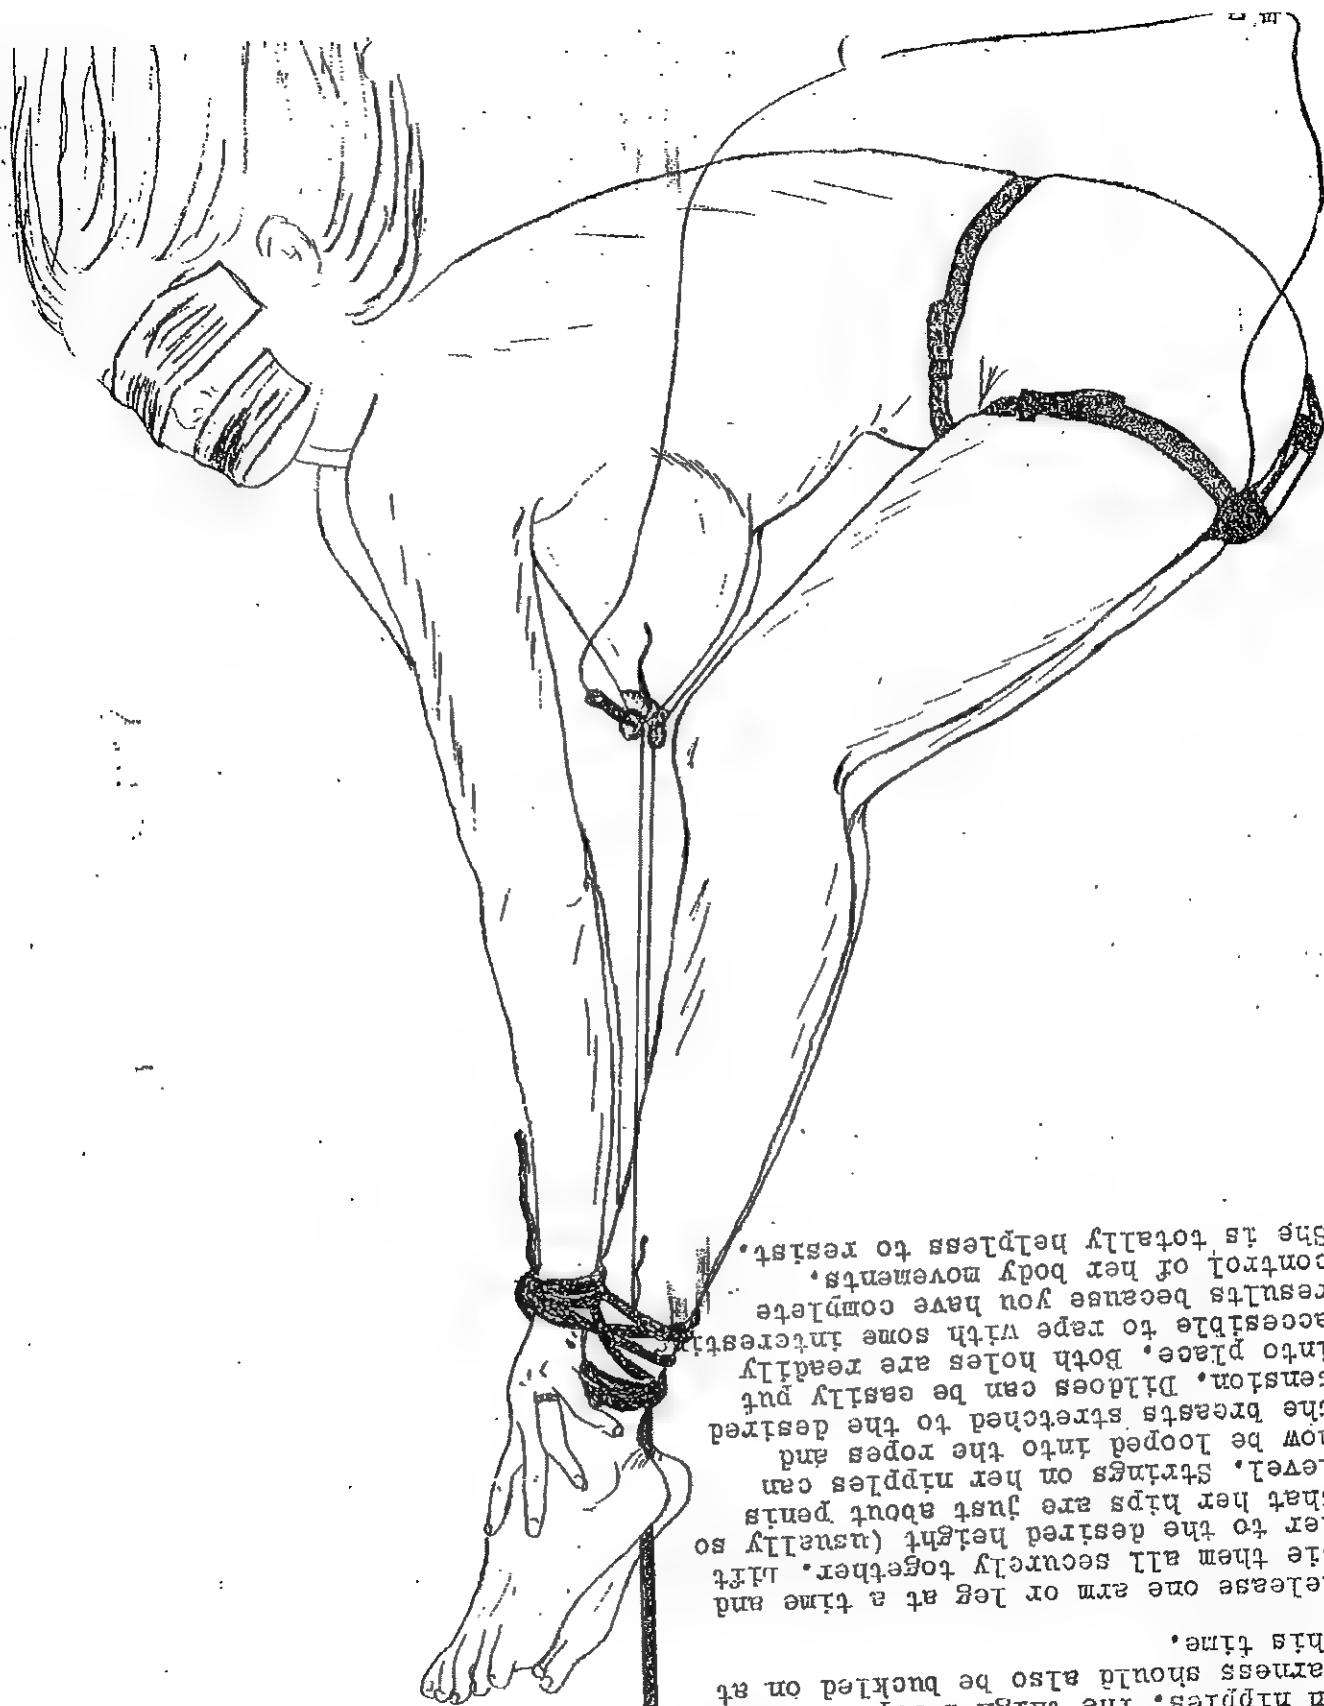

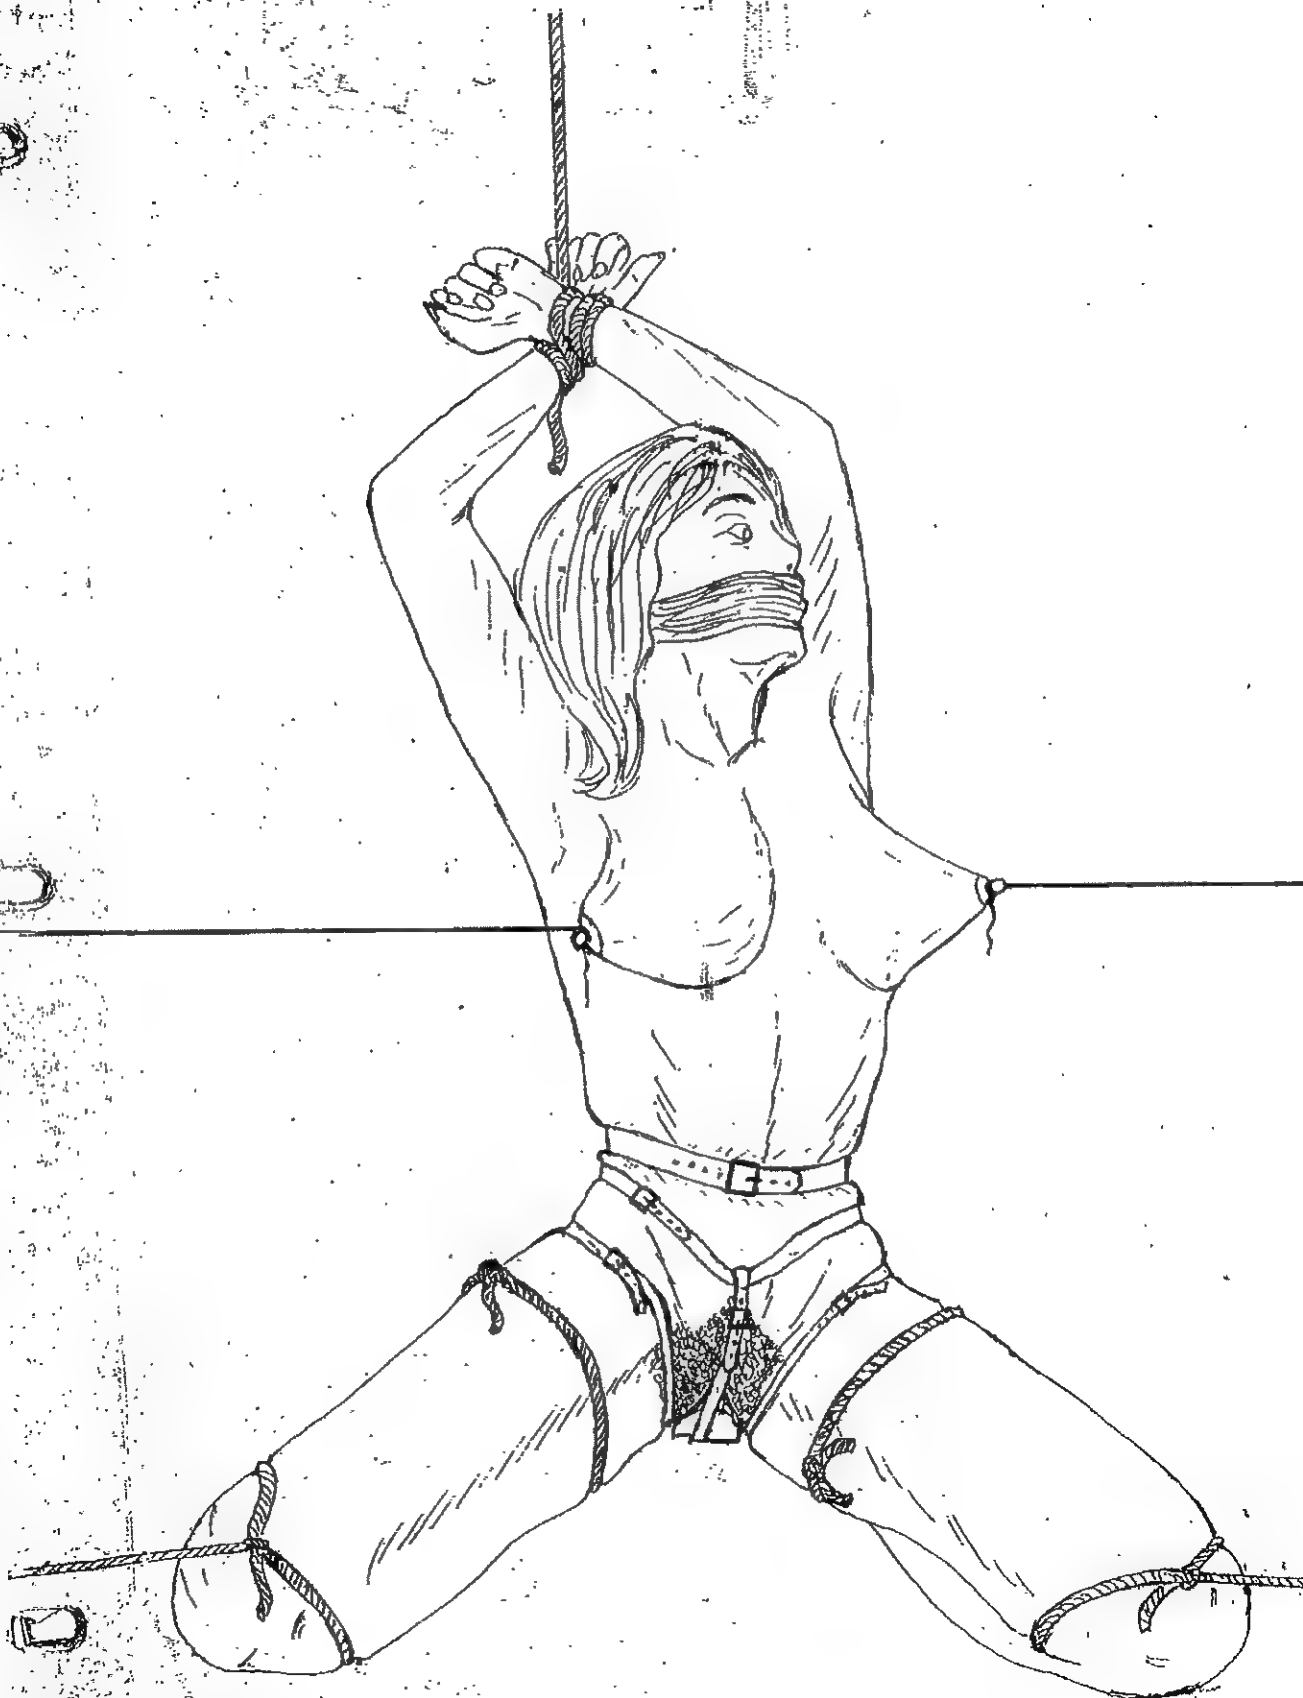

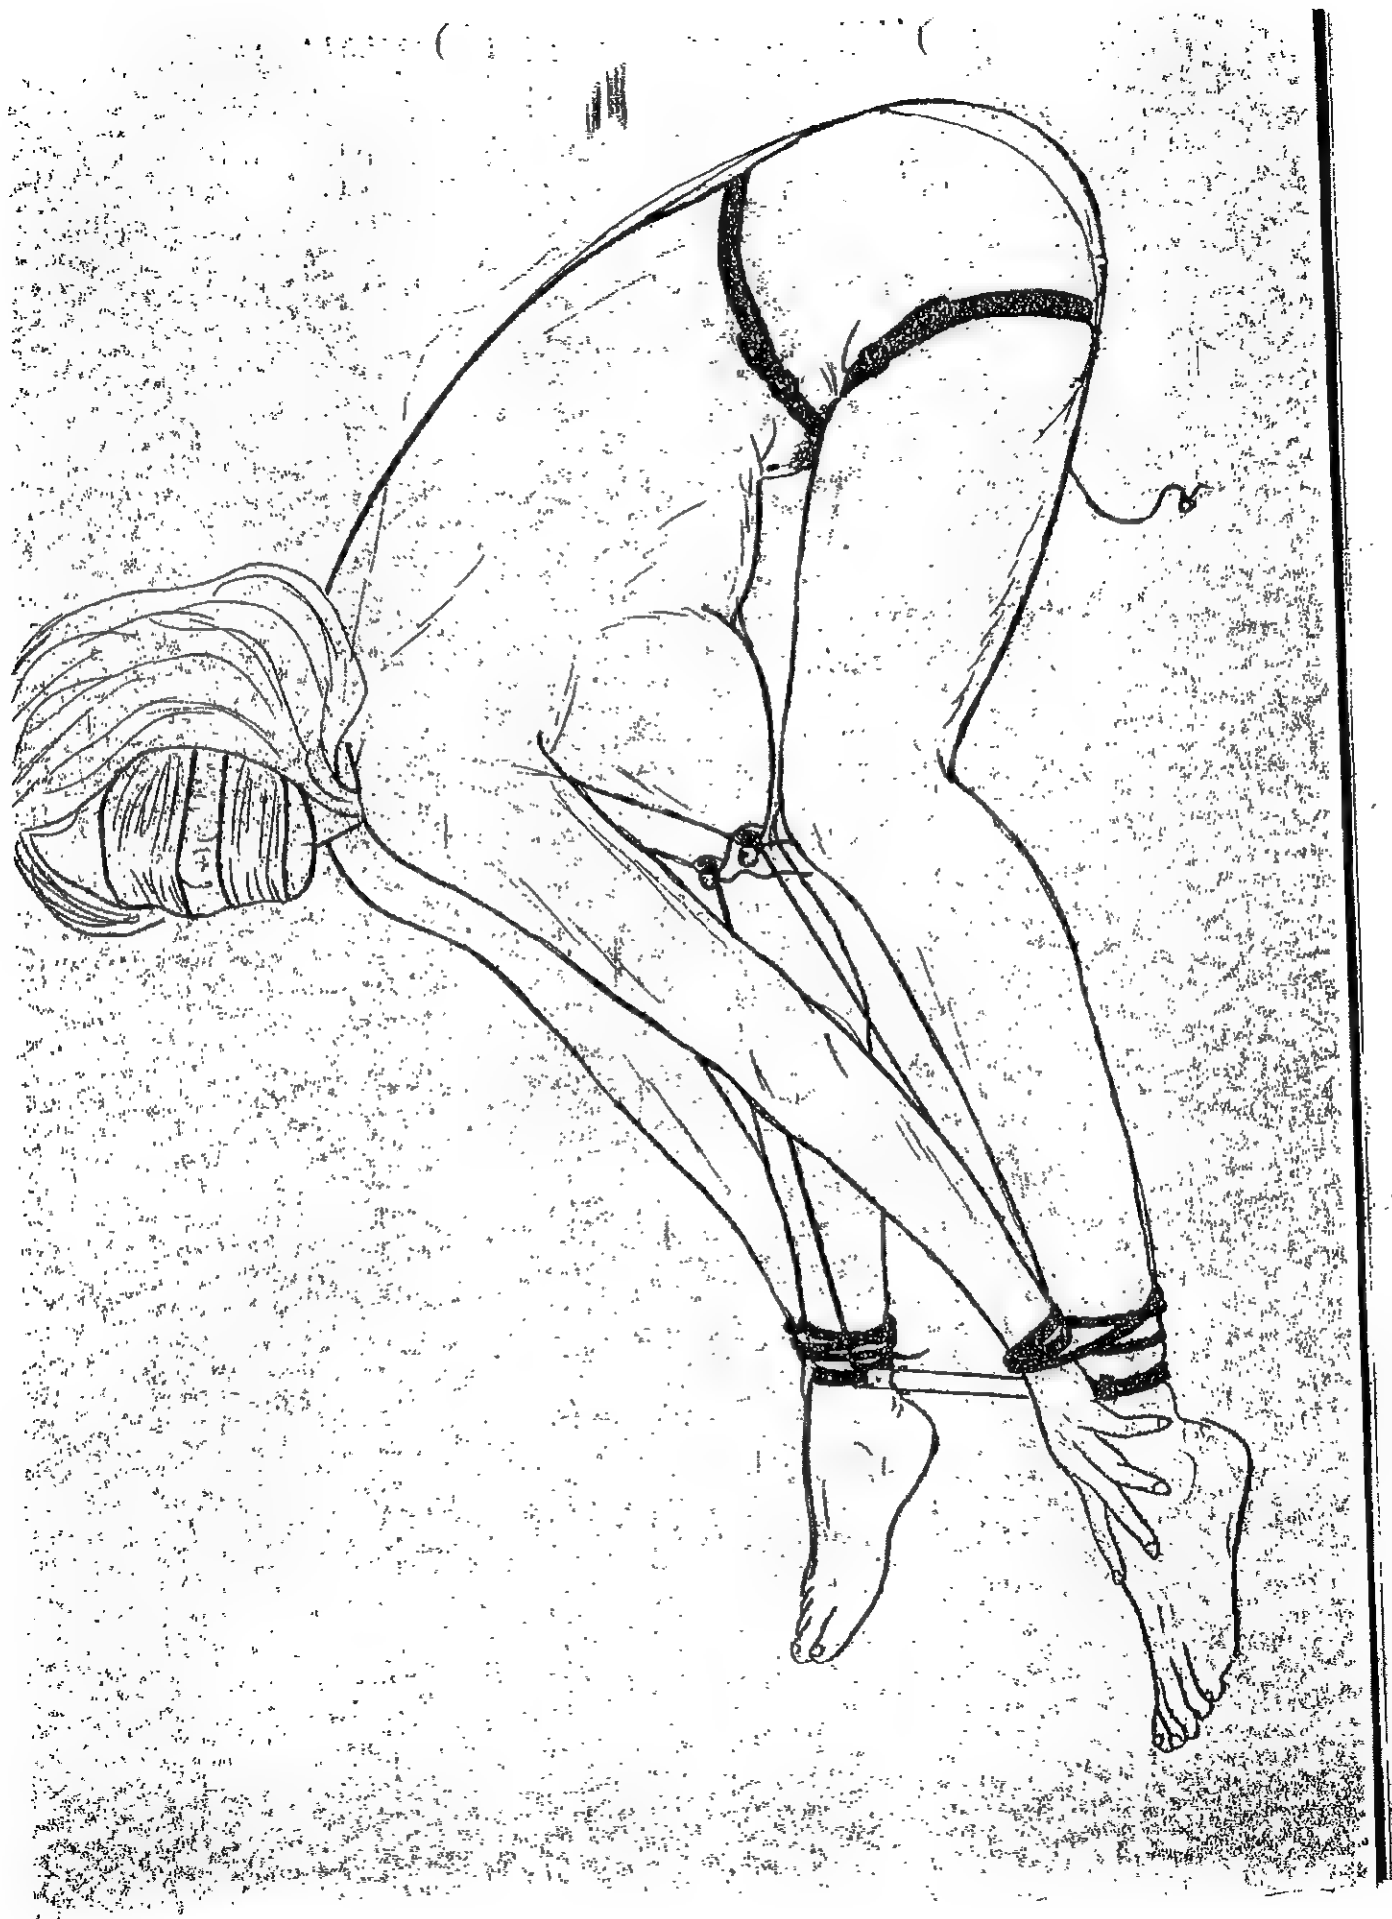

Before suspending, the woman eyespread on bed or table and place nylon strings on nipples. The thigh straps and dildo harness should also be buckled on at this time.

Release one arm or leg at a time and tie them all securely together. Lift her to the desired height (usually so that her hips are just about penis level. Strings on her nipples can now be looped into the ropes and the breasts stretched to the desired tension. Dildoes can be easily put into place. Both holes are readily accessible to rape with some interesting results because you have complete control of her body movements. She is totally helpless to resist.

Moving upward, it was an easy job to retie the strings around her nipples and tie them tightly together. The string from her clit was drawn upward and looped around the nipple strings. As it was tightened the breasts pulled downward, acting as a tensioner to put strain on her clit. During the process of tightening the strings, her screaming had become obnoxious and the panty gag was again necessary to keep her quiet.

As the time passed, I tried ~~inserting~~ inserting several devices into her pussy and anus but due to the acute angle of her hips and passages it was extremely difficult so I finally gave up on that and paped her upturned pussy again.

Leaving her arms bound to the post, I untied her ankles and pulled her legs downward and spread them to the stakes. She fought in agony as the straightening of her body stretched the nylon strings between the clit and nipples. Her breasts were stretched nearly to her belly button when her legs were pulled downward.

Leaving the strings in place, I turned to the box and picked up a quart whiskey bottle. The long neck made a fine handle and the sleeping bag was still under her hips. After plenty of lubrication was smeared on the bottle and inside her pussy, I began insertion. During the time that I was working it into her she lost consciousness, but it was just as well as her pelvis spread to accept the device. There was droplets of blood as the mouth of her pussy stretched and after several minutes of hard effort, it was inside her, but not far enough that the pelvis would close over the neck. The idea of the big bottle was to stretch her pussy and I carefully fastened the harness over it so that it would neither go in farther or come out.

Taking advantage of her unconscious condition, I released her body and rolled her over on her stomach, ~~and worked a~~ and worked a larger dildo into her anus.

~~_____~~
~~_____~~
~~_____~~
A couple of hours later, when she came to

I spread her knees wide apart and tied the ropes from her knees to the stakes on the sides. The harness was released and I selected what I thought to be an appropriate bottle for her pussy. It was an old beer bottle with a tapered neck and about three inches in diameter. This was the smallest bottle that I had brought and I had assume that it would go in easy but it didn't. It took quite a lot of effort and pain on her part before it was inserted to my satisfaction. The dildo harness was then buckled over both devices to prevent them slipping out. A gag was next and her panties worked quite well. I stuffed them into her mouth and tied rope around the back of her neck to hold it there.

I got up early the next morning and took a look around. All was peaceful and quiet as I built a warm fire and walked down to the pond. The cold water was refreshing after the previous evening in the tent. She had awakened me several times during the night in her struggles to free herself, but after checking the knots each time, I had been able to go back to sleep.

I went back up to the tent and untied her knees and ankles so that I could take her to the spring and clean her up. She could barely walk as we moved down the hill. The devices were still inside her and caused discomfort as we moved down the trail.

I forced her naked body down into the cold pond water and the took her back to the tent and dried her off. She had become docile for the moment and while she stood with her legs spread, I removed the bottle and dildo. Again we went outside so that she could get rid of body wastes then I removed the gag and fed her bacon and eggs. We still had two days and she would need her strength.

Back in the tent, I again spread-eagled her with the rolled sleep bag under her hips and examined the results of the previous nights work. Her nipples were badly swollen and her pussy didn't look the same. Her lips and entrance was swollen and inflamed but it was definitely yellow. This time there was little resistance as I raped her. She knew that it was was one of the least things that she had to worry about.

Later, I went outside and cut several small poles about six feet and carried them back into the tent, with one of these and several small pieces of rope, I started to work on her. She did not resist as I placed the pole under her shoulders and tied her arms out along it. They were tied at the wrists, elbows, and shoulders leaving her upper body completely immobile. I released her ankles one at a time and pulled her out and upward until her ankles could be secured to the pole so that her body was folded with the legs wide apart. Her hips were rolled upward until the pussy was right on top, spread open, and ready to be violated. The entire area was swollen and puffy from hours of probing and abuse. Her clit stood out like a small penis as I pinched and twisted it. Remembering her nipples, I tried to tie a fishing line on the clit. It took several tries and much screaming on her part before I figured a way to make the string hold. She was able to move her hips enough to defy my efforts but the straps were still buckled high on each thigh. I tied ropes from each strap to the stakes on either side. After that it took little effort to gather a little skin around the clit and get a line tightly drawn around it. This time it held when I pulled on the string.

The sudden quiet and stillness of her body was almost unnerving and I stopped my assault and withdrew from inside her. This was my first experience with unconsciousness and my concern was great as I checked her pulse and breathing but everything seemed normal so I took advantage of her condition and changed the position of her body. Her ankles were untied and pulled upward and back until her toes were directly above her shoulders. Then, I spread her ankles wide apart and retied them at the stakes where her wrists were secured. She was still unconscious as I moved back down to her upturned hips and looked her over. Her vulnerable pussy was turned upward and spread, exposing the clitoris and inner channel. I was probing up and down the length of her slit when she finally woke up. During the few moments that it took her to reorient to the new position were not wasted as I mounted her upturned hips and rammed my penis into her. She squirmed and rolled her hips, trying to resist as I took my time and slowly enjoyed her unintentional cooperation until finally, after several minutes my sperm was rammed deep inside her pussy.

Now that she had been completely raped, her will to resist was completely gone. She had already been soiled beyond anything she could ever imagine. Tears streaked her face, and she lay sobbing. The fight had utterly gone of her. She remained quiet and passive as I released her legs and breast. Her naked body was almost relaxed as her legs were again eagle-spread and tied to the lower stakes.

When she had finally rested for a while and regained her composure, I sat beside her and we talked. She fully expected, now that it was all over to be released and taken home. As I talked to her, I carefully removed the lines from her swollen nipples. Tomorrow morning the nipples would be swollen two or three times their normal size, making the spring work much easier.

With the thought of freedom fresh in her mind, she offered no resistance as her limbs were released and she was rolled onto her stomach. Only as I began tying her wrists to the stakes did she begin to struggle but she was too weak and too late as she was again eagle-spread to the stakes, face down and with her legs forced wide apart. The sleeping bag was placed under her so that the anal area was fully exposed. When she was completely immobilized, I finally told her that she had really been brought here for experimental purposes and that she would be used for the weekend. She sobbed and pleaded as I went into great detail in my description of the devices that would be inserted into her. Her anxieties mounted as she visualized the huge ~~anal~~ dildoes tearing penetrating her torn and bleeding body.

She lunged against the ropes as I slipped a Vaseline coated finger into her rectum. Probing and twisting, I forced the finger into the innermost recesses of her bowels. Her anguished screams were excruciating. She twisted her naked buttocks wildly, trying to escape the tormenting finger.

It was getting late and I had to prepare her for the night. It was a theory that progressively larger devices were inserted into her over a period of time, she could eventually take extremely large ones. She fought frantically as I carefully pressed a well lubricated dildo into her rectum and buckled the harness over it, holding it firmly in place. It was small, seven inches long and one and one-half inches in diameter but it took several minutes to work it into her.

her arms were drawn down behind her back and tied securely together. Loose ropes were tied to each knee and her ankles released and together, then I drew her feet up behind her back and tied her ankles. Her wrists so that she was jackknifed. After rolling her over onto her back I tied the ropes from her knees to the stakes on each side, ~~drawn~~

with small, firm breasts.

Here lay a full grown woman, about five ft. three in height, dark haired, and with a body like I had only seen in magazine photos. Her breasts, large and firm, jutted out from her chest in tempting rose tipped cones. The widespread legs were strong and well muscled.

Her screaming finally subsided, and she pleaded to be released as I knelt beside her body and began a physical examination of her assets. The ropes holding her wrists and ankles eagle-spread, bit into her flesh as she tried to resist my probing fingers, as I examined the intimate parts of her body.

Finally, after I had determined what she was like, I went to work on her. A rolled up sleeping bag was placed high under her hip, raising them several inches off the tent floor. The dildo harness was buckled around her waist with the loose straps from it laying loosely between her legs. I placed small belts high on each thigh and took care to catch the loose skin on the sides of her pussy under them as they were tightened so that the vagina was spread and fully exposed for entry. Loosening the ropes at the stakes, I forced her legs even wider apart, until she began screaming from the pain in her hips. The ropes were retied and I moved up to her breasts.

My attention was on her nipples as I took two heavy fishing lines from my kit. Starting with the right breast, I took the nipple into my mouth and sucked until it was firm. Holding it in my teeth, I looped a string around it a couple of times and pulled it tight. She began to scream and struggle again as I repeated the process with the other nipple, but her real pain was yet to come as I passed the other ends of the lines over the center beam in the roof of the tent and began pulling them tight. Pulling her nipples and breasts upward, as I continued to tighten the strings, she managed to arch her back so that her shoulders were a couple of inches off the floor. At this point I tied the strings to the beam.

For several minutes, as I sat and watched, she managed to hold herself up, but finally her tortured failed and she fell back with her upper body mostly supported by the lines tied to each nipple. The weight stretched her breasts into long, slender cones. Her body was bathed with sweat and her ear piercing screams were deafening as I moved out of the tent to finish setting up the camp for the weekend. Barring disturbances, I would make full use of her between now and Sunday night and there were provisions to put in and more equipment to be removed from the jeep.

I had what I thought to be a very good selection of material to use on her. Bottles, home-made dildoes, a good assortment of string, belts, and straps. Some rope and lots of Vaseline.

Her screaming had finally become hoarse and much quieter when I finally moved back inside and knelt beside her hips with a bottle of vasaline. Watched as I smeared lubricant into her vagina and put the bottle aside. My fingers penetrated into her, all of them, deeper and deeper until her agonized pelvis spread to accept my knuckles. Her back arched rigid as I slowly put my whole hand into her to the wrist. Her fingers twitched involuntarily as I probed inside her and finally made my hand into a fist and pulled upward lifting her hips several inches off the sleeping bag. She very nearly lost consciousness as she lay impaled on the hand inside her.

After removing my hand I undressed and moved between her legs. She looked at my penis and pleaded for me to use something so that she would not get pregnant. I had several condoms but I wasn't going to use one of her and she certainly couldn't stop me as I slid into her. The extra weight on her tightly stretched breasts kept her in constant agony as I took her in long, penetrating strokes and finally she passed out.

PS 1
We had moved away from the ranch but the die was set. It had been a long frustrating year since the move into a small town where we knew everyone. Finally out of desperation I began to look around for a girl that might satisfy my special tastes. One that worked in the local drug store looked the most likely and I singled her out. She was a tease and very few of the boys went for her. Her parents weren't much good and she only went home when she felt like it.

I was attracted by her body rather than her personality. She had large breasts and beautifully formed legs. Her body was tawny and well muscled. I would sit and watch her walk down the counter aisle and try to visualize how she would look if she were eagle-spread between tightly drawn ropes.

And finally the time came. We had a date for Friday night, yet several days away. There was plenty of time for preparations. A Jeep was arranged and provisioned for a weekend, complete with all the special equipment that I thought that I might need. All was in readiness when the time arrived. It was arranged that I should pick her up after she got off work at nine o'clock that evening and we would take in a movie at the local theatre, but I had other plans.

I picked her up at the store and headed out to a hamburger joint for a bite to eat. As we passed down a dark street I pulled off to the side of the road belted her twice in the stomach. By the time she was breathing normally again, she was gagged and tied hand and foot, with her feet drawn up behind her back so that she was totally helpless. I had feelings of anticipation as I turned onto the highway and headed south toward the canyons where I would camp.

The Jeep carried us many miles into the wilderness where I was sure that we would not be disturbed and where her screams would not be heard. I had like the girl back at the ranch and had been careful with her but this one was different. I had abducted her for only one reason. To find out for myself, how much carnal torture a woman's body could actually take, how large a device could ultimately be forced into her pussy and how deep she could take it in her. I had a great curiosity about many parts of her body. Ones that I couldn't satisfy back at the old place because of the fear of hurting the girl, and there wouldn't be a gag this time for there would be no one within hearing distance. I wanted to hear her scream as I experimented with her body.

When we finally arrived, I set the old center beam tent up, and drove strong stakes into the ground along the inner edges. I went to the jeep and untied her ankles and walked her into the tent, but when she saw the stakes and ropes she put up one hell of a fight.

A punch knocked her out for a few minutes and I pulled her skirt and panties down and off her ankles. When she regained consciousness her legs were spread wide apart and tied to stakes on each side of the tent. She still tried to resist as I grabbed a handful of hair and raised her upper body into a sitting position, but with her legs tied as they were, there was little she could do as I untied her hands and removed her sweater and bra. She was then forced back down and her wrists retied to stakes above her head so that she was spread-eagled.

The gag was next removed and she began screaming as I stood over and admired my handiwork. She was a beautiful sight as she lay there spread between the stakes. There was no similarity between this girl and the one at the ranch. She had been younger and slight of build.

5
with her legs spread wide apart. Her wrists were released and her arms pulled outward and held by ropes tied at each side of the room. It was night now and she was very tired as he began working on her. The nipples were drawn together and the string from her clit was tied in such a way that the weight of her breasts continuously pulled on it. The lips of her pussy had come out from under the straps and he carefully respread them and buckled the straps back in place. She hung, suspended in agony as he approached her with the huge eleven inch shaft in his hand. She already knew that her vagina could take its four inch diameter as he lubricated it and slowly pressed it into her. The downward pressure on her ankles was tremendous as he forced it in until the mouth of her pussy closed over the handle end. Next he lubricated her anus and twisted the eight inch dildo into it. The harness was buckled between her legs to hold them in place.

As she hung, suspended from the ceiling, she was not aware of the small wire that had been wrapped around the head of the shaft that was deep in her pussy. The wire was attached to a high voltage fence charger sitting on the table. The device was originally designed to shock cattle but he had found that it also worked well on women. Taking the other wire from the charger, he attached it to her nipples where they were tied together. He twisted a dial and pain such as she had never imagined ran through her body. Her back arched, thrusting her belly forward. Little tendrils of smoke curled from her nipples toward the ceiling. Each step up of the voltage brought a new convulsive paroxysm until she finally fainted.

She was in a semi-conscious state, just before waking. There was severe pain between her legs that spread like fire through her body. There was movement around her but her moans and sobs were ignored. And then she awoke. Her body had been placed on the floor with her legs and arms eaglespread with the wrists and ankles tied to eye bolts along the walls. Her limbs were stretched to the utmost so that the muscles in her arms and legs stood out under the strain. She raised her head and looked down the length of her body. She saw that the wires were still attached just as the first jolt hit her body. Only her wrists and ankles still touched the floor. Her back arched upward. Harsh sound gushed from behind the gag. Her eyes were tightly shut. Her muscles jarred and convulsed as the electricity hits her.

Just short of unconsciousness she was released and again placed on the bed. She was so weak that she offered no resistance as her arms and legs were tied at the corners of the bed. She had again been tied face down. He raised her stomach and placed pillows under her so that her hips were raised into a convenient position. The huge dildo was still firmly embedded in her pussy but the harness had been loosened so that her anus was exposed. He took his time as the strings from her nipples were carefully drawn down over her back and tied to the harness belt in back so that her nipples were spread and drawn downward.

She already knew what to expect as he spread her cheeks and pressed into her anus. She was well lubricated and stretched but her muscles still convulsed as he slammed his swollen penis into her. She fought waves of pain as he took her with long hard thrusts. For several minutes he peared into her and finally with several hard, searing thrusts he let her rest for a few minutes as he thought of new ways to abuse her body.

Unconsciousness finally engulfed her body as her legs were spread and tied at the upper corners of the bed near her wrists. Pillows were placed under her hips raising her exposed thighs even higher.

She was brought back to awareness with the odor of ammonia. She noticed that he had changed several things while she had been while she had been out. Her head had been raised so that she could see down between her legs. The strings on her breasts had been tied tightly to the edges of the bed so that her breasts were stretched apart. The string on her clit had been pulled upward to the head of the bed and knotted tight just above her head. The strings were tied in such a way that they caused extreme pain when she tried to move.

She glanced out the window curtains and realized that it was late afternoon. She had been tied down for nearly twenty hours. There was a dull ache where the dildoes had been removed from her pussy and butt. The straps were still buckled on her thighs and she could see how wide open they held her pussy. Her eyes were just a few inches from her clit and she was amazed at how much it had been swollen from the string tied to it.

The man had told her that she would be kept tied down and used until Sunday night and she dreaded the next few hours, but try that she may, she could not think of what else he could do to her. She had already endured so much pain that her body seemed to be building a certain amount of resistance to it, but the woman knew that he had exposed her thighs for some purpose.

After reviving her from her unconscious state he had went into the kitchen and prepared a sandwich which he consumed as he watched her appraise the situation. After finishing with the food his attentions were turned back to her. She stared at him as he came back into the room and went to the table. Her thoughts of huge dildoes were shattered as he approached the bed with a handful of smaller ones. They were large but not as much so as the huge four inch one that had been kept strapped inside her for so long. The relief was short lived for she had not taken into consideration the position of her body. Her vagina and anus passages were drawn tight and bent from the acute angle of her hips. The sensations of pain were relived as he forced the hard rubber shafts between her unprotected legs. She endured a couple of hours of pain as he worked the shafts in and out of her. She would never forget one in particular that had large rings down the tight inch length. She could see the pussy opening become inflamed and finally the blisters that formed from the continuous friction. Finally he placed the devices on the table and mounter her raised hips. The string on her clit jerked as he plunged down and into her. She though that her clit would be pulled off as he kept slamming down on her wit regular rythm. There seemed to be no end to it as the minutes dragged by and he continued raping her without letup. She could feel his bal slap her pussy with every stroke and finally she whimpered in agony a his final convulsions jerked her clit against the string as he ejecte his sperm into her again.

She was released from the bed and her hands tied behind her back and her ankles tied together. He carried her to the bath room and set her on the commode for some needed relief. Afterward she was taken ba into the bed room and laid on the floor under the hooks in the ceilin Long ropes were tied to her ankles and passed over hooks in the ceili several feet apart. Her legs spread as her body was pulled up. The ro were tied when her head cleared the floor. She was suspended upside d

firmly drawn to the foot of the bed and tied. There were pillows under her stomach raising her hips and exposing the anal opening that had already been carefully lubricated. Then it began.

He didn't try to hurry and it took several minutes to work the eight inch dildo into her butt hole. She felt as if she had been torn apart as he buckled the harness between her legs. The string on her clit had been released but there was lingering pain where she had jerked against the strings to escape the passage of the dildo into her rear. She thought that there could be nothing else. She knew that even if the ropes were not on her ankles that she still could not put her legs together because of the widely separated pelvis but he did. Her legs were again released and tied tightly together. She lay there in agony. Her hips were several inches wider than normal.

The tight nylon strings prevented her from moving as he picked up several large eye bolts and placed them at strategic places in the ceiling and walls. They were set in the beams and studs deep enough that they would support her weight. She thought of the strings and offered no resistance as he released her hands and tied them behind her back. The strings were finally released and she was carried to the middle of the room. Her hands were tied to a rope over her head and her body was pulled up until her feet were off the floor. Long ropes were tied to her ankles and her legs were drawn apart as wide as possible. After again checking the ropes he backed off and looked at his handiwork. She was barely aware of the pain that was coming from all over her body. The pain was totally dominant. She could not think even of the exposed position of her body of what he had planned next for it. Only pain.

The strings on her nipples were looped together and the nipples were drawn tightly against each other. The string from her clit was brought up and looped between the nipples. He pulled it tight and she fought the pain in her nipples and clit as her breasts were pulled downward. After the knot in the string was tied he unbuckled the dildo harness and removed the dildo from her pussy. He took a damp washcloth from the bathroom and carefully washed the blood and lubricant from between her legs and then he took her standing up. She almost passed out as he plunged forward and upward driving himself past the swollen lips and hard against her swollen clit. The woman had groaned and her body convulsed with the sudden pain. But her lips were sealed to screaming. He slid his hands behind her buttocks and held her hips forward. Slowly withdrawing his penis, he thrust forward the second time with the same brutal force. The strings caused agonizing pain as he continued to rape her swollen pussy. Finally with convulsive thrusts he ejected his sperm into her once again. She felt little relief from the ropes and strings as he backed away and retrieved the huge dildo that had recently been removed from her pussy. There was only the familiar pain as he knelt in front of her and forced it up into the tired swollen pussy. She moaned as her pelvis was slowly forced apart by the huge rubber shaft. The harness was again buckled over the dildoes and her legs were released and tied together at the ankles. The woman was released from the overhead hooks and carried back to the bed. He placed her on her back and retied her arms to the upper corners. He released the woman's ankles and forced her legs up toward the head of the bed. Pain lanced through her hips as the hard rubber of the dildoes failed to bend with the sharp angle of her body.

2

Then he removed the dildo from between her legs and raped her. As he took her in long easy strokes he began the painful process of swelling her nipples. She fought waves of pain as he twisted and abused her breasts and nipples. Finally the first assault was over as he rammed her pelvis and ejected his sperm deep inside her.

She knew that it must be well after midnight as he again went to the table and returned with another dildo. This one was about ten inches long and three inches in diameter. She tried to scream past the gag as the thing was forced and twisted into her pussy. Her pelvis and insides ached as the harness was again buckled tight over it so that it could not come out. She felt a sharp pain as he worked the harness over and fastened a small wire clip on her clit. The pain was increased as he placed a similar clip on each nipple. She fought to free herself from the pain as he rolled up in a blanket on the floor and went to sleep.

She did not sleep that night. She writhed in agony until the pain finally seemed to deaden but she knew that the results of the clips would be swelling of her nipples and clit. He finally woke up. The early Saturday sun had been up about two hours. Her eyes begged for release from the pain as he prepared a light breakfast for himself. She knew that she would be terribly hungry before he was through with her. He dared not remove the gag in a motel room even for a moment. After breakfast he went to her and removed the harness and dildo from between her legs. He carefully examined his handiwork as he removed the wire clips from her clit and nipples. She knew that they had served their purpose as he walked to the table and picked up three long pieces of strong nylon string. She watched him as he took her nipples in his teeth and held them outward so that he could use both hands to loop the string and tie it. She was left with sharp pains in both breasts from the tightly drawn loops as he moved down between her legs. Taking her clit between his fingers he drew it outward until a string could be tied around it. Again she felt burning pain as the knot was drawn up.

She writhed with flashes of sudden pain as he jerked each one to make sure that they would not be pulled off. She watched with clouded eyes as he went to the table and picked up another dildo. A larger one. Eleven inches long and four inches in diameter and she took it all. He had pushed and fought the huge rubber penis between the spreader pelvis bones and there was droplets of blood around her stretched vaginal opening where the tissue had torn but it had went all the way in and the pussy opening had closed on the small handle at the top. As she lay there in agony he released her tired and cramped legs and forced them together. As he did so, the pain in her pelvis increased but her legs would not respond to resistance as he tied them tightly together at the ankles and knees.

The strings would now come into play. Her bound feet had been retied at the foot of the bed. He caused enough pain with the strings for her to know what he could do as he straddled her head and removed the gag she had no time to scream as he held her jaw with his hands and dropped, forcing his penis into her throat. She gagged and fought for air as he continued to plunge into her mouth. She was almost unconscious when he finally ejected deep in her throat. The gag was immediately replaced and cloriform held over her nose.

When she awoke there was still the searing pain of the huge dildo in her pussy but she had been placed on her stomach with her legs tied wide apart. She soon found that she was absolutely could not move a muscle without severe pain. Her breasts were pulled apart and the string tied to the edges of the bed. The string from her clit had been tied

As he stepped out of the motel room for a breath of fresh air he thought of the young woman tied to the bed inside. It had been so easy. He had known the location of her car when she came out of the bar. Her senses were so alcohol numbed that she was unaware of his presence until he was upon her. The quick stomach punch left her gasping for air as he tied her hands and feet. After she had been blindfolded and gagged he drove to the motel. She had been tied in a small neat bundle with her hands drawn up behind her back and no one noticed as he rolled her in a blanket and carried her into the room. His special suitcase was well equipped and the chloriform had worked well. He only had about two hours before she woke and he lost no time as he untied her and removed her clothing. After placing her body in the middle of the bed he raised her arms and securely tied her wrists at the upper corners of the bed. Pillows were placed under her hips raising them and her legs were spread wide apart and tied. The dildo harness was next and he buckled it around her waist. Thigh straps were fastened high on each leg. Before tightening them he had carefully caught the lips of her pussy under each strap so that when they were tightened on her spread thighs the clitoris and entrance of her vagina were fully exposed.

After laying out the things that he would need for the weekend he had undressed and placed a mask over his face. He liked to watch the eyes of his victims as he abused their bodies. Her blindfold had been removed and the empty suitcase was placed under her head, propping it up so that she could see everything in the room.

Fear and shock registered on her face when she awoke and realized her position. She fought to free herself but the knots had been well tied and there was absolutely no possibility of escape. As her eyes took in the numerous devices and huge dildoes on the table she knew that this would not be an ordinary rape, but that she would be forced to submit to brutal torture as well. Her legs were spread so wide that they were cramping and she could see the purpose of the thigh straps buckled about each leg.

The mask on his face prevented recognition as the naked man over the table turned around to face her but there was no doubt as to his intentions as she looked at the swollen penis between his legs. She moaned behind the gag as he stepped forward with an eight inch dildo in his hand.

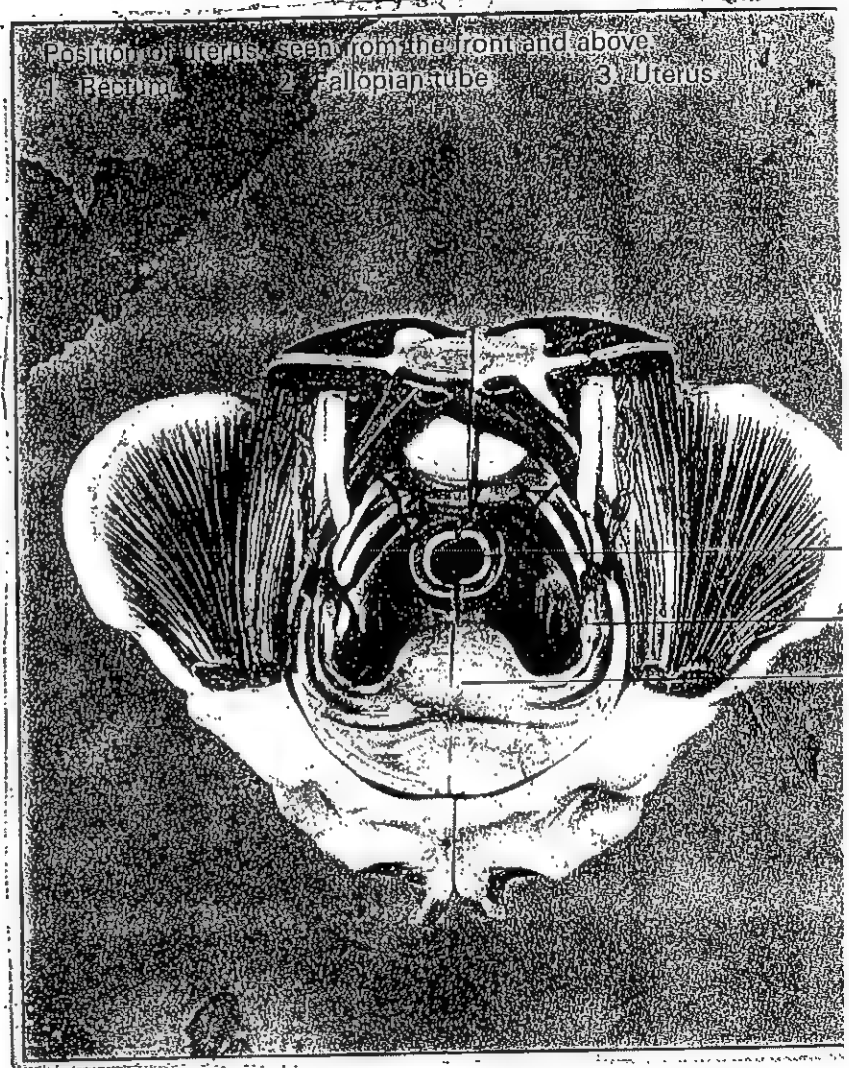

He knew that this dildo would cause little pain as he lubricated it and slid it into her. After it was firmly bottomed he drew the straps between her legs and buckled it over the dildo holding it in place. He could still see the fear in her eyes as she glanced at the array on the table.

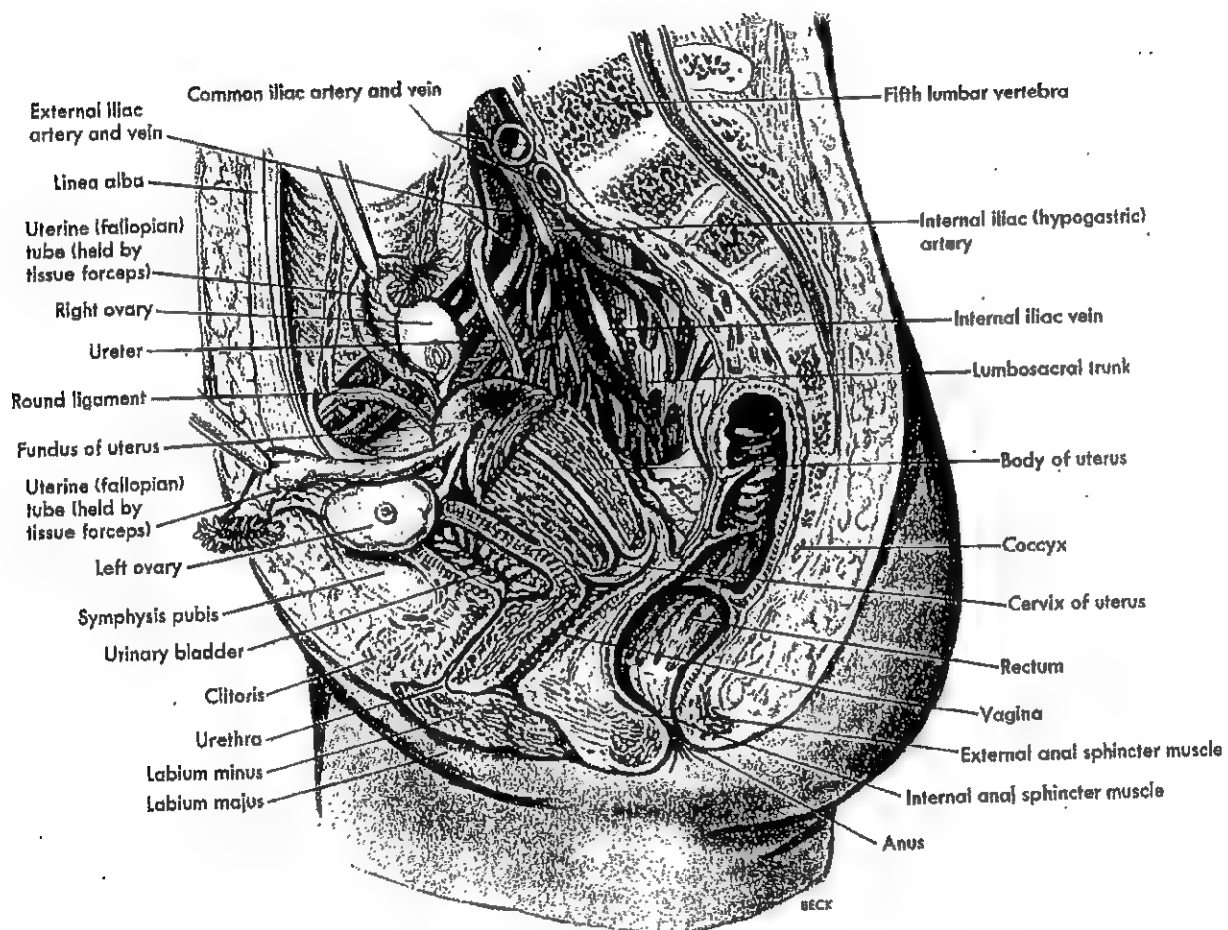

As she lay there bound to the bed he began to talk to her. She was informed of the events that had occurred while she was unconscious and that she would be detained all weekend for his pleasure. He told her of the different positions in which she would be tied and of the different ways that her body would be used. She sweated freely as he explained the purpose of the items on the table and how they would be used. She knew that there was no way that some of the huge dildoes could be forced between her legs but she failed to consider his strength and brutality. She was only half listening as he told that her clitoris and nipples would be continually abused until they were swollen enough that a nylon cord may be tied around them. The reason for the cords were also explained so that she may know what to expect when the time came.

PHONE CALL

RING-RING

HELLO!

HEY, BRO. WHAT'S GOING ON, MAN?

I MAY BE. RIGHT NOW, ANY CHEAP HARLEY IS A GOOD INVESTMENT.

WELL, SHIT. BRING IT BY. I'M DAMN SURE LOOK AT IT. I HAVEN'T SEEN YOU IN A MONTH OR TWO ANYWAY. YOU SHOULD GET BY MORE OFTEN. I'VE USUALLY GOT SOME SMOKE AND A BABY TO PLAY WITH.

Y'Y. SHE WAS SOMETHING ELSE, BUT I TURNED HER LOOSE ~~LAST WEEKS AGO~~. AFTER ALMOST SIX MONTHS, SHE WAS'NT MUCH FUNNER. FUCKING OR ANYTHING ELSE.

YEAH, IT WAS! WE GRABBED HER BACK IN NOVEMBER AND I HAD TO GET RID OF HER OR ADOPT HER. I WAS GETTING ANTSY FOR A FRESH CUNT ANYWAY.

WELL, NOT ALL THAT YOUNG. SHE TURNED TWELVE IN THE PLAYROOM. WE HELPED HER CELEBRATE HER BIRTHDAY BY FEEDING HER SOME EXTRA PROTEIN. BESIDES, I DIDN'T BEAR YOU COMPLAINING WHILE YOU WAS RAMMING THAT HORSE-COCK OF YOURS UP HER ASS. HELL, I THAUGHT IT WAS GOING TO COME OUT OF HER MOUTH ANY SECOND.

USUALLY. 12 TO 14 IS A PRIMO AGE. SMALL, TIGHT-SKINNED BODIES WITH A LITTLE PEACH FUZZ BETWEEN THEIR LEGS. BUT ONCE IN A WHILE I LIKE TO HAVE SOMETHING SOFT AND FULLY DEVELOPED.

SHIT NO! I DON'T EVER REMEMBER FEELING SORRY FOR ONE OF THE BITCHES. THEY ARE TOO MUCH FUN TO PLAY WITH, BESIDES, WHAT ELSE ARE THEY GOOD FOR?

YEAH, I FIGURED YOU WOULD AGREE WITH THAT. INCIDENTLY, IF YOU BRING THAT SCOOTER BY, YOU MAY WANT TO STAY A WHILE. I'VE GOT SOME FRESH MEAT IN THE PLAYROOM.

LIKE REAL FRESH. WE JUST GOT HER A FEW HOURS AGO.

UP NORTH, SHE'S A LITTLE OLDER THAN WHAT WE USUALLY GET. MAYBE 25 OR SO, BUT SHE'S GOT A HELL OF A BODY.

WELL, NOT TOO WILLING. BUT SHE'S NOT IN ANY POSITION TO SAY NO EITHER, IF YOU KNOW WHAT I MEAN.

SOME, THE OLDER ONES ARE USUALLY A LITTLE HARDER TO TRAIN, BUT ONE WAY OR ANOTHER, THEY ALL EVENTUALLY COOPERATE.

YOU KNOW THE ROUTINE IF SHE DOESN'T. WHIPPINGS, ELECTRO-SHOCK, AND TORTURE IF NECESSARY.

ACTUALLY, I SAW THIS ONE A COUPLE OF YEARS AGO, WIGGLING HER ASS IN A BAR. I DECIDED THEN THAT SHE WOULD EVENTUALLY BE MINE. AFTER THAT, IT WAS JUST A MATTER OF TIME AND CONVENIENCE

NO. I DON'T THINK SO. NO STRETCH MARKS AND NOTHING BETWEEN HER LEGS TO GIVE ANY INDICATION OF BIRTHING. THE PUSSYS TIGHT AND HER ASS HOLE IS EVEN TIGHTER. THAT'S THE ONE YOU PREFER, ISN'T IT?

YEAH. I KNOW THE DILDOES ARE BIGGER, BUT I'M A LITTLE MORE GENTLE. REMEMBER THAT LITTLE TEENY-BOPPER WE KEPT IN A TINT ON THE OTHER SIDE OF THE LAKE, SEVERAL YEARS AGO?

YEAH. AND I WAS TRYING TO HOLD HER LEGS BACK WHILE YOU WAS DOING IT, EVEN WITH A GAG IN HER MOUTH. I THAUGHT SHE WAS GOING TO WAKE EVERYBODY UP. AND I DIDN'T THINK YOU WAS EVER GOING TO GET THROUGH. HELL, YOU MUST HAVE RUMPED HER ASS FOR 30 MINUTES. I'LL NEVER FORGET THAT ONE.

WHAT?

WELL, NOT RIGHT AWAY. BUT SHE'S GOING TO BE HERE A LONG TIME AND YOU KNOW WHAT I LIKE. EVENTUALLY, I'M GOING TO START STRETCHING THE FUCK OUT OF HER PUSSY AND ASS HOLE WITH THOSE BIG DILDOS, SO YOU BETTER NOT WAIT TOO LONG.

FUCKING A. AND BY THE WAY, WE DON'T USUALLY GET MUCH IN THE WAY OF TITS WITH THOSE LITTLE TEENY-BOPPERS BUT THIS ONE HAS SOME NICE JUGS. PLENTY OF MEAT TO USE THE TIT TOYS ON.

CAN'T RESIST THAT, HUH. ALL RIGHT. GIVE ME A CALL WHEN YOU CAN GET LOOSE. CATCH YOU LATER, BRO....BYE.

THE SLAVE

Rape her and rape her,
That's what I say.

Use her completely,
It's the only way.

Keep her in chains and naked, too,
Spread-eagled on a table, waiting for you.

Legs forced wide for a day or so,
It's the sexiest way to go.

Stretch that pussy like a rubber band,
Spread it with dildoes if you can.

Work on her body and use her ass;
It's a tight little hole that's too good to pass.

Abuse those tits and pull them hard,
But not too much, you don't want them scarred.

Use plenty of needles in her nipples and clit,
And don't forget to stick a tit.

Use a whip to make her tame,
It's an interesting part of the game.

Stick it in her mouth and make her play,
She has no choice, but to stay.

Do all the things that you like to do,
Hang her up and stretch her too.

She may not like it, and we don't really care,
After all, that's why she is here.

Keeping chained pussy is kind of neat,
It's a lot better than beating your meat.

If things are done right, she will endure her plight,
To be used again and again, night after night.

She may want to struggle and rant and rave,
But that's OK, because she is just a slave.

**COPIES OF DRAWINGS ILLUSTRATING A
WOMAN BEING SUBJECTED TO SEXUAL
TORTURE BY CONTRAPTIONS**

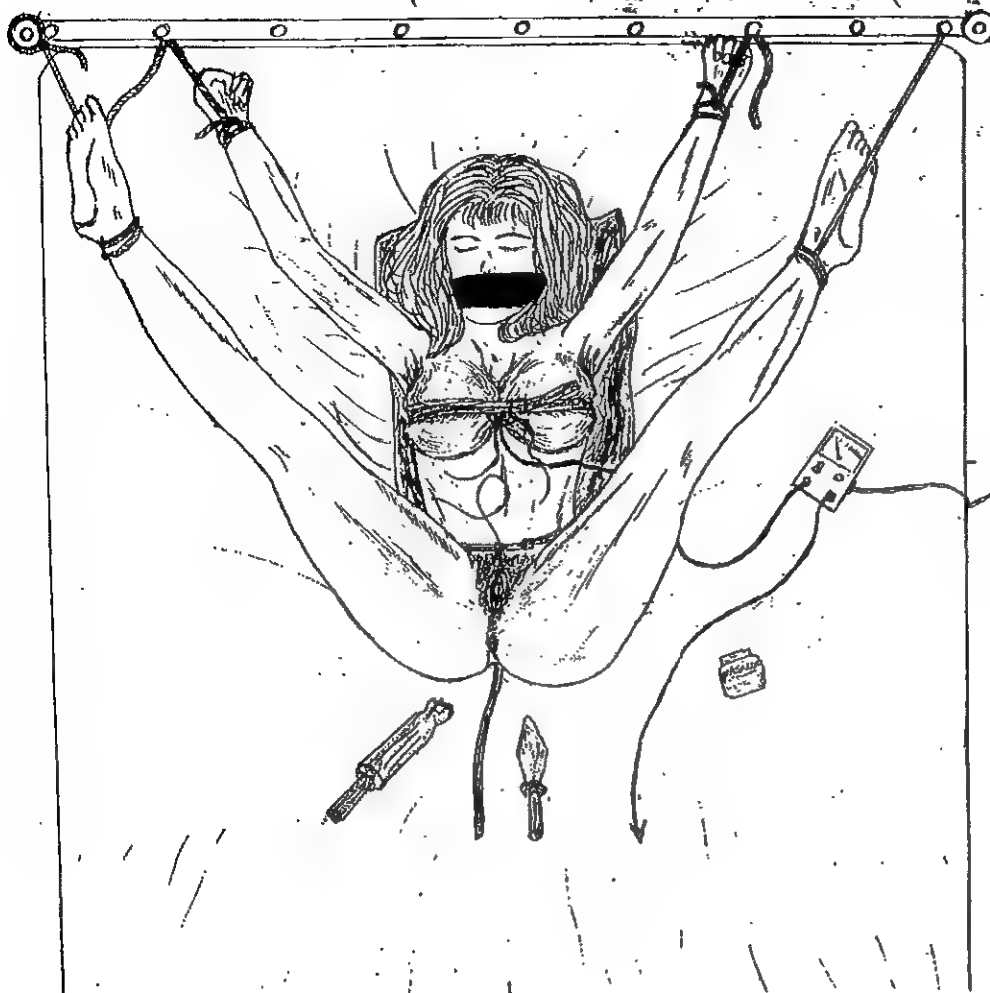

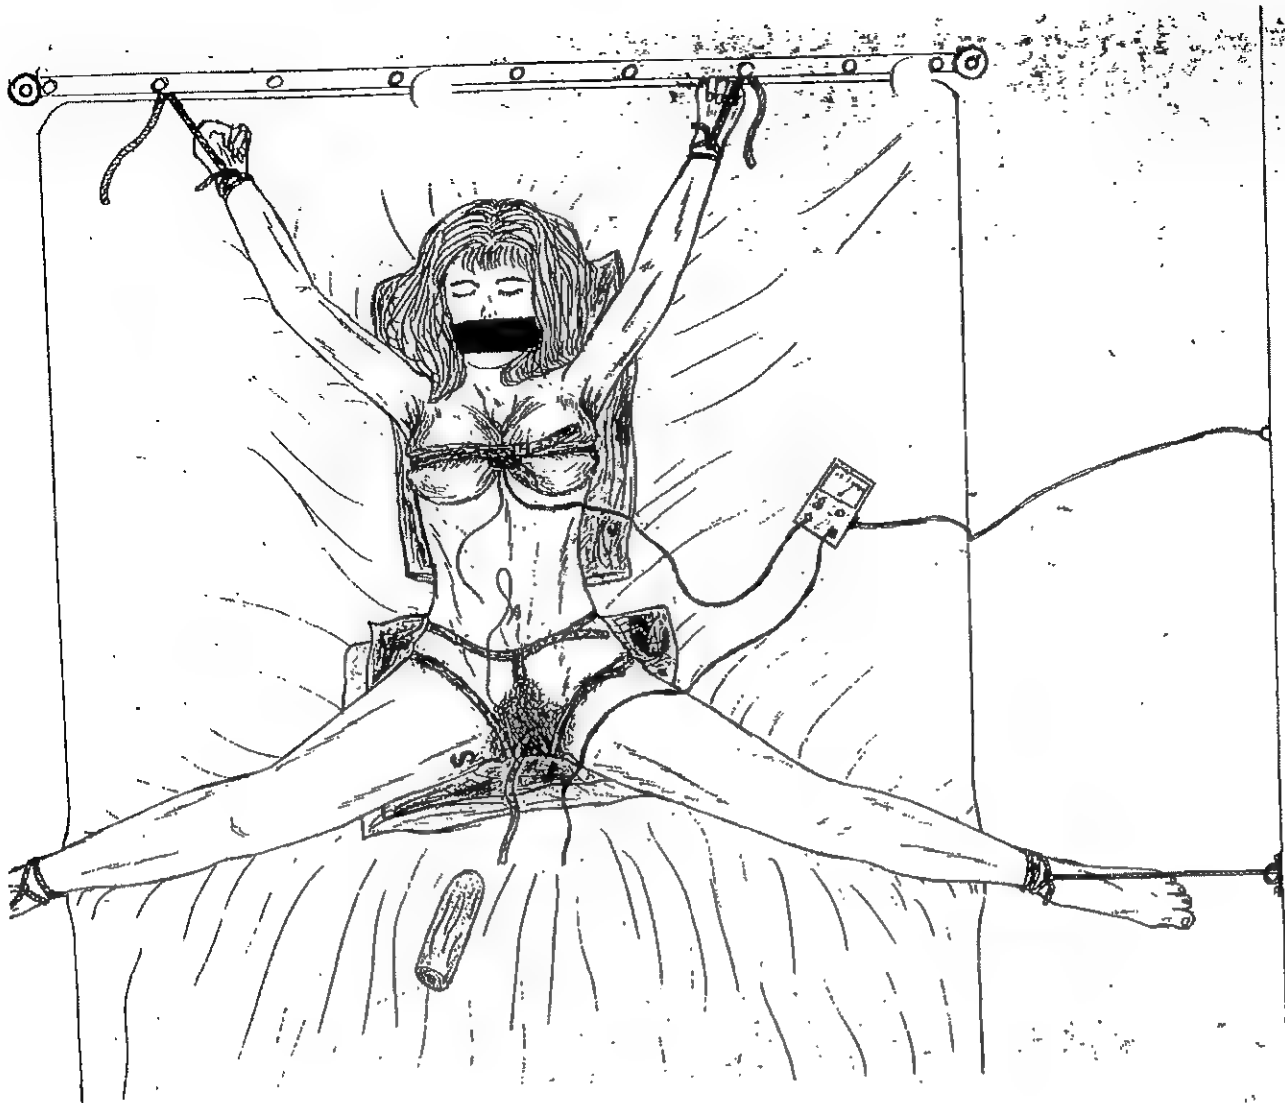

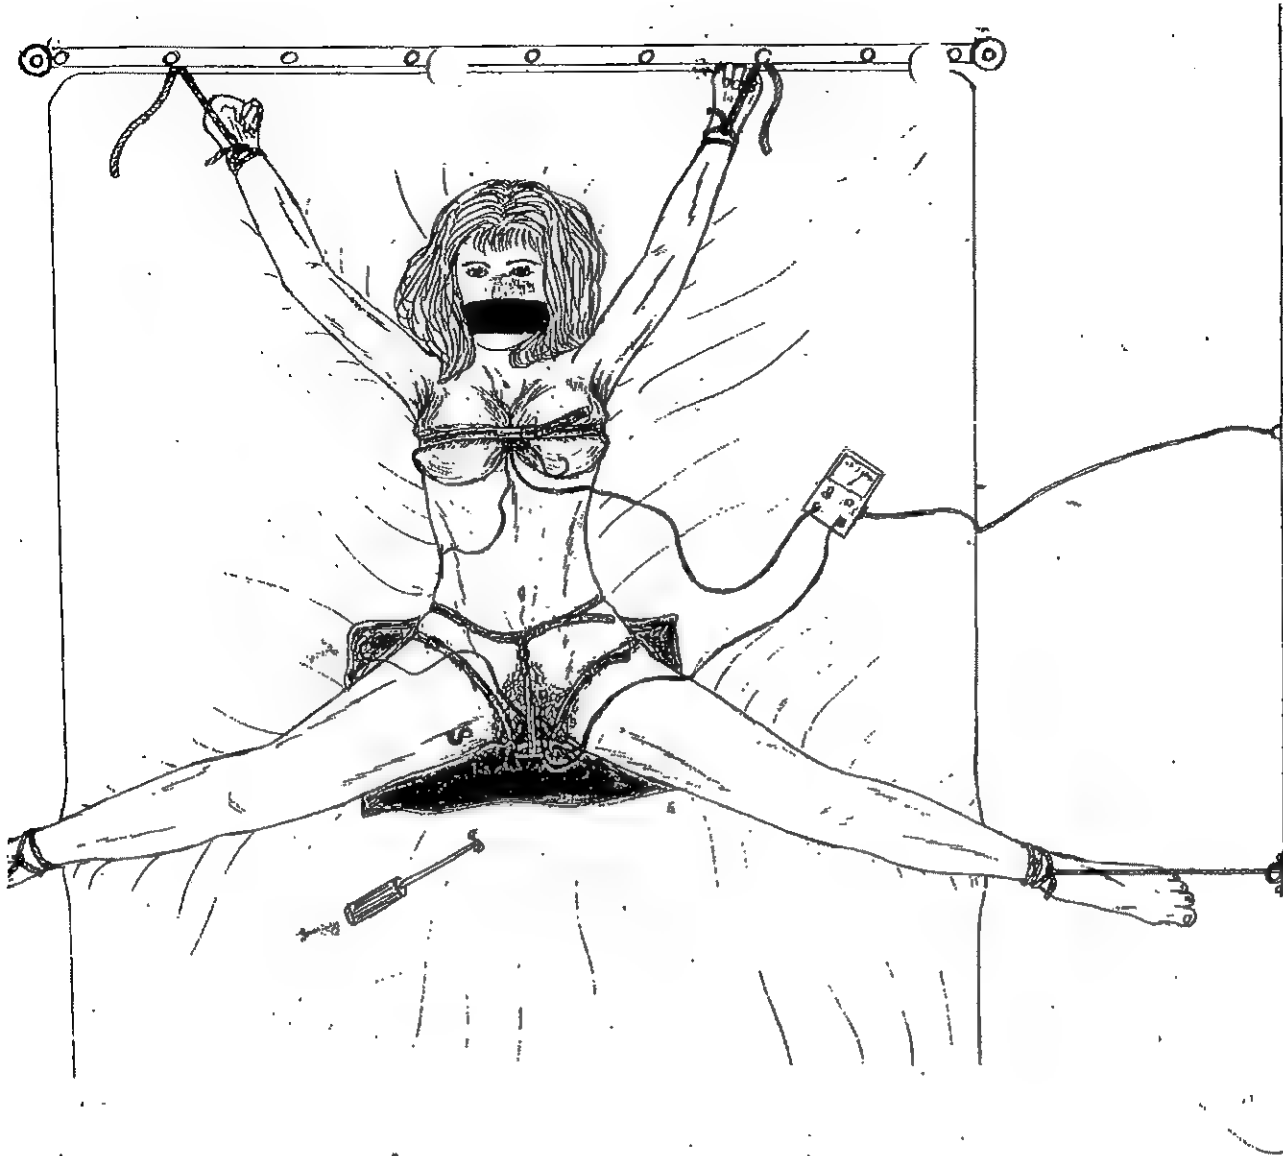

12

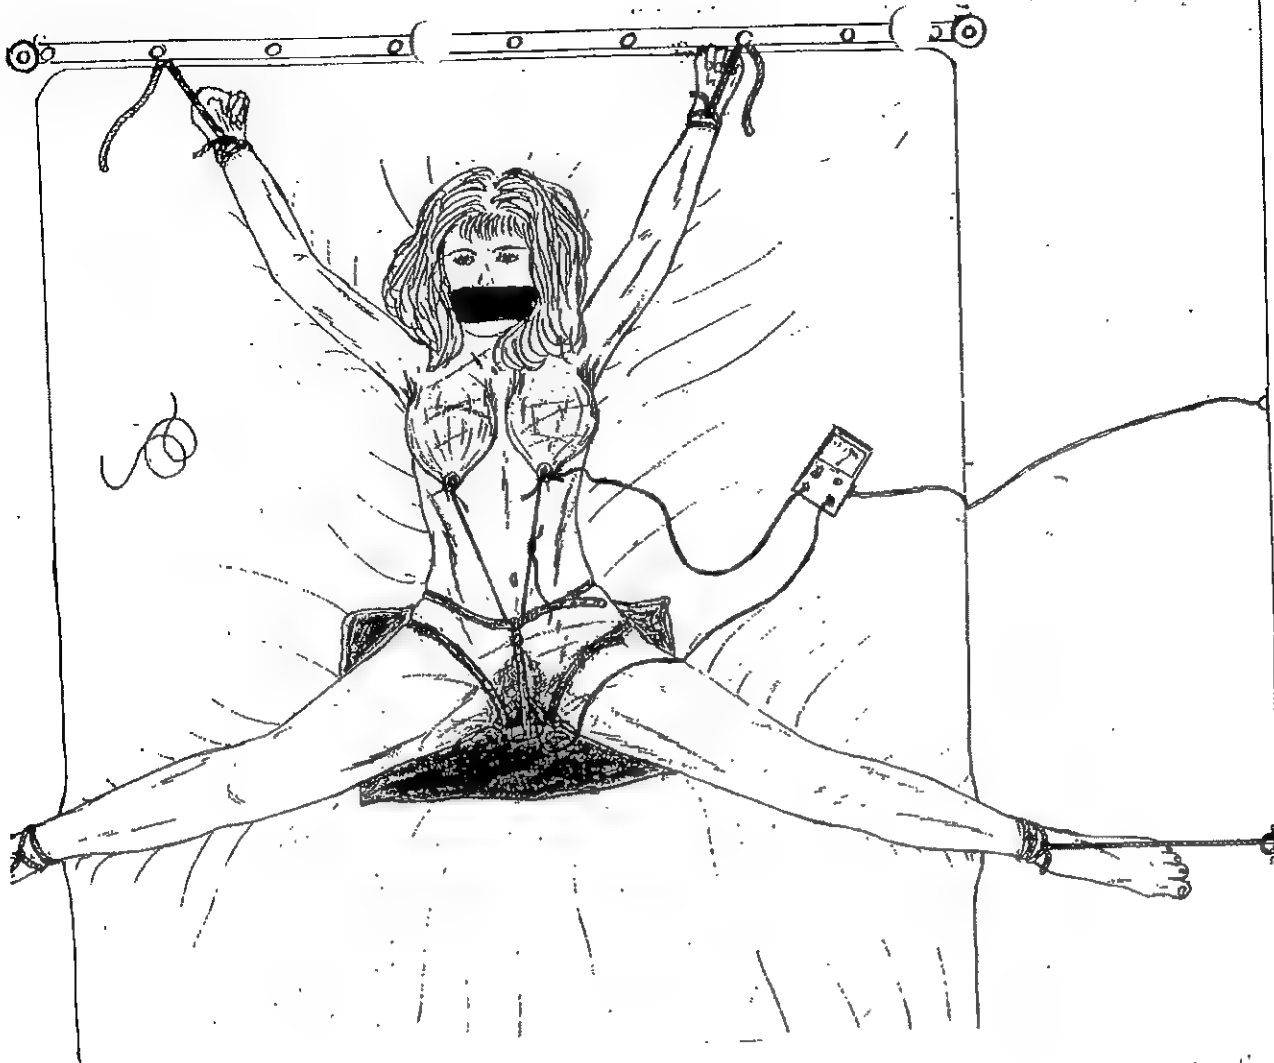

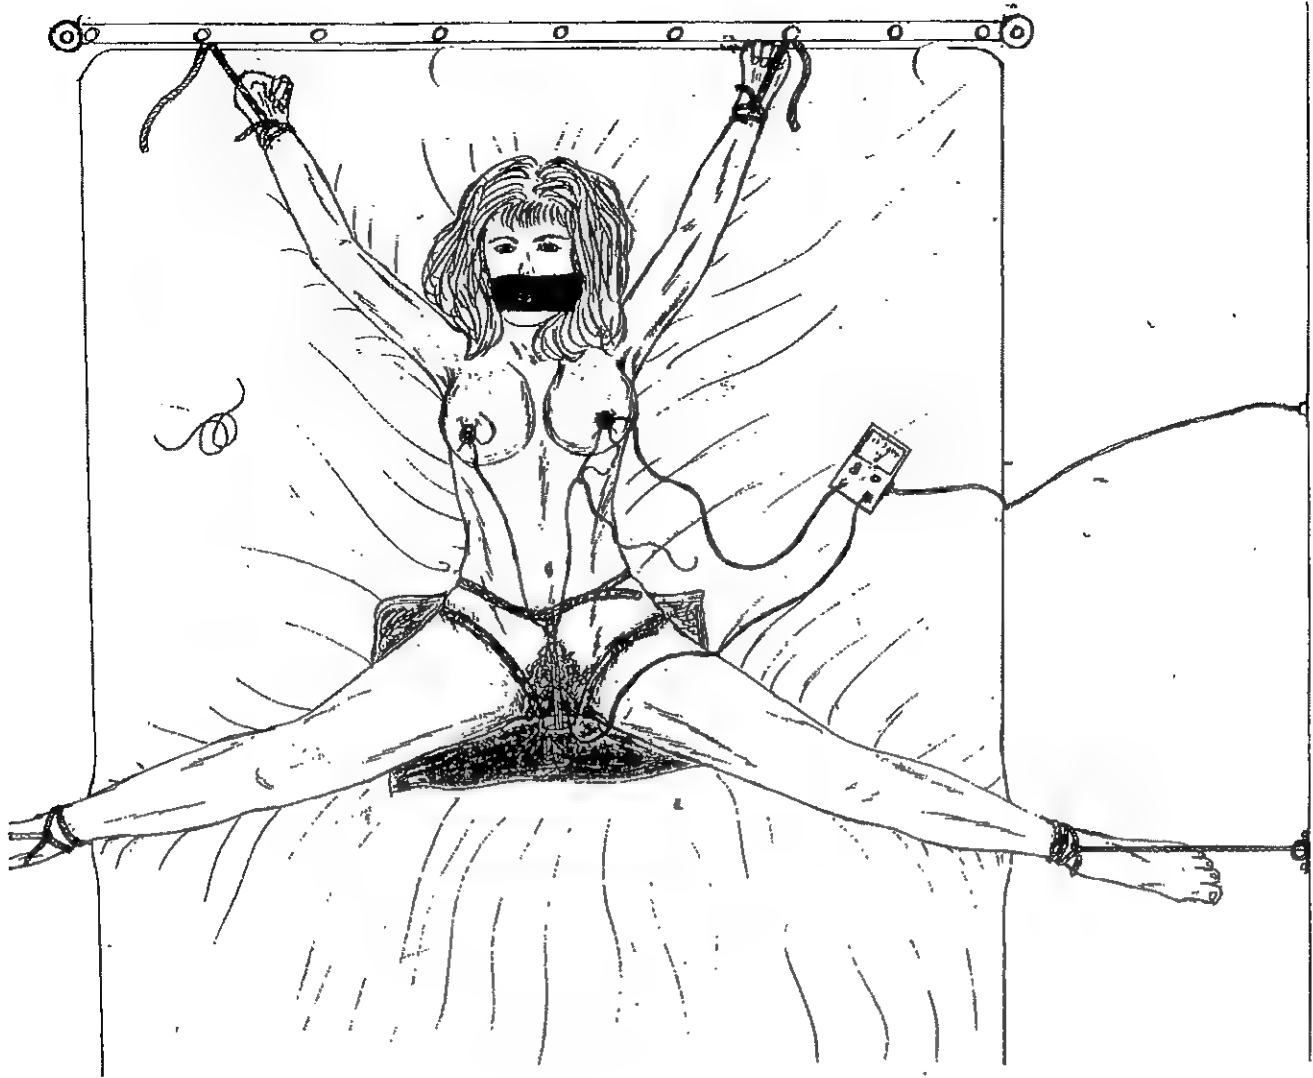

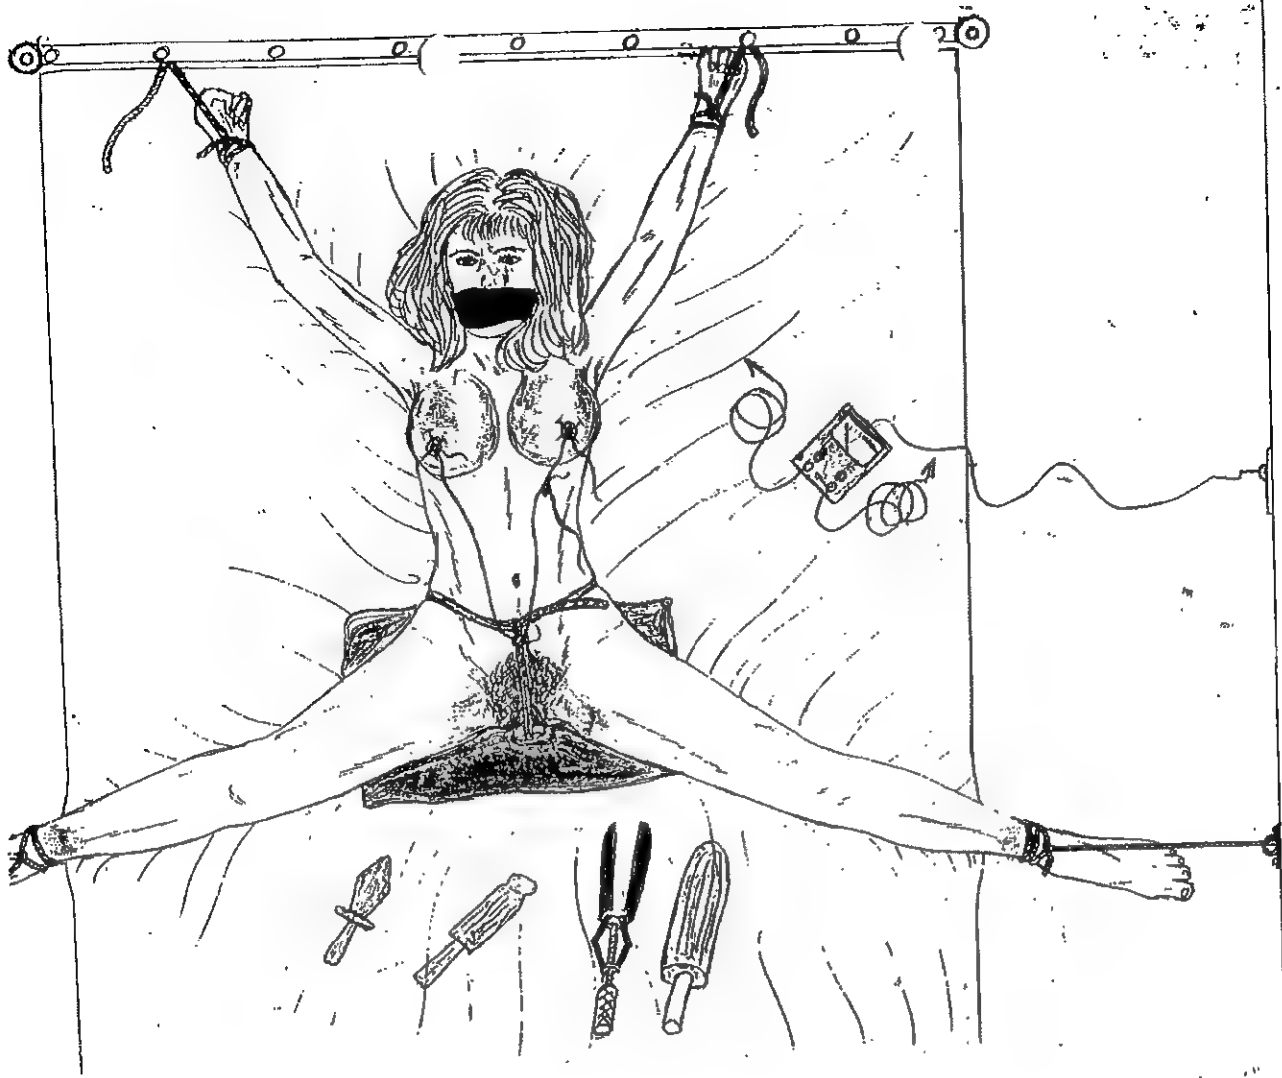

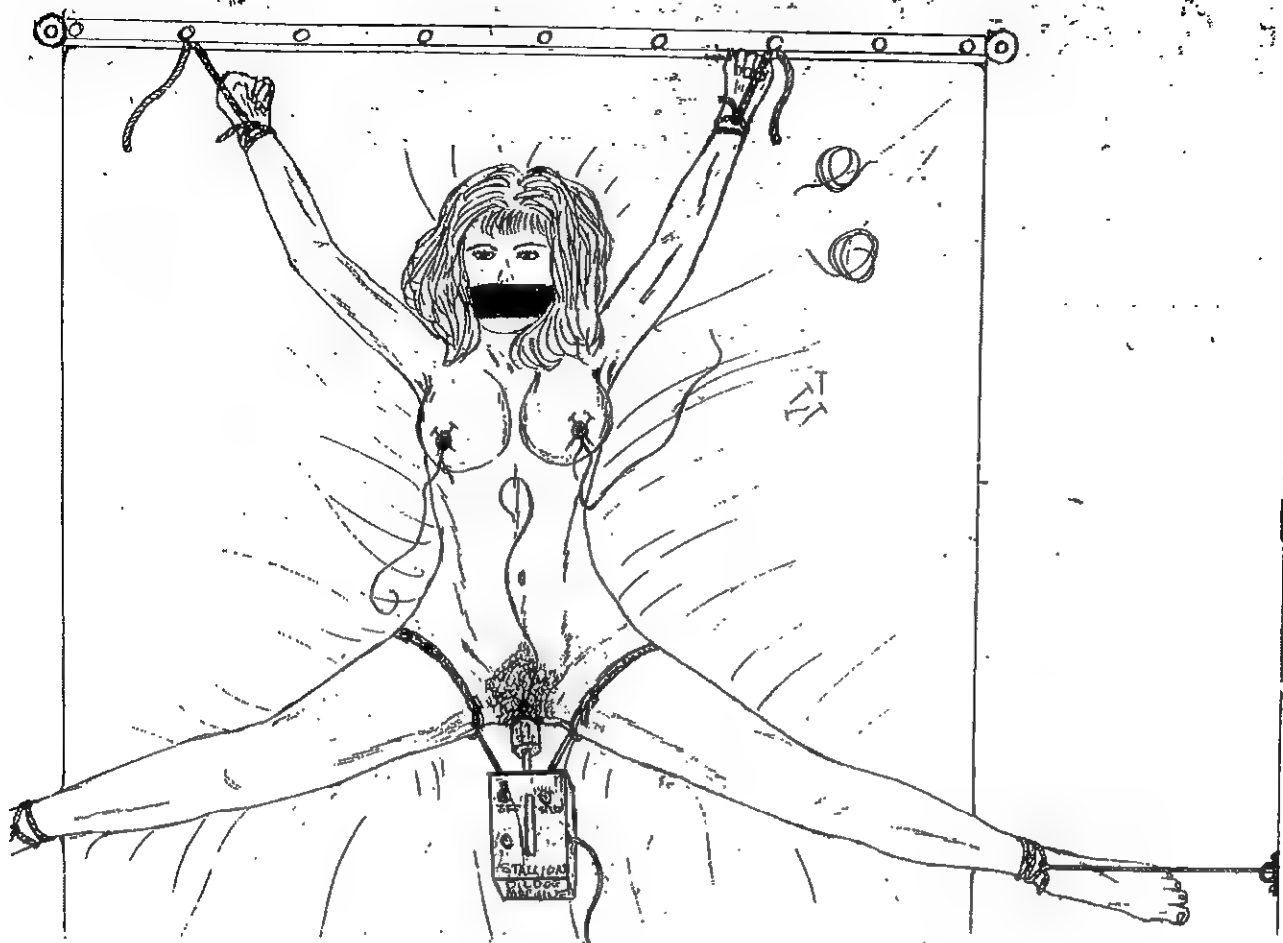

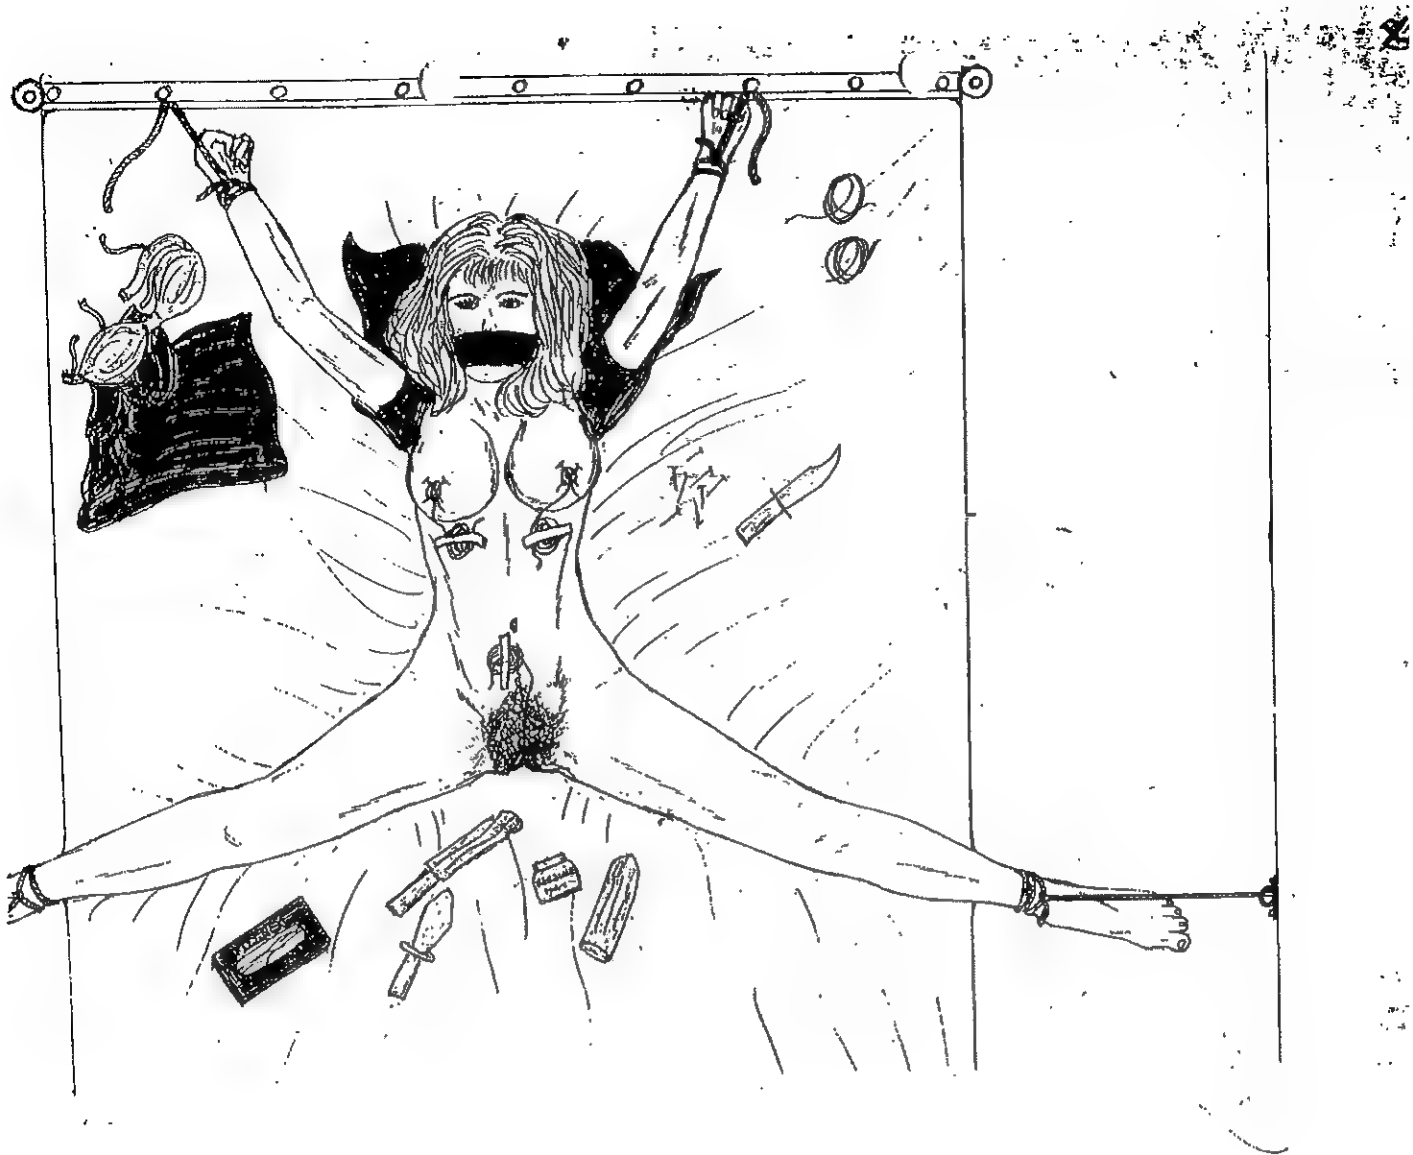

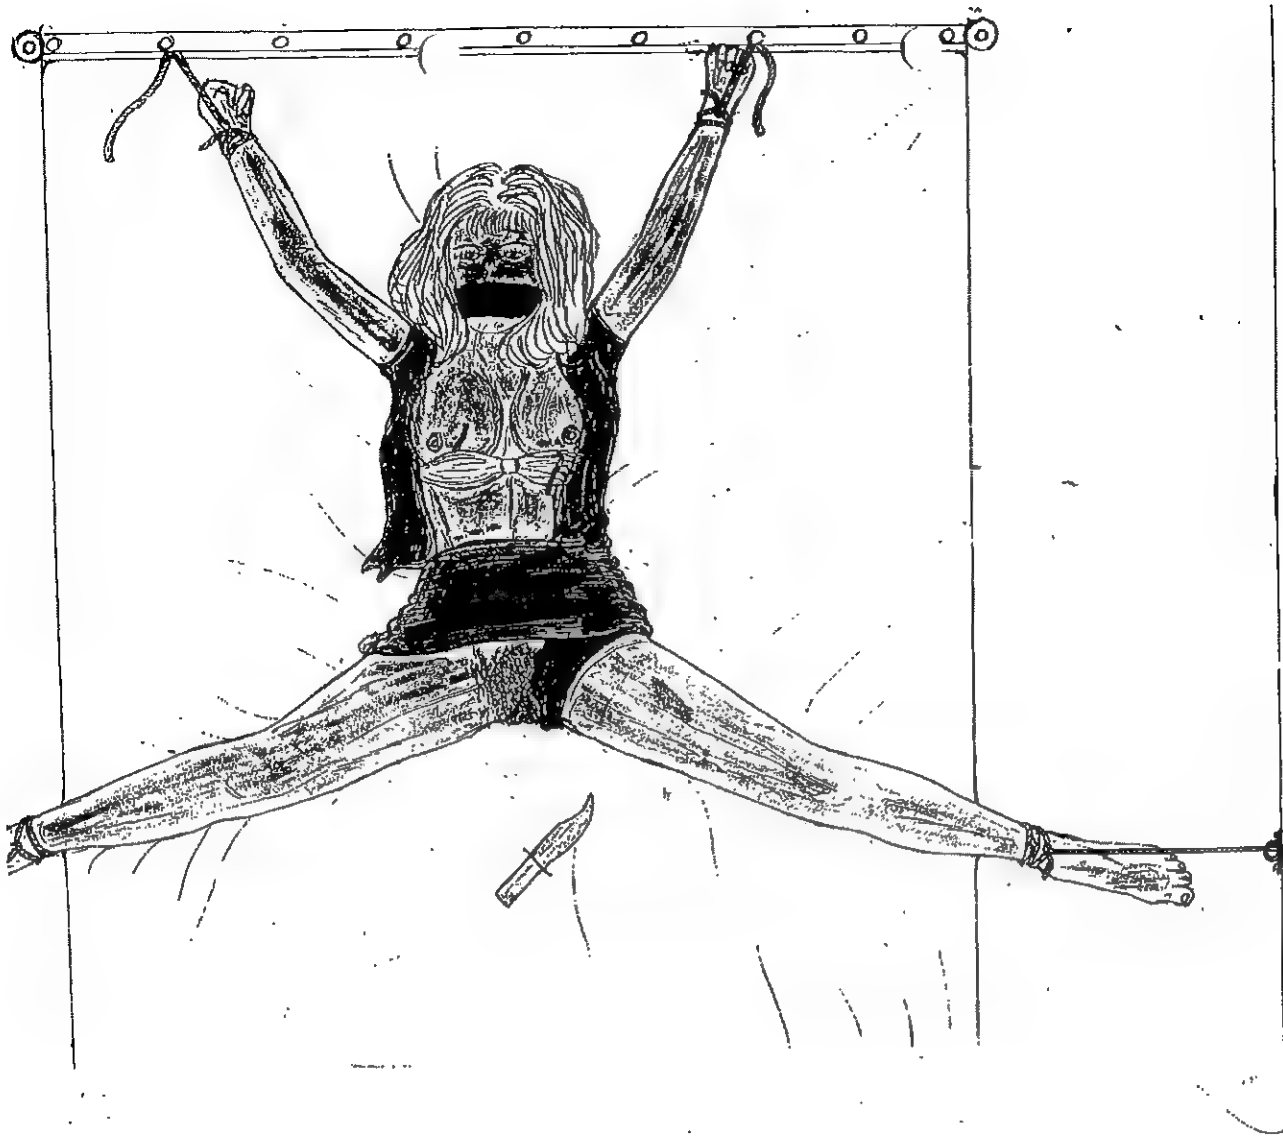

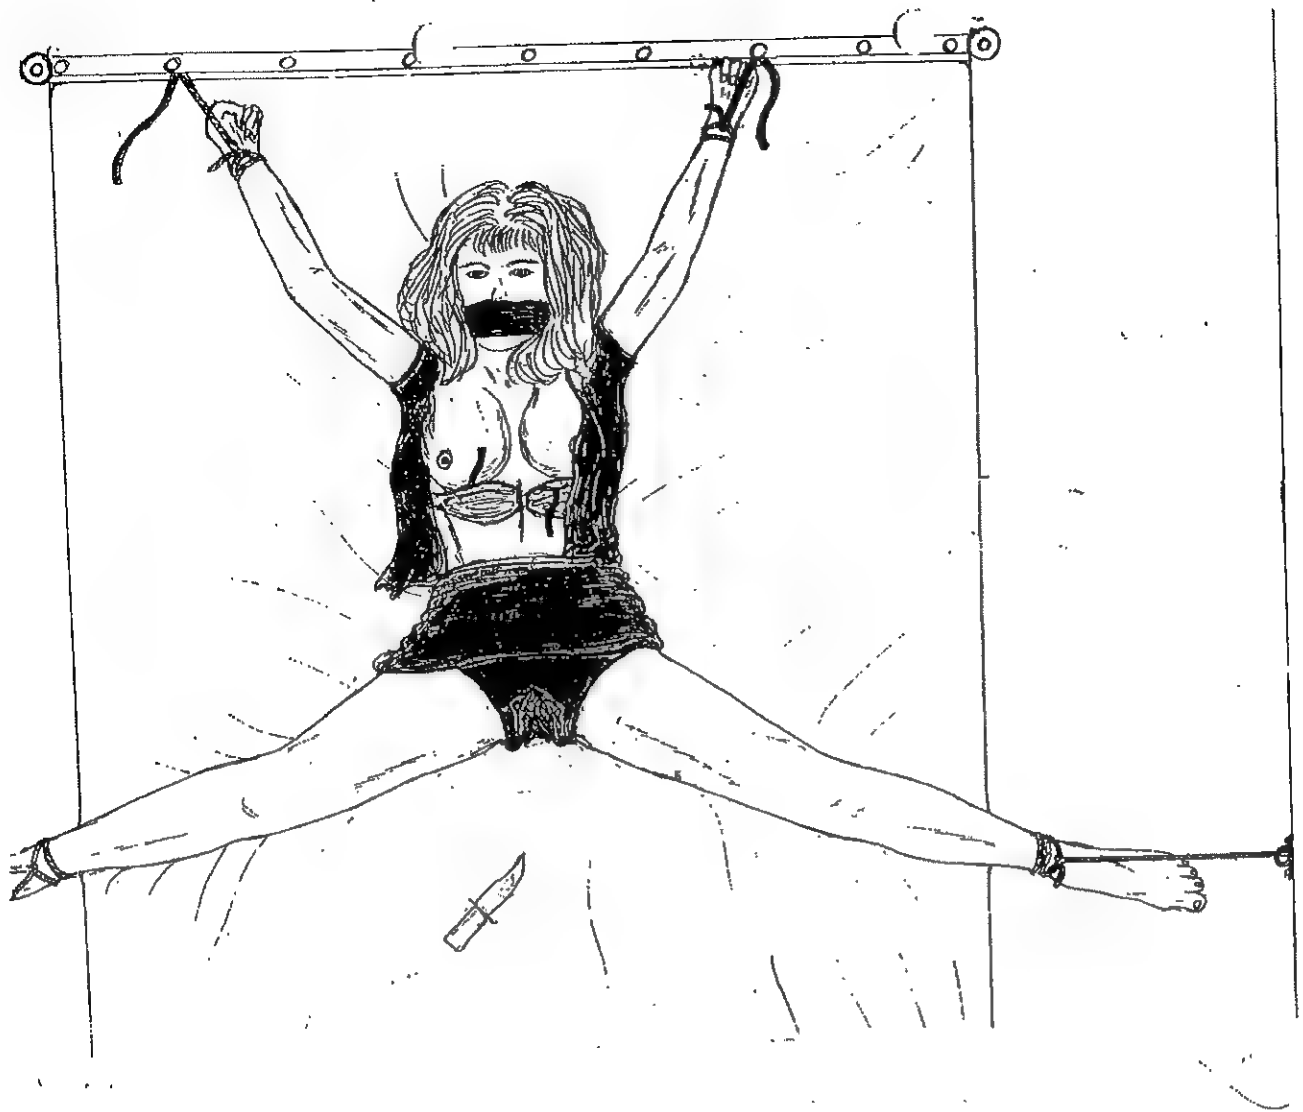

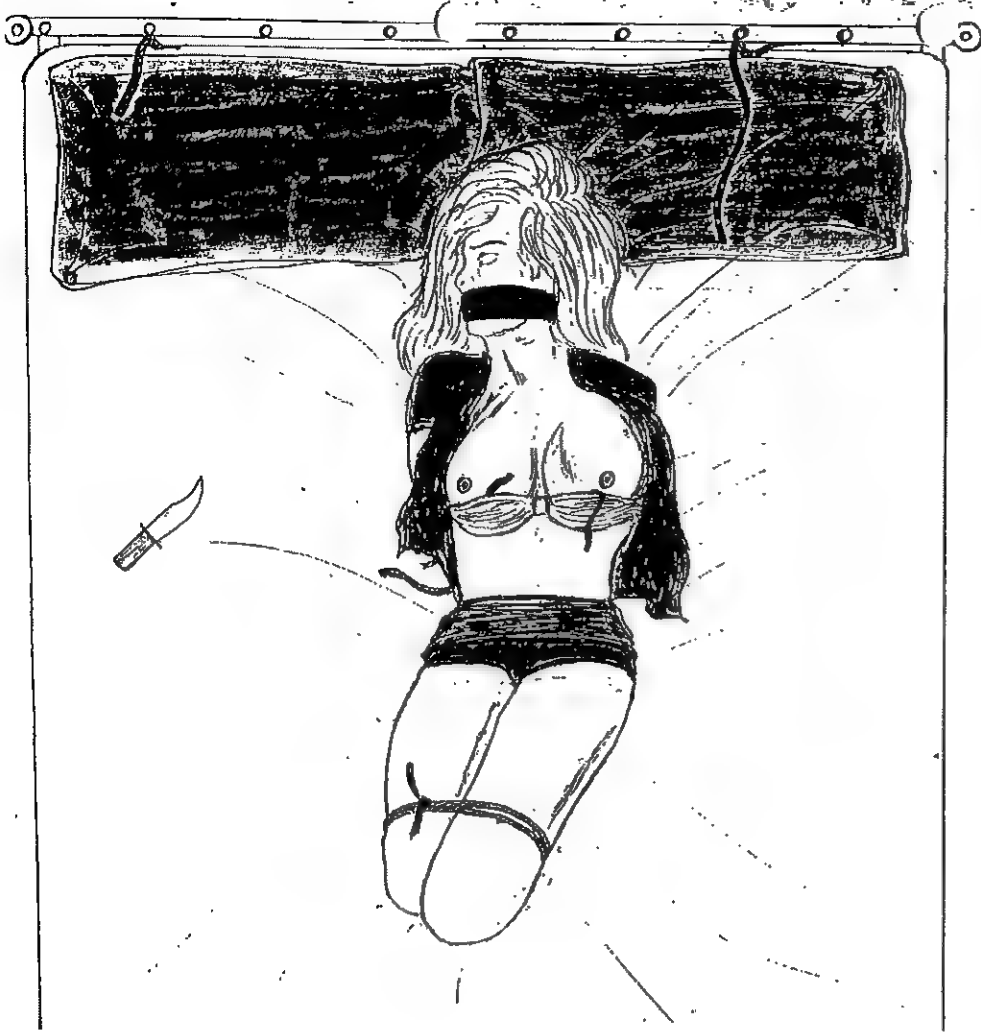

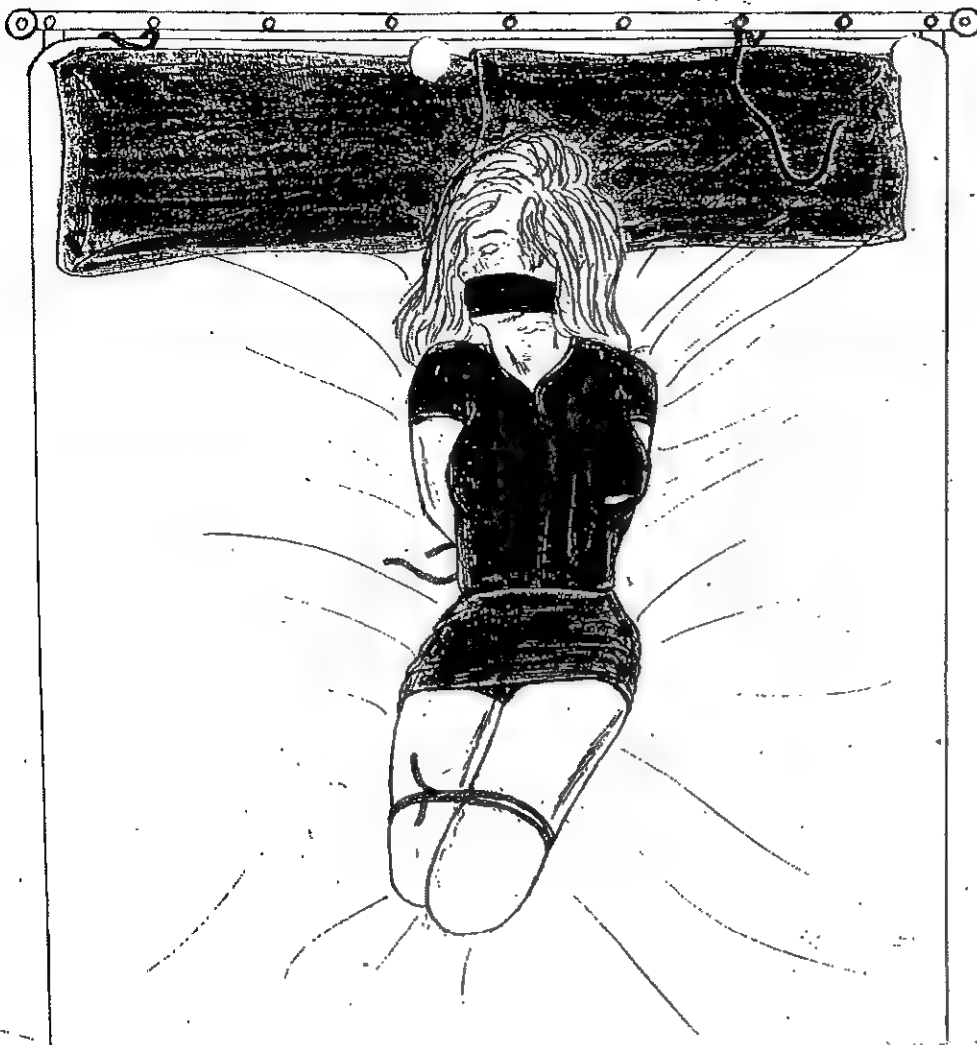

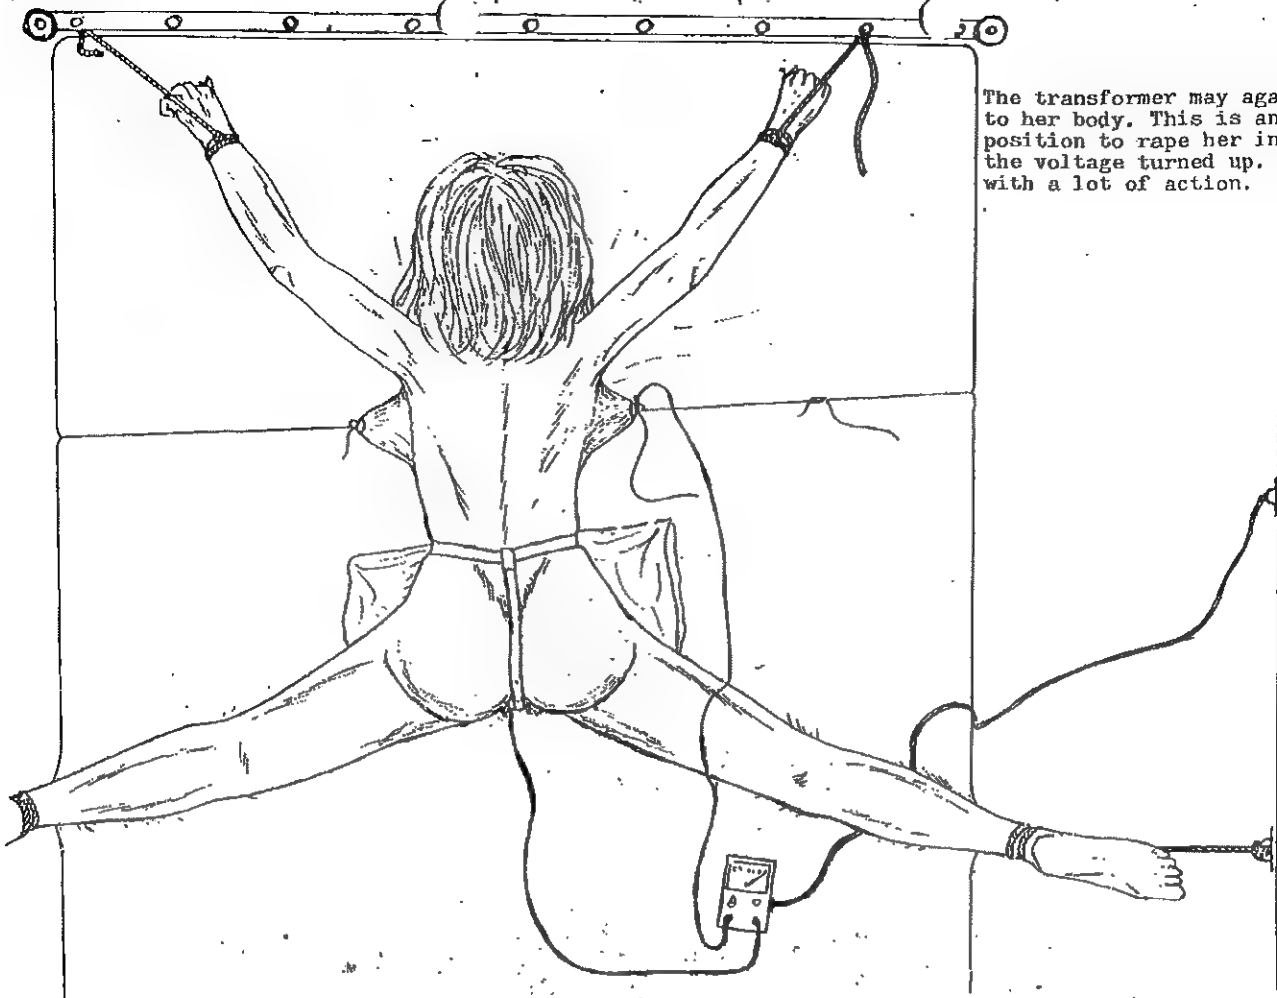

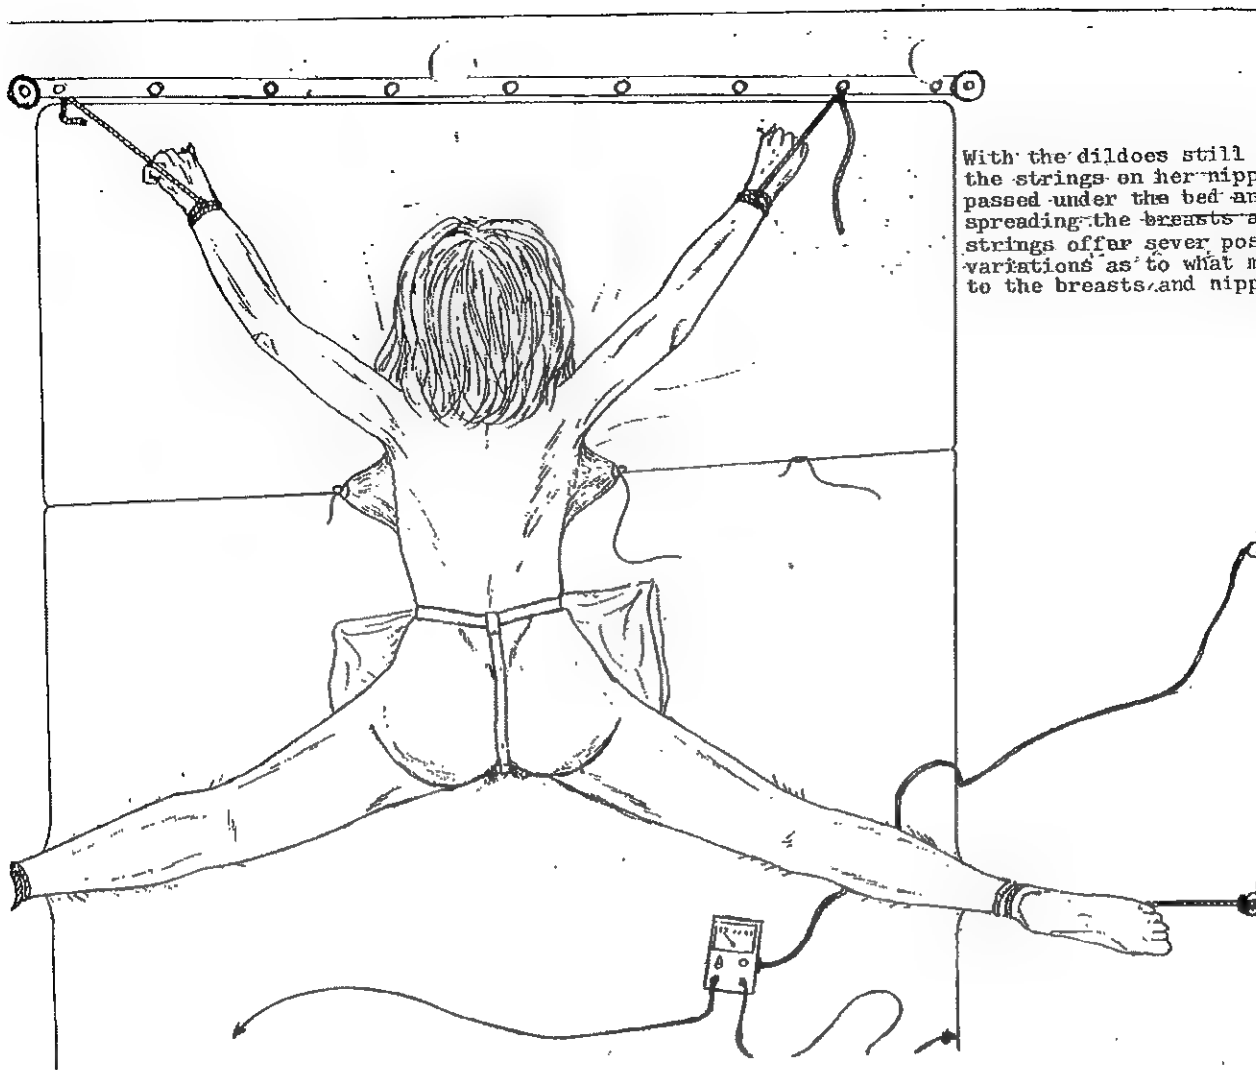

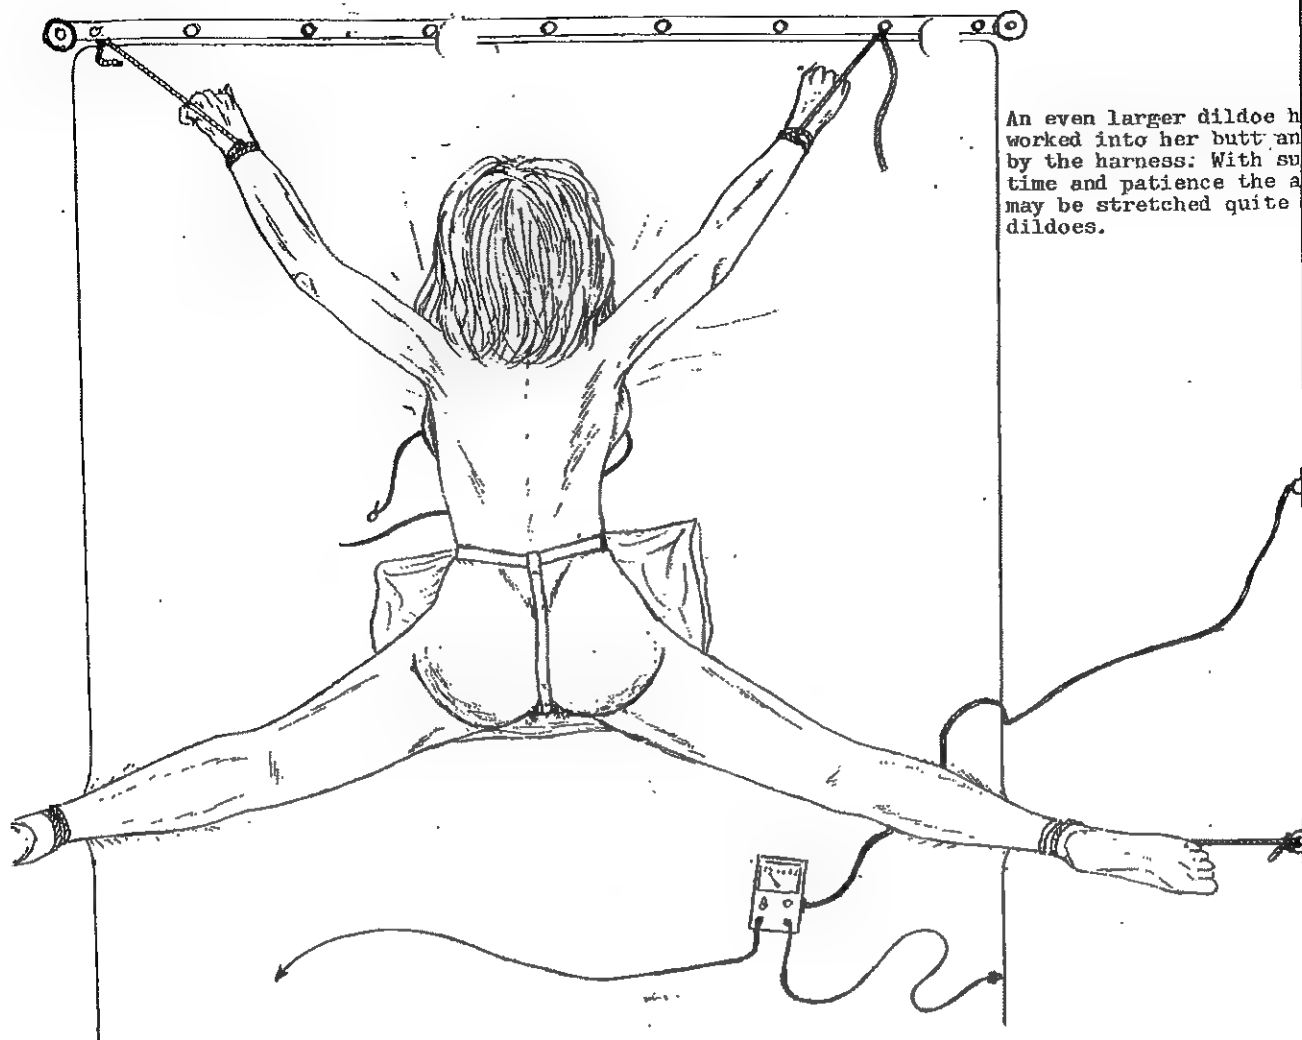

①

The transformer may again be hooked to her body. This is an excellent position to rape her in the butt with the voltage turned up. A tight hold with a lot of action.

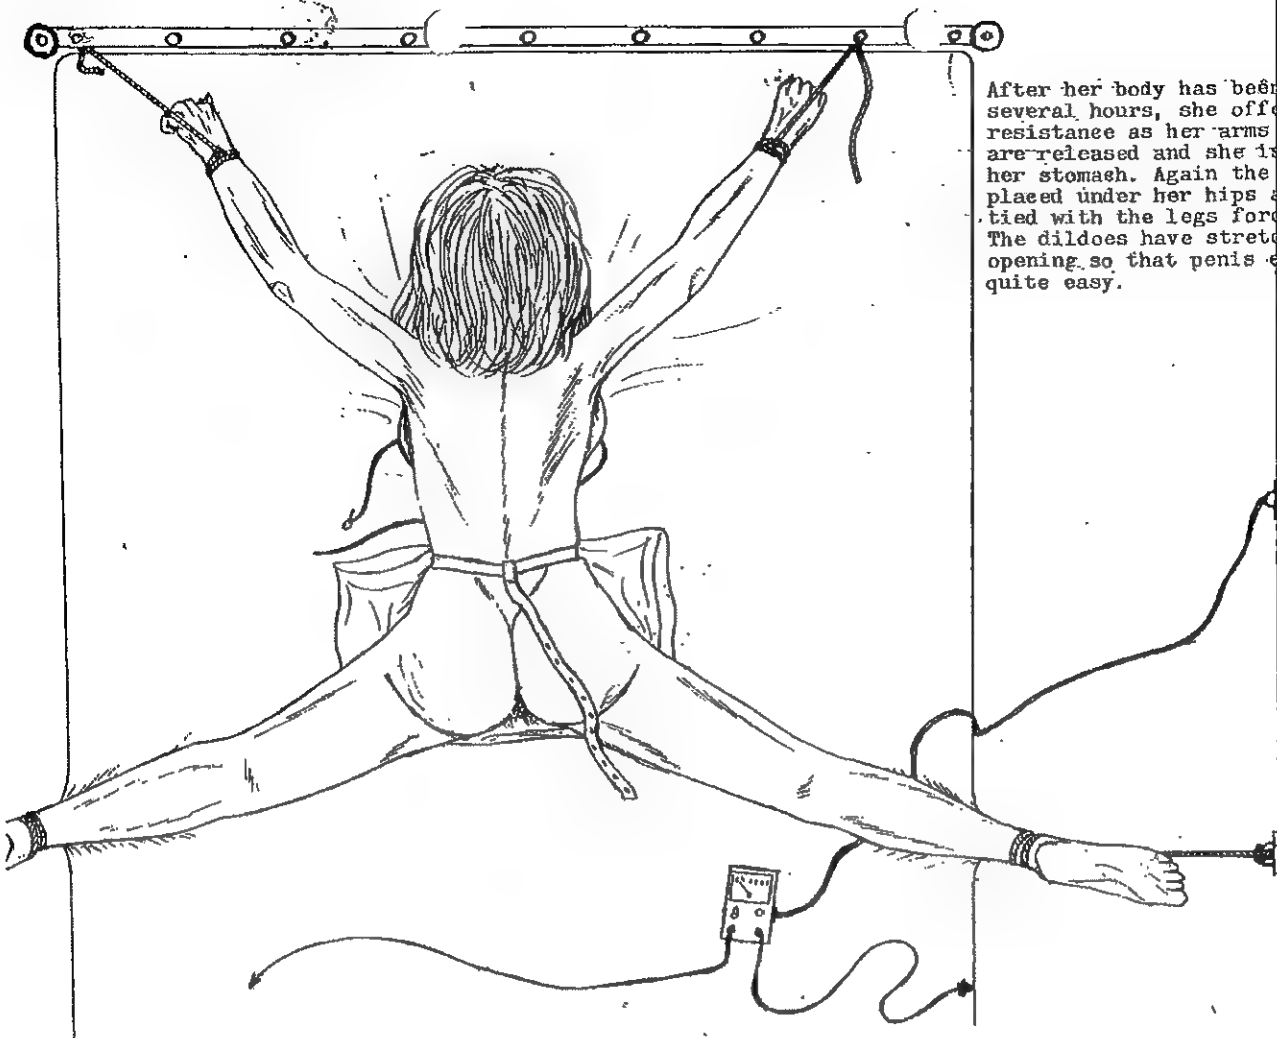

With the dildoes still inside her, the strings on her nipples were passed under the bed and drawn tight spreading the breasts apart. These strings offer sever possibilities of variations as to what may be done to the breasts and nipples.

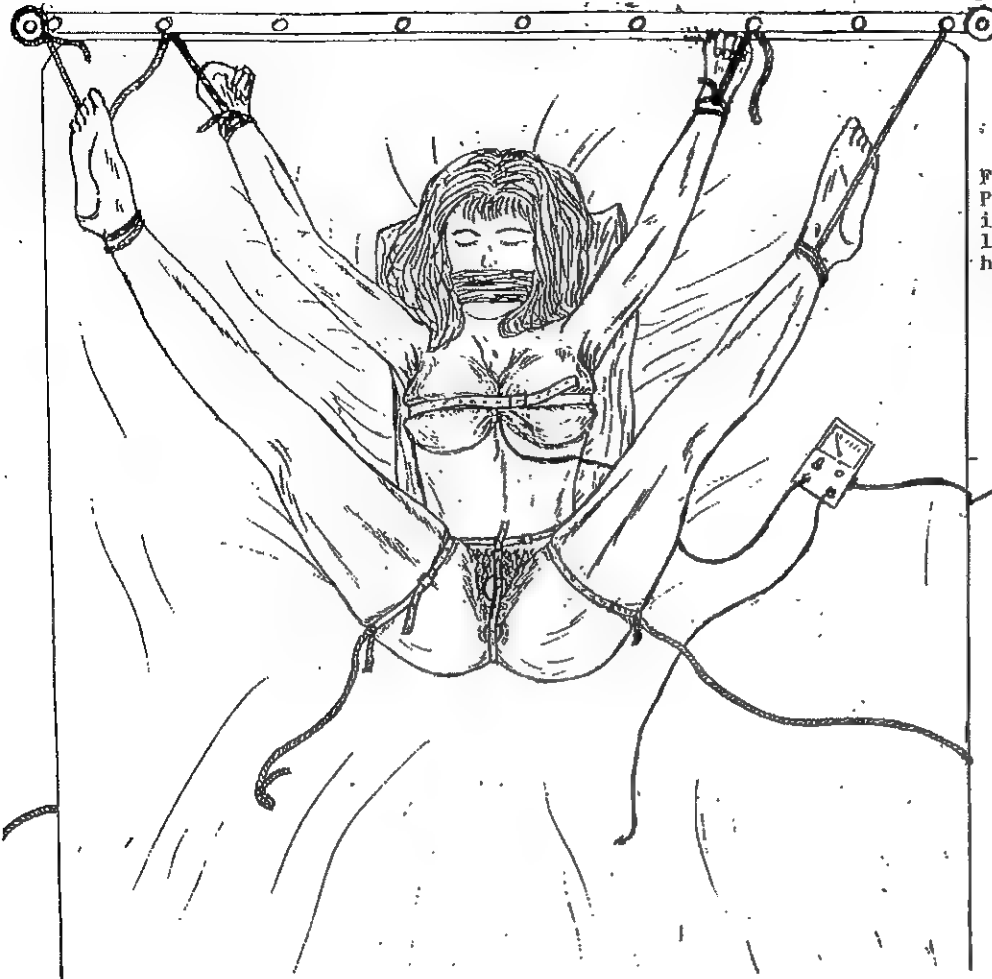

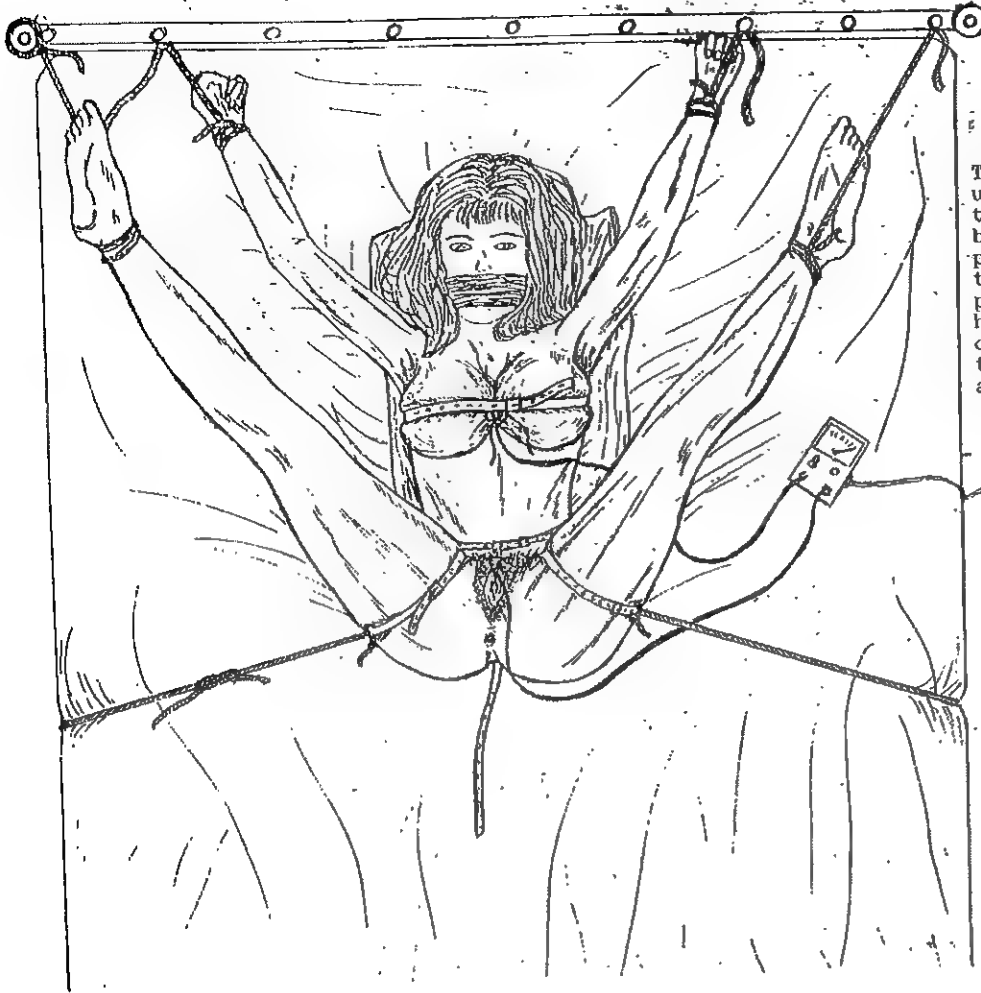

An even larger dildo has been worked into her butt and held by the harness. With sufficient time and patience the anal opening may be stretched quite large with dildoes.

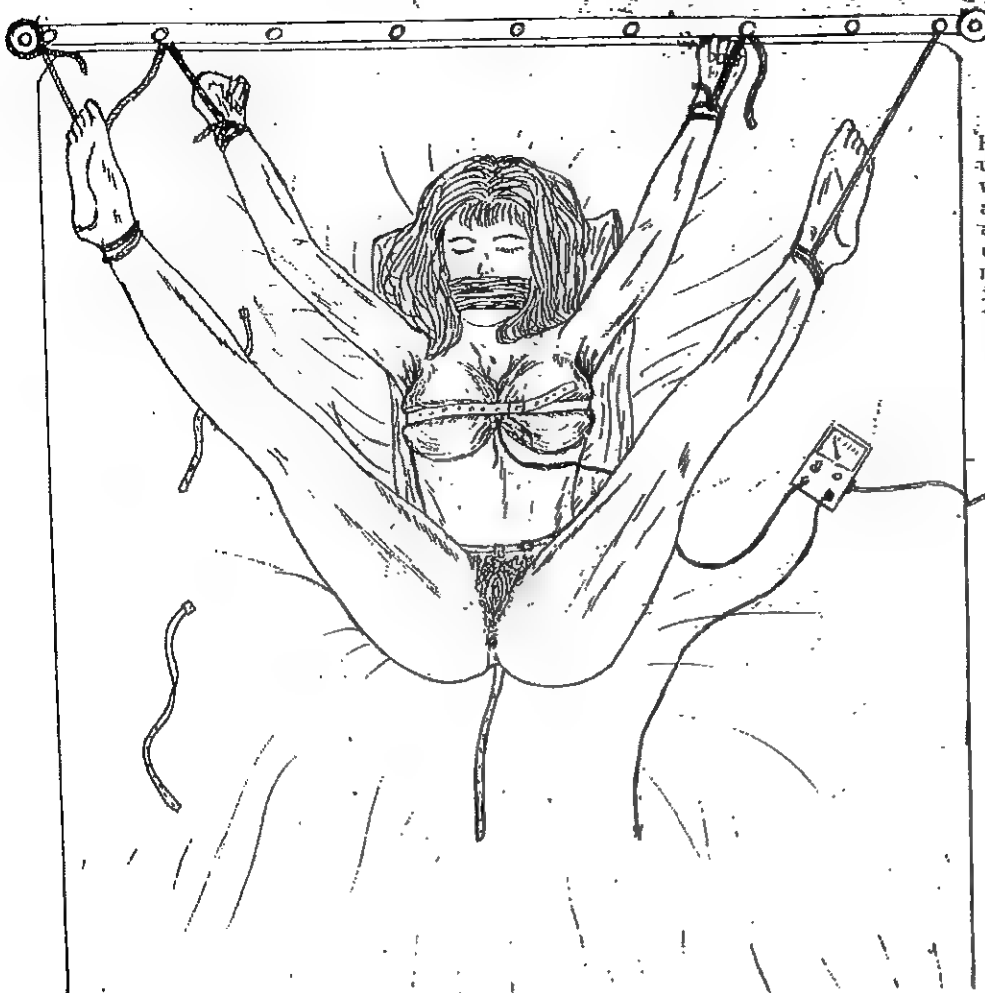

After her body has been used for several hours, she offers little resistance as her arms and legs are released and she is rolled on her stomach. Again the pillow is placed under her hips and the rope tied with the legs forced wide apart. The dildoes have stretched the opening so that penis entry is quite easy.

Finally, the dildoes are used again. Progressively larger ones are forced into her until she can take quite large ones. Here, two dildoes are held deep inside her by the harness.

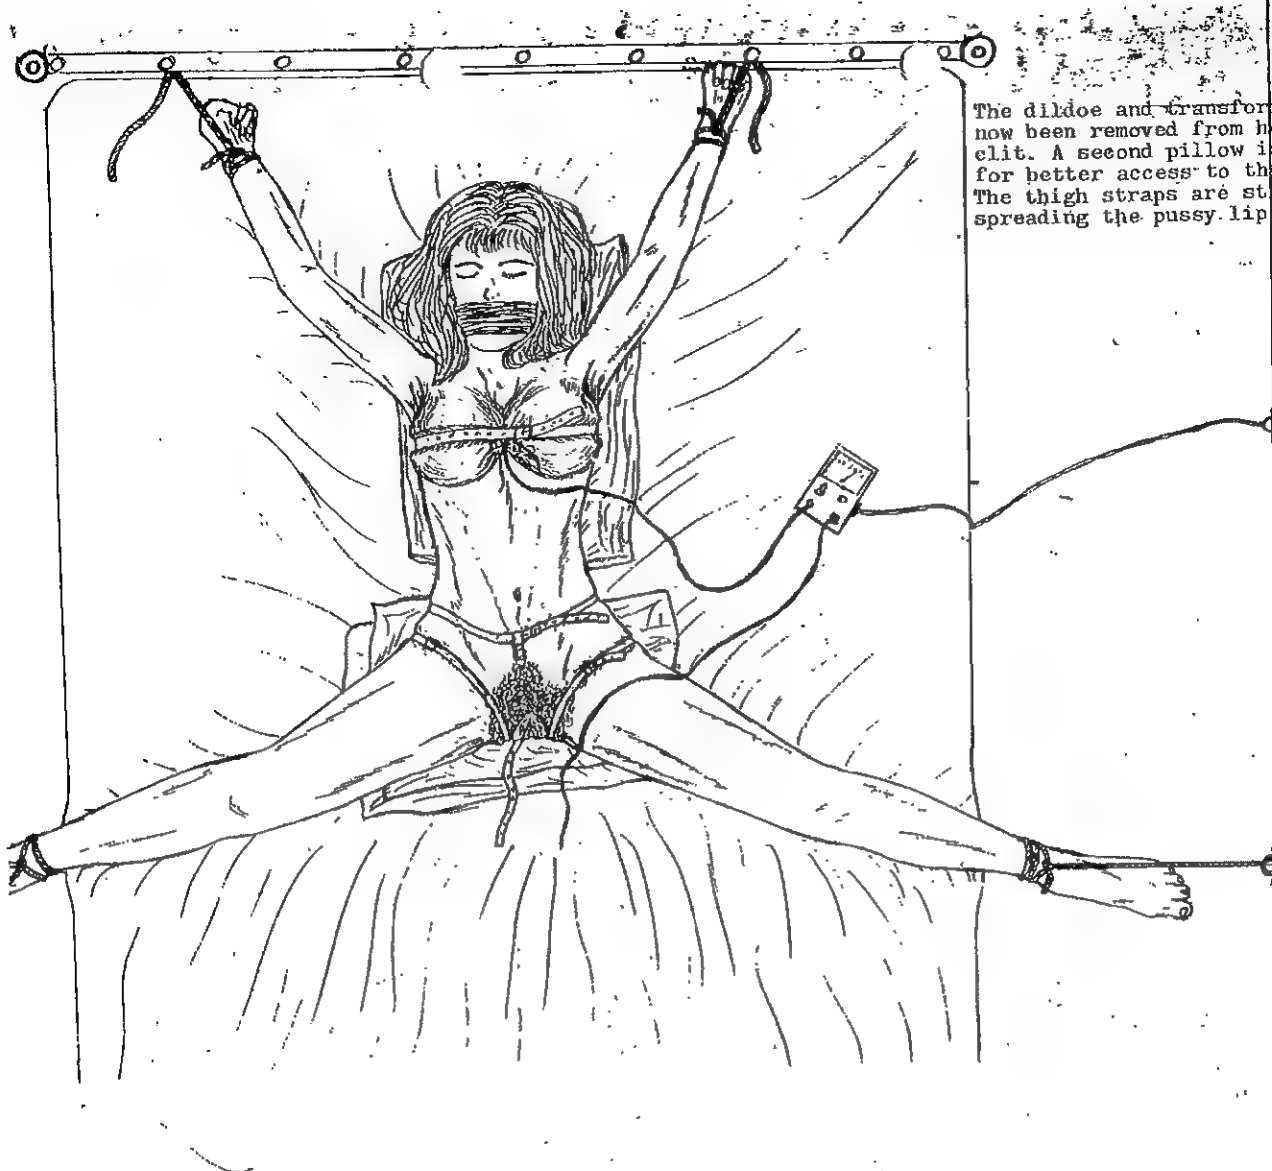

The transformer has been put into use again. The lead is clipped to the clit and straps have been buckled on each thigh with a rope passed under the bed and tied to them. This tightly drawn rope prevents excessive movement of her hips when the current is turned on. It may be desirable to use this rope during other activities also.

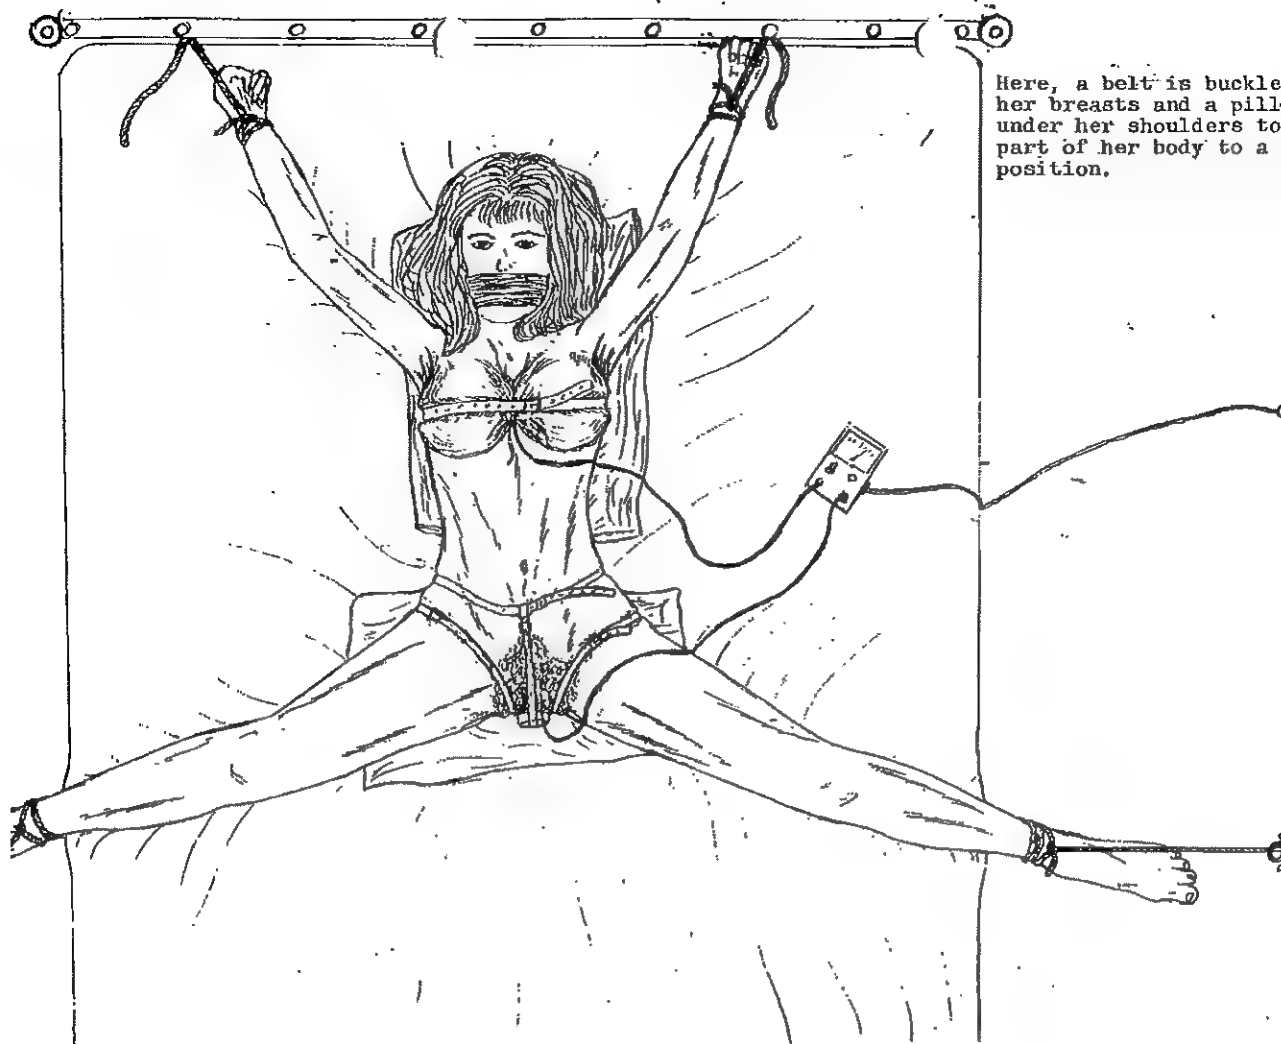

10

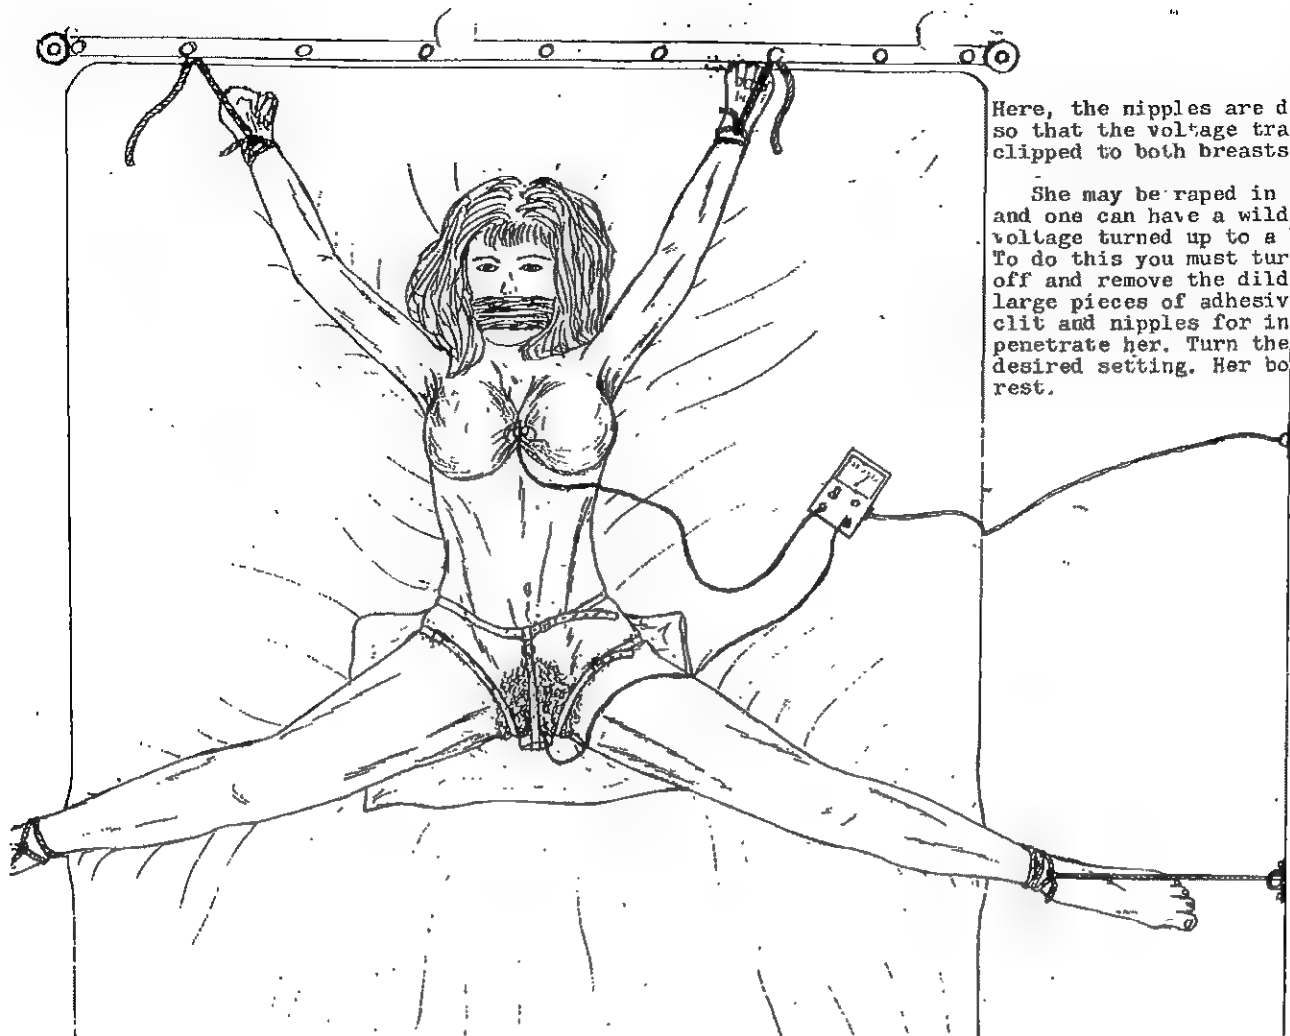

Her ankles are released and forced upward toward the head of the bed where they are again spread apart and tied. Her hips are rolled up and vaginal and anal areas fully exposed for what ever purposes you might have in mind. She may be kept in this position for any length of time for many interesting uses.

9
The dildo and transformer wire have now been removed from her pussy and clit. A second pillow is under her for better access to the vaginal area. The thigh straps are still in place spreading the pussy lips well apart.

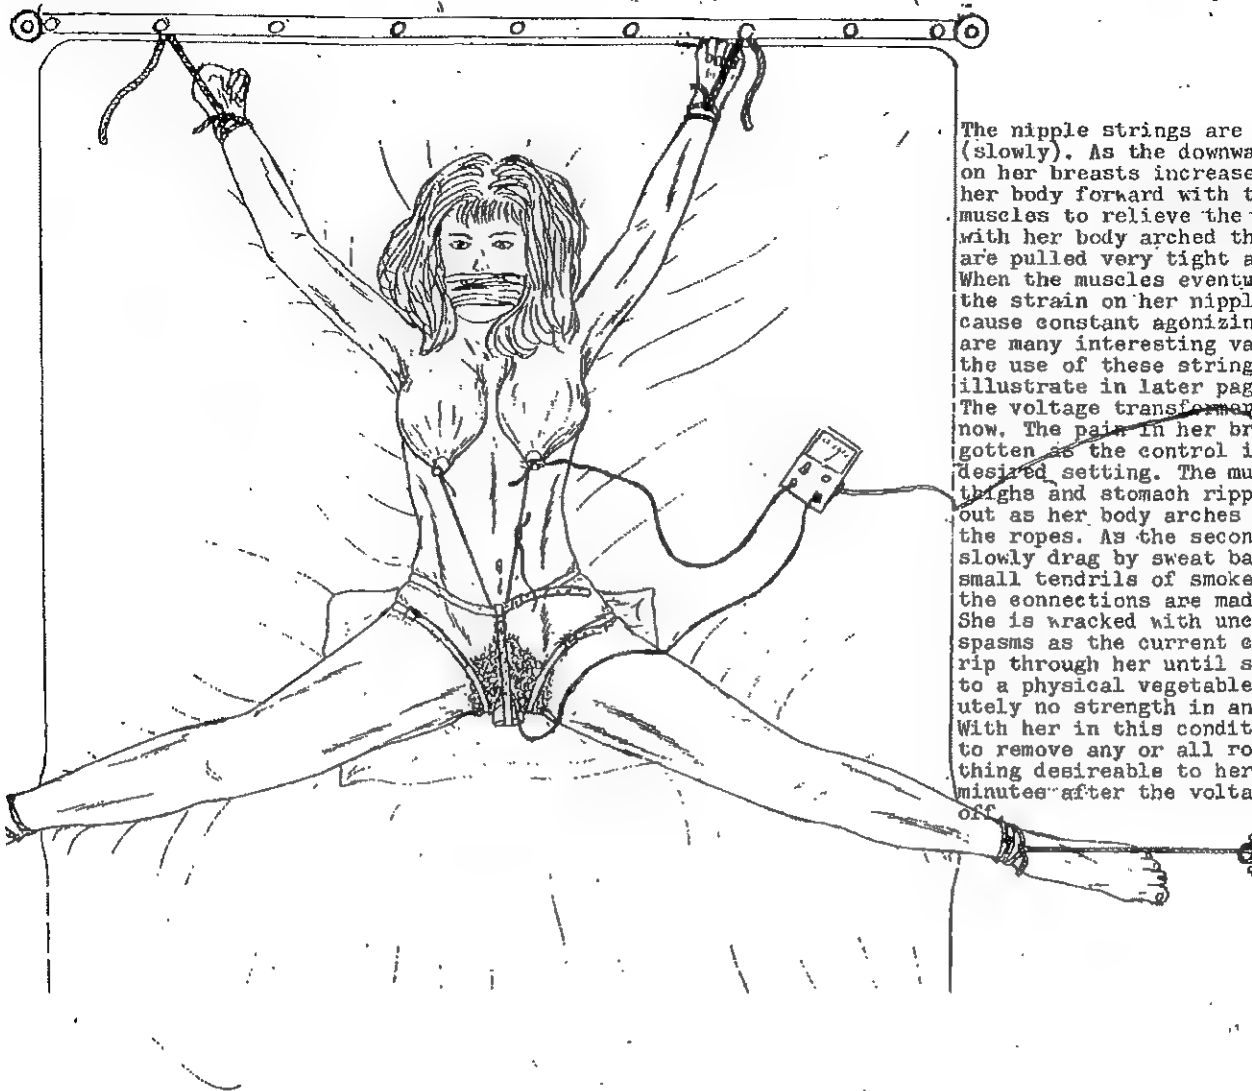

Here, a belt is buckled tightly at her breasts and a pillow is placed under her shoulders to raise the part of her body to a more elevated position.

Here, the nipples are drawn together so that the voltage transformer is clipped to both breasts and the cl

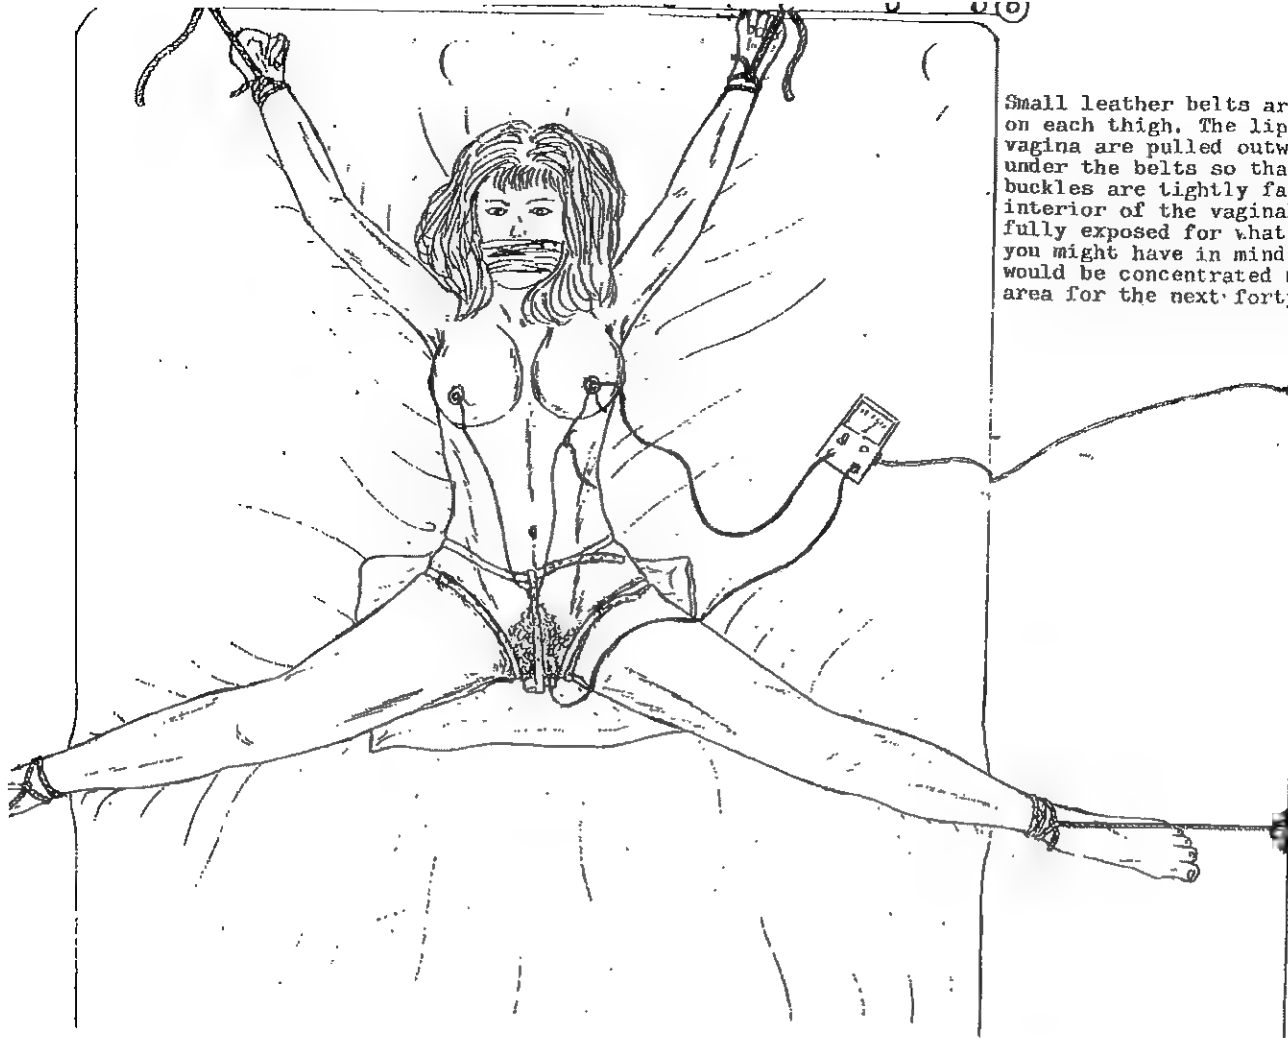

She may be raped in this position and one can have a wild fuck with voltage turned up to a high position. To do this you must turn the machine off and remove the dildo. Use two large pieces of adhesive tape on the clit and nipples for insulation as you penetrate her. Turn the voltage to desired setting. Her body will do the rest.

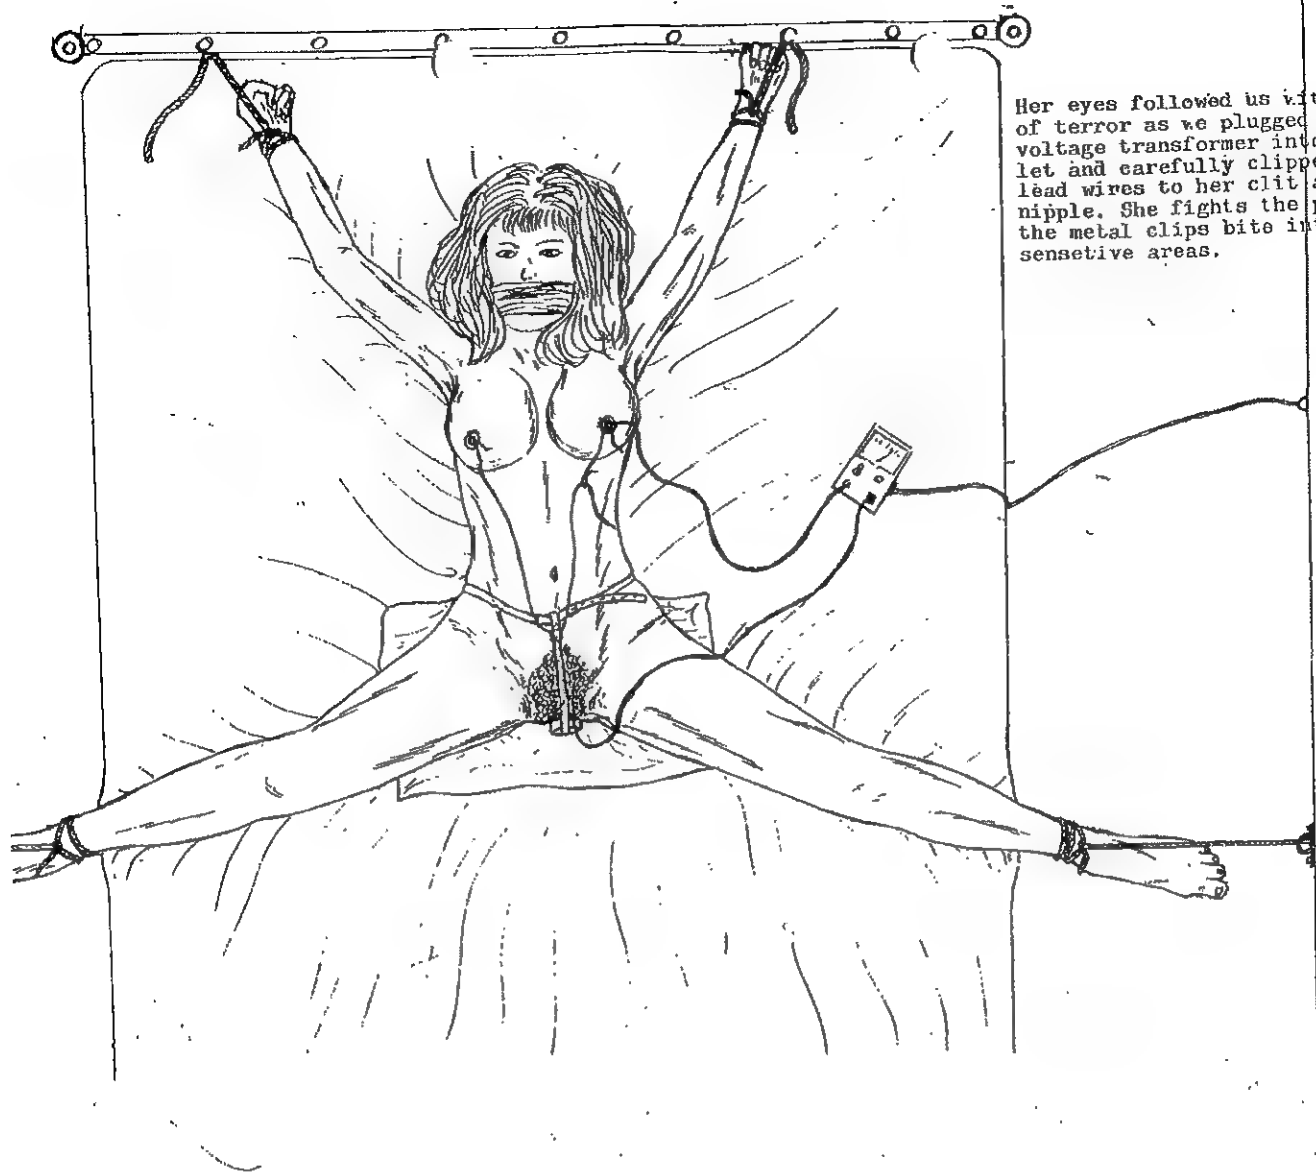

6

The nipple strings are drawn tight, (slowly). As the downward pressure on her breasts increase, she arches her body forward with the stomach muscles to relieve the pain; Now with her body arched the strings are pulled very tight and tied. When the muscles eventually fail, the strain on her nipples and breast cause constant agonizing pain. There are many interesting variations to the use of these strings as I will illustrate in later pages.

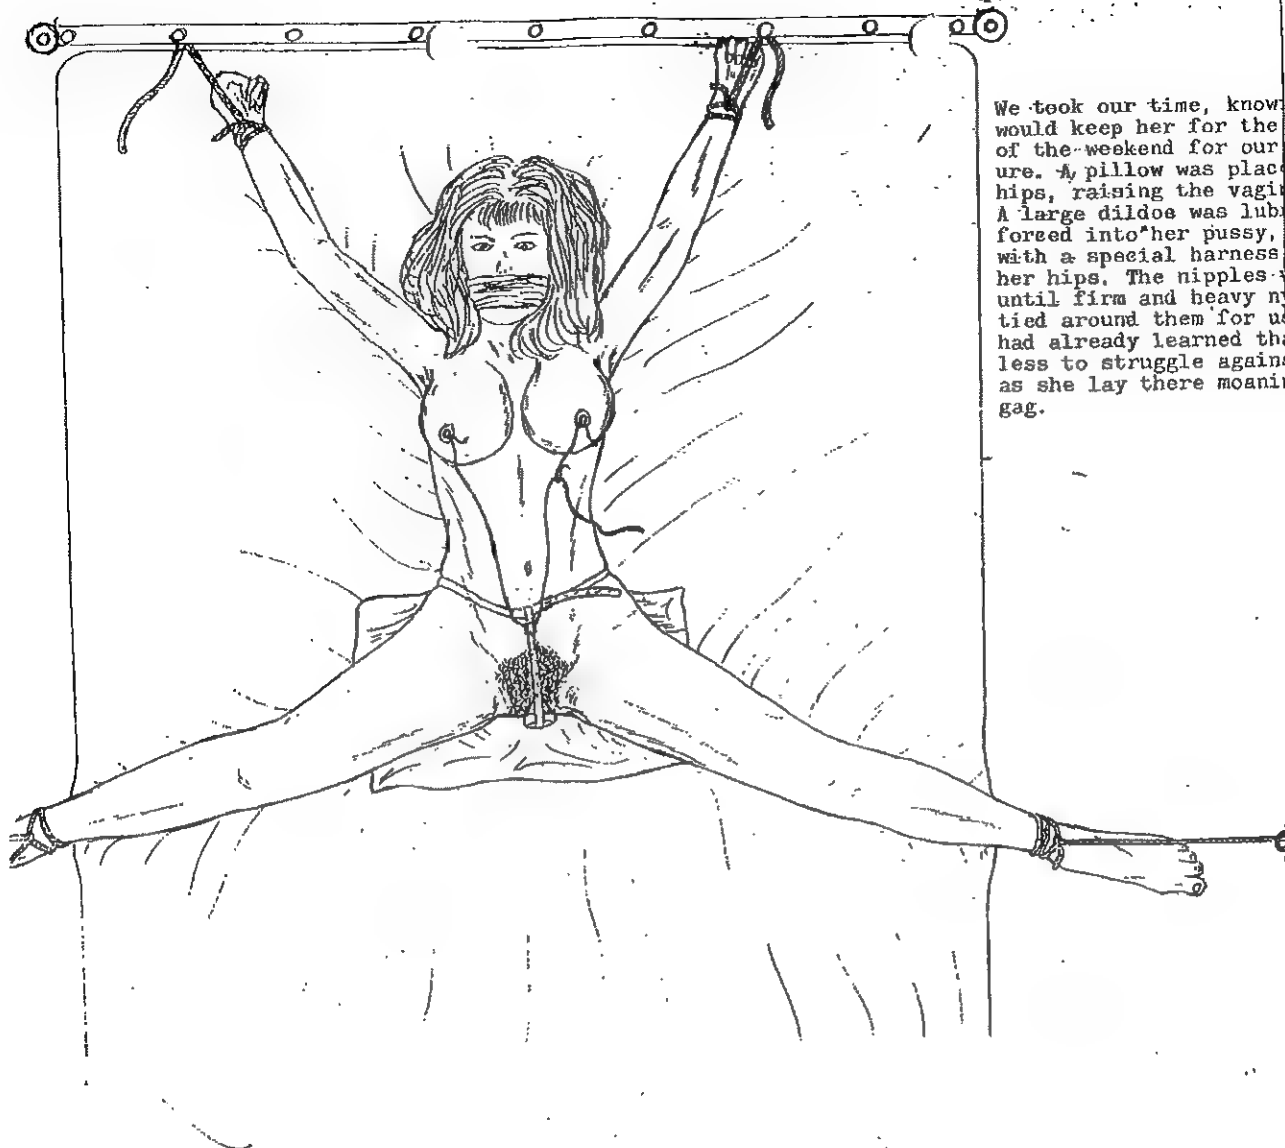

The voltage transformer is turned on now. The pain in her breasts is forgotten as the control is turned to a desired setting. The muscles in her thighs and stomach ripple and stand out as her body arches and twists in the ropes. As the seconds and minutes slowly drag by sweat bathes her and small tendrils of smoke appear where the connections are made to her body. She is wracked with uncontrollable spasms as the current continues to rip through her until she is reduced to a physical vegetable with absolutely no strength in any muscle. With her in this condition it is safe to remove any or all ropes and do anything desirable to her for several minutes after the voltage is turned off.

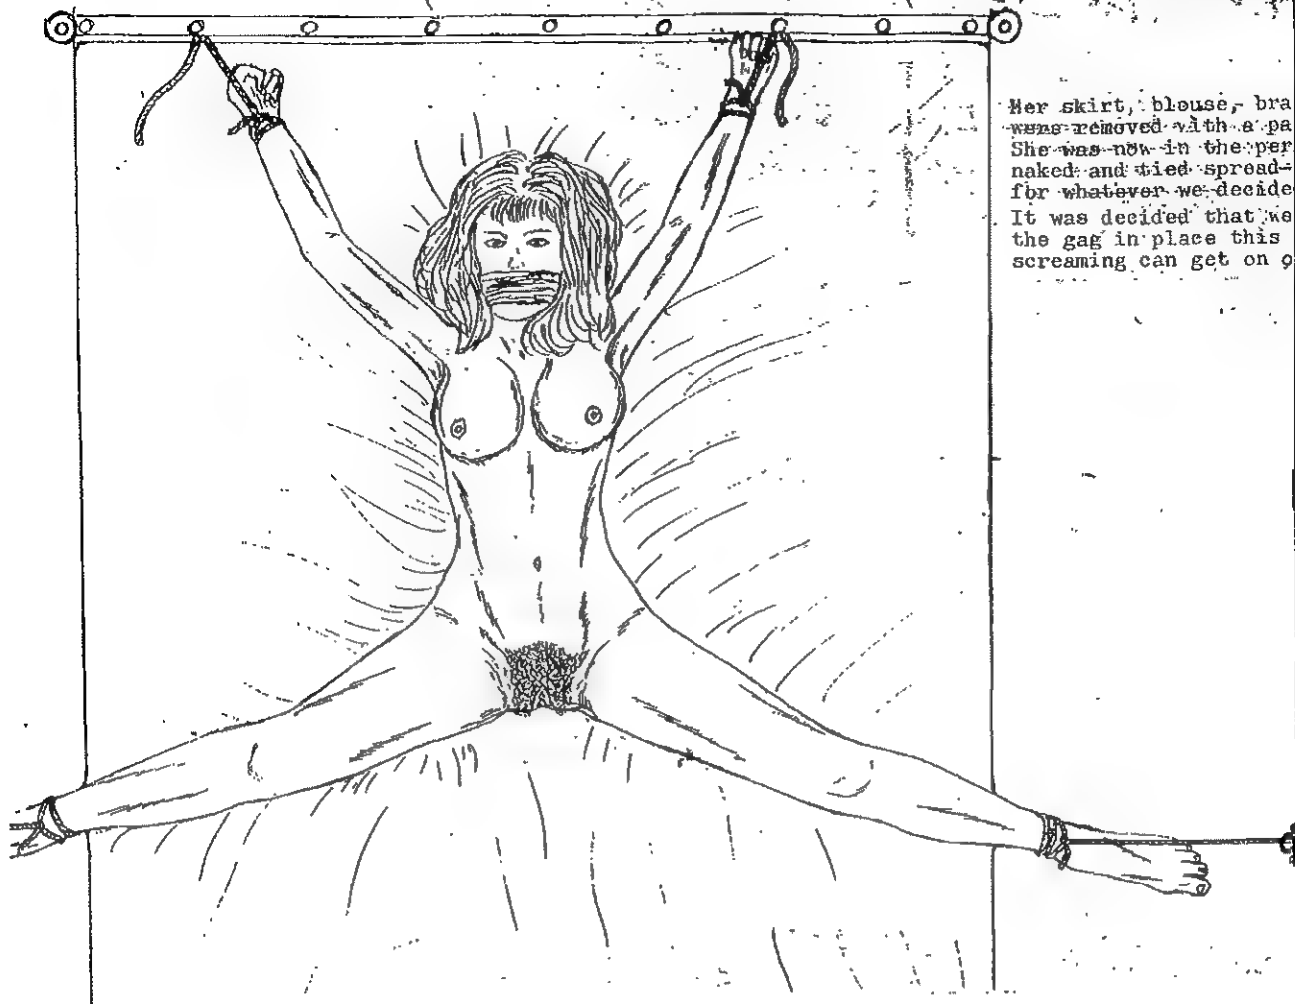

Small leather belts are placed hi on each thigh. The lips of her .. vagina are pulled outward and cau under the belts so that when the buckles are tightly fastened, the interior of the vaginal area is fully exposed for whatever purpos you might have in mind. Our inter would be concentrated mainly in t area for the next forty-eight hou

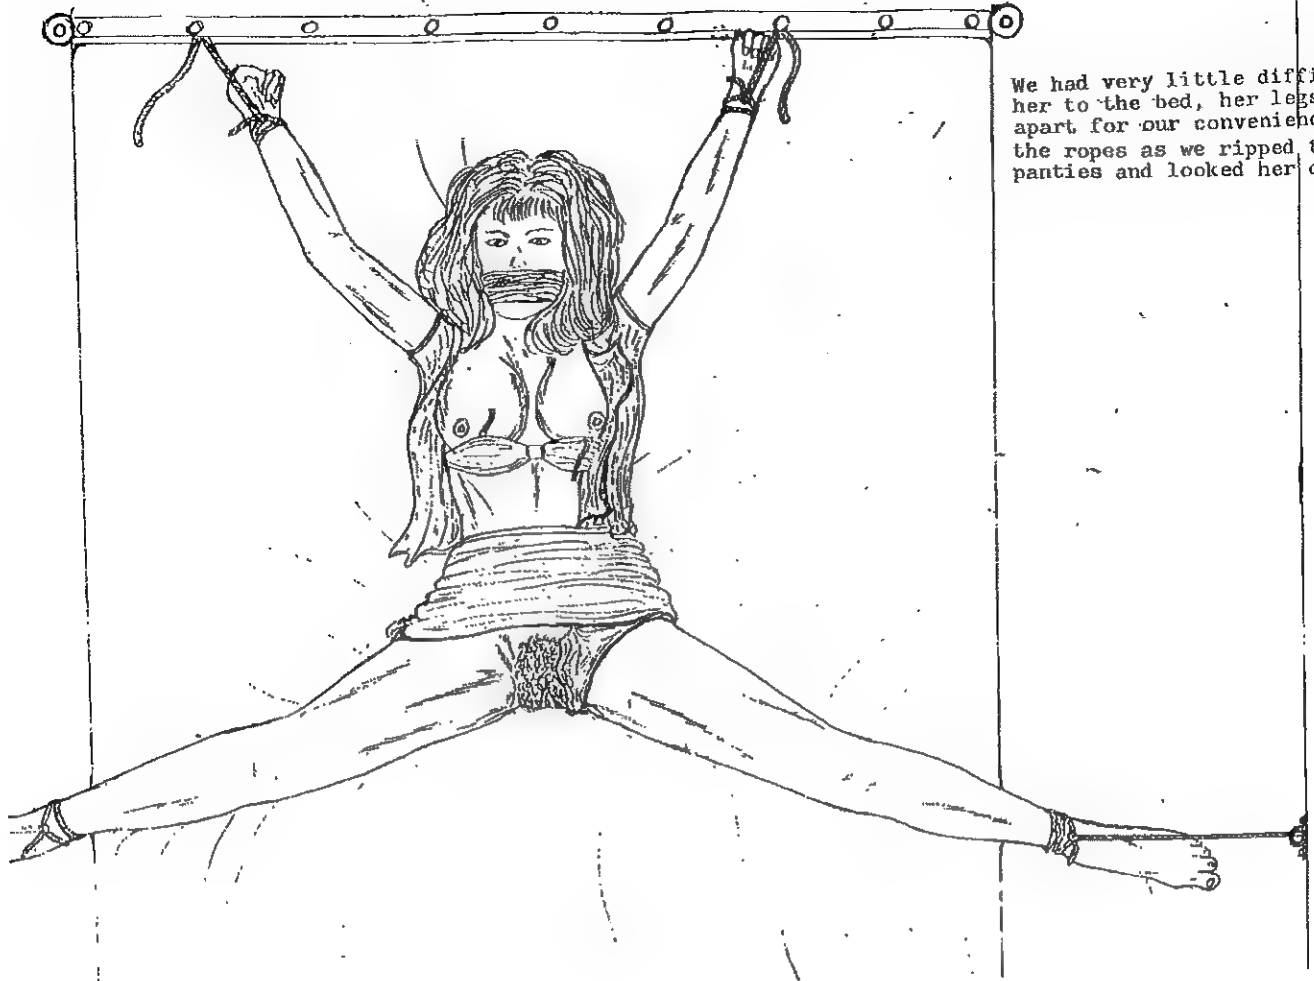

Her eyes followed us with a look of terror as we plugged the high voltage transformer into an outlet and carefully clipped the lead wires to her clit and left nipple. She fights the pain as the metal clips bite into her most sensitive areas.

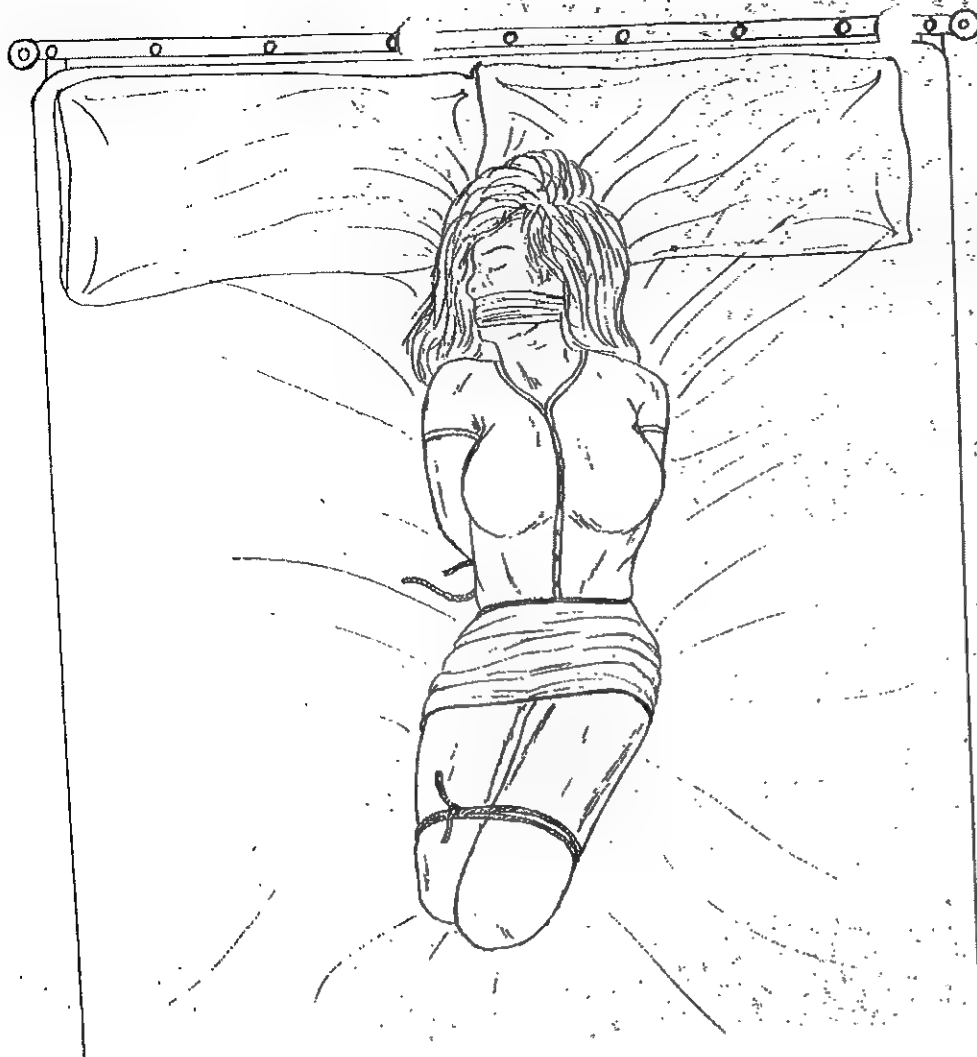

We took our time, knowing that we would keep her for the rest of the weekend for our sexual pleasure. A pillow was placed under her hips, raising the vaginal area. A large dildo was lubricated and forced into her pussy, held in place with a special harness buckled over her hips. The nipples were kneaded until firm and heavy nylon cords tied around them for use later. I had already learned that it was useless to struggle against the pair as she lay there moaning behind the gag.

Her skirt, blouse, bra, and pants
was removed with a pair of scissors.
She was now in the perfect position
naked and tied spread-eagle, ready
for whatever we decided to do.
It was decided that we would let
the gag in place this time because
screaming can get on one's nerves.

We had very little difficulty t
her to the bed, her legs spread
apart for our convenience. She
the ropes as we ripped the bra
panties and looked her over.

0

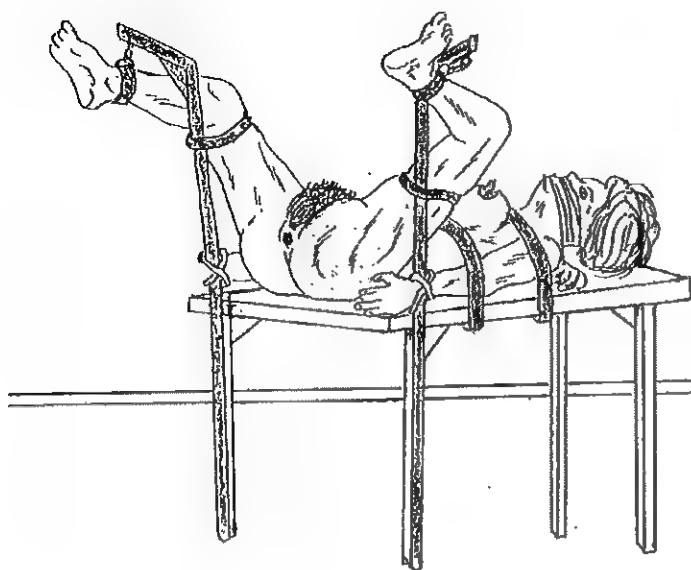

This particular subject was pick up at a bar one Friday evening.. She was taken from the parking l as she attempted to get into her car. Her hands were tied behind back and the legs secured at the ankles and knees. Her feet were drawn up behind her back and tie to the hands. She was completely helpless as we drove to our mour cabin.
